HROEENOI WRHW03

HROEENOI USB Headset (Model WRHW03) Instruction Manual

1. INTRODUCTION

The HROEENOI USB Headset (Model WRHW03) is designed to provide superior audio clarity and comfort for various applications, including Zoom meetings, Skype calls, e-learning, and office work. This headset features advanced noise-cancelling technology, an adjustable design, and versatile connectivity options to ensure a seamless communication experience.

Its lightweight construction and soft ear cushions are engineered for all-day comfort, making it an ideal tool for professionals and students alike. The headset offers both USB and 3.5mm jack connections, ensuring wide compatibility with a range of devices.

2. PACKAGE CONTENTS

Upon opening your HROEENOI USB Headset package, you should find the following items:

- 1 x HROEENOI USB Headset (Model WRHW03)
- 1 x User Manual
- 1 x Storage Bag
- 1 x USB Jack Cable (integrated with in-line controls)
- 1 x 3.5mm Jack Cable (detachable)
- Ear Cushions (pre-installed)

3. PRODUCT FEATURES

3.1. Noise-Cancelling Microphone

The headset is equipped with a built-in noise-cancelling microphone that provides enhanced digital audio for clear and high-quality conversations. This feature helps to filter out ambient noise, ensuring your voice is heard clearly during calls and recordings.

NOISE CANCELLING MIC

Advanced noise cancelling technology provide enhanced digital audio for clear and high-quality conversation.

4. SETUP INSTRUCTIONS

4.1. Connecting to a Computer (USB)

To connect your HROEENOI USB Headset to a computer (Windows, Mac, or Laptop):

1. Plug the USB connector of the headset into an available USB port on your computer.
2. The headset is plug-and-play; your computer should automatically detect and install the necessary drivers.
3. The LED indicator on the in-line control will light up, indicating the headset is connected and working.

4.2. Connecting to Mobile/Tablet (3.5mm Jack)

To connect your HROEENOI USB Headset to a mobile phone or tablet:

1. Detach the 3.5mm audio plug from the USB in-line control.
2. Plug the 3.5mm audio jack directly into the audio port of your mobile phone or tablet.

4.3. Audio and Microphone Settings for Computer / PC

For optimal performance, ensure your computer's audio settings are configured correctly:

- Set the audio output on your computer to:**USB Audio Device**.
- Ensure the computer's master volume is not muted.
- Turn on the speaker button on the headset's in-line control.
- Ensure the microphone is not muted in your system settings or on the in-line control.

5. OPERATING INSTRUCTIONS

5.1. Using In-line Controls

The in-line control unit provides quick access to essential audio functions:

- **Volume Up/Down:** Press the '+' or '-' buttons to adjust the listening volume.
- **Mute Speaker:** Press the speaker icon button to mute or unmute the audio output.
- **Mute Microphone:** Press the microphone icon button to mute or unmute your microphone. The indicator light will change to reflect the microphone's status.

Video 2: Demonstrates the functionality of the in-line controls for the HROEENOI Computer Headset.

5.2. Adjusting the Microphone

The microphone boom is flexible and can be adjusted to ensure optimal voice capture. Rotate the microphone boom to position it comfortably near your mouth. It can be worn on either the right or left side of your head.

6. COMPATIBILITY

The HROEENOI USB Headset offers broad compatibility with various operating systems and devices:

- **Operating Systems:** Windows 2000/7/8/10/XP/Vista, Mac OS X, iOS, Android.
- **Devices:** Computers, Laptops, Tablet PCs, Cell Phones, Telephones (via 3.5mm jack).

Video 3: Showcases the headset's use in professional settings, online courses, and for music.

7. TROUBLESHOOTING

If you encounter issues with your headset, please follow these steps:

- **No Audio Output:**

  - Ensure the headset is correctly plugged into the USB port or 3.5mm jack.
  - Check your computer's audio output settings and select "USB Audio Device" as the output.
  - Verify that the computer's master volume is not muted.
  - Confirm the speaker button on the headset's in-line control is turned on.

- **Microphone Not Working:**

  - Ensure the headset is correctly plugged in.
  - Check your computer's microphone input settings and select "USB Audio Device" as the input.
  - Confirm the microphone button on the headset's in-line control is turned on (not muted).

- **Echo or Poor Sound Quality:**

  - Adjust the input and output volume levels in your device's sound settings to prevent feedback.
  - Ensure the microphone is positioned correctly and not too close to your mouth or speakers.
