Table Assembly (Part 1)

1. Place the table top (A1) upside down on a soft surface, such as a carpet, to prevent damage.
2. Attach the four table legs (A2) to the table top (A1) using the provided screws (a1), steel washers (a6), and PVC bolt covers (a7). Do not overtighten the screws at this stage.

3. Attach the frame (A3) to the table legs (A2) using the remaining screws (a2), steel washers (a6), and PVC bolt covers (a7). Again, do not overtighten.
4. Once all components are loosely attached, carefully tighten all screws to secure the table structure.

Chair Assembly (Part 2)

1. Begin by attaching the seat (B2) to one of the armrests (B3 or B4) using screws (a3), steel washers (a6), and PVC bolt covers (a7).
2. Attach the other armrest (B4 or B3) to the seat (B2) using the same hardware.
3. Connect the backrest (B1) to the assembled seat and armrest frame using screws (a5), steel washers (a6), and PVC bolt covers (a7).
4. Ensure all connections are aligned, then fully tighten all screws.

5. Place the seat cushion (B5) onto the chair seat. Secure it using the strong adhesive velcro straps located on the cushion and chair frame.

OPERATING INSTRUCTIONS

The Pamapic Patio Dining Set is designed for comfortable outdoor dining and relaxation. Once assembled, ensure the set is placed on a flat, stable surface to prevent wobbling. The table features a 2-inch hole, allowing for the addition of a parasol (not included) for shade during sunny days. The adjustable legs on the table ensure stability on uneven surfaces.

MAINTENANCE

Proper maintenance will extend the lifespan of your Pamapic Patio Dining Set.

- **Cleaning:** Wipe the iron and PE rattan surfaces with a damp cloth. For stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water and drying thoroughly.
- **Cushion Care:** The seat cushions are machine washable. Remove them from the chairs and follow the care instructions on the cushion label. Allow cushions to air dry completely before reattaching to prevent mildew.
- **Seasonal Storage:** During prolonged periods of non-use or harsh weather conditions, it is recommended to cover the furniture or store it indoors to protect it from the elements.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten as necessary to maintain stability.

TROUBLESHOOTING

This section addresses common issues you might encounter during assembly or use.

- **Difficulty Aligning Screws During Assembly:** If screw holes do not align easily, loosen all previously tightened screws slightly. This provides more flexibility to adjust components. Once all screws are in place, then proceed to tighten them fully. Do not force screws, as this can strip threads.
- **Wobbly Table/Chairs:** Ensure all screws are fully tightened. For the table, utilize the adjustable legs to level it on

uneven surfaces.

- Cushions Slipping:** The cushions are equipped with strong adhesive velcro. Ensure the velcro straps are securely fastened to the chair frame. If they become less adhesive over time, clean both surfaces to remove dirt or debris.
- Damage During Transit:** If any parts are damaged upon arrival, do not attempt to assemble the product. Contact customer service immediately with details and photographic evidence of the damage.
