MY BEAUTY LIGHT RM006

MY BEAUTY LIGHT RF Remote Controller User Manual

Model: RM006

INTRODUCTION

This manual provides detailed instructions for the operation, setup, and maintenance of your MY BEAUTY LIGHT RF Remote Controller, Model RM006. This remote is designed to control LED strip lights using Radio Frequency (RF) technology, offering convenient and ergonomic control over your lighting.

PRODUCT OVERVIEW

Image: Front view of the MY BEAUTY LIGHT RF Remote Controller, showing its buttons and layout.

The MY BEAUTY LIGHT RF Remote Controller features a compact and ergonomic design, providing intuitive control for compatible LED strip lights. It operates on Radio Frequency, allowing for control without direct line-of-sight. The remote includes dedicated buttons for power, brightness adjustment, preset dimming levels, color temperature control, and timer functions.

SETUP

1. Battery Installation

The remote controller requires 1 Lithium Metal battery (included). To install or replace the battery:

1. Locate the battery compartment cover on the back of the remote.
2. Slide the cover open in the direction indicated by the arrow.

3. Insert the Lithium Metal battery, ensuring the correct polarity (+/-) as marked inside the compartment.
4. Slide the battery compartment cover back into place until it clicks securely.

2. Pairing with LED Strip Light

This RF remote controller is typically pre-paired with compatible MY BEAUTY LIGHT LED strip lights. If pairing is required or if you are connecting to a new light, follow the instructions provided with your specific LED strip light for pairing procedures. Generally, this involves powering on the light and pressing a specific button combination on the remote within a short timeframe.

OPERATING INSTRUCTIONS

Familiarize yourself with the buttons on your RF Remote Controller:

- **ON Button:** Press to turn the connected LED strip light ON.
- **OFF Button:** Press to turn the connected LED strip light OFF.
- **Brightness Up (▲):** Increases the brightness of the light.
- **Brightness Down (▼):** Decreases the brightness of the light.
- **Preset Dimming Levels (100%, 75%, 50%, 25%):** Directly set the light brightness to the indicated percentage.
- **Color Temperature Control (Sun icon / Moon icon):** Adjusts the color temperature of the light (if supported by the LED strip light). Sun icon typically increases warmth, Moon icon increases coolness.
- **Mode Buttons (Lightbulb, Heart, Moon/Star):** These buttons may activate different lighting modes or scenes depending on the connected LED strip light's capabilities. Refer to your LED strip light's manual for specific functions.
- **Timer Buttons (3, 5, 15, 30, 60 minutes):** Sets a timer for the light to automatically turn off after the specified duration.
- **'C' Button:** This button may be for custom settings or scene recall. Refer to your LED strip light's manual for specific functions.

Ensure the remote is within range of the LED strip light for optimal performance. RF technology allows for control through walls and obstacles, but extreme distances or interference may affect signal strength.

MAINTENANCE

- **Cleaning:** Wipe the remote controller with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace the battery when the remote's response becomes sluggish or stops working. Dispose of used batteries according to local regulations.
- **Storage:** Store the remote in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote not responding.	Low or dead battery.	Replace the battery with a new Lithium Metal battery.
Remote not responding.	Not paired with LED strip light.	Refer to your LED strip light's manual for pairing instructions.

Problem	Possible Cause	Solution
Limited range or intermittent control.	Interference from other RF devices or excessive distance.	Reduce distance between remote and light. Minimize other RF interference sources.
Specific buttons not working.	Feature not supported by connected LED strip light.	Verify the capabilities of your LED strip light.

SPECIFICATIONS

- **Model Number:** RM006
- **Connectivity Technology:** Radio Frequency (RF)
- **Compatible Devices:** LED Strip Lights
- **Max Number of Supported Devices:** 1 (per pairing)
- **Power Source:** 1 x Lithium Metal battery (included)
- **Item Weight:** 0.317 ounces (approx. 9 grams)
- **Package Dimensions:** 4.25 x 4.21 x 0.59 inches
- **Special Feature:** Ergonomic design
- **Manufacturer:** RGH LIGHTING
