## CubicFun MC091H

# CubicFun MC091H Eiffel Tower 3D Puzzle Instruction Manual

Model: MC091H | Brand: CubicFun

## PRODUCT OVERVIEW

---

The CubicFun MC091H Eiffel Tower 3D Puzzle offers a fun and challenging building experience, allowing you to construct a detailed replica of the iconic Eiffel Tower in Paris. This puzzle is designed with CubicFun's unique slotting system, ensuring a secure and satisfying assembly without the need for glue or tools.

Key features include:

- Fun and challenging 3D puzzle of the Eiffel Tower in Paris.
- Designed using CubicFun's unique slotting system for easy assembly.
- Difficulty level: 7 stars, indicating a moderate to high challenge.
- Composed of 82 pieces.
- Estimated build time: 240 to 300 minutes (4 to 5 hours).
- Final assembled height: 76 cm.

## ASSEMBLY INSTRUCTIONS

---

Follow these steps carefully to assemble your CubicFun Eiffel Tower 3D Puzzle. No glue or scissors are required for assembly.

### Preparation

- Unpack all components from the box.
- Identify the different sheets of puzzle pieces. Each piece is numbered for easy identification.
- Familiarize yourself with the unique slotting system. Pieces are designed to interlock securely.

### Step-by-Step Assembly

Image: Visual guide to assembly. Panel 1 shows sheets of puzzle pieces. Panel 2 shows punched-out pieces and initial small assemblies. Panel 3 shows the base structure being built. Panel 4 shows the completed model with dimensions.

1. **Punch Out Pieces:** Carefully punch out all the puzzle pieces from the foam boards. It is recommended to punch out pieces as you need them for each step to avoid mixing them up. Refer to the included diagram for piece identification.
2. **Assemble Small Components:** Begin by assembling smaller, individual components as indicated in the instruction diagrams. These often form sub-assemblies that will later connect to larger sections.
3. **Build the Base:** Construct the base of the Eiffel Tower first. This provides a stable foundation for the rest of the structure. Ensure all slots are firmly connected.
4. **Layered Construction:** The Eiffel Tower is built in sections, typically from the base upwards. Follow the numbered sequence in the provided manual to connect each layer and section. The unique slotting system ensures pieces fit together precisely.
5. **Connect Sections:** As you build, connect larger sections together. Pay attention to the orientation of each piece to ensure the structure aligns correctly.
6. **Final Touches:** Once all main sections are assembled, add any decorative or finishing pieces to complete the model.

**Tip: Take your time and enjoy the process. Refer to the visual instructions frequently to ensure correct placement of pieces.**

## USAGE AND DISPLAY

Once assembled, your CubicFun Eiffel Tower 3D Puzzle is ready for display. It serves as an impressive decorative piece and a testament to your puzzle-solving skills.

- **Display Location:** Place the assembled model on a flat, stable surface where it will not be easily knocked over.
- **Educational Value:** This puzzle can be used as an educational tool to learn about the structure and architecture of the Eiffel Tower.

- **Interactive Display:** While not designed for constant handling, the sturdy construction allows for occasional viewing and admiration.

## CARE AND MAINTENANCE

---

To ensure the longevity and appearance of your 3D puzzle, follow these simple care guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. Avoid using wet cloths or harsh cleaning agents, as these may damage the material or finish.
- **Storage:** If disassembling for storage, carefully detach pieces to avoid bending or tearing. Store pieces in their original packaging or a secure container to prevent loss or damage.
- **Environment:** Keep the puzzle away from direct sunlight, extreme temperatures, and high humidity, which can cause warping or fading.
- **Handling:** Handle the assembled model by its base to prevent stress on the delicate tower structure.

## TROUBLESHOOTING

---

Here are some common issues and their solutions:

Problem	Solution
Pieces do not fit together.	Ensure you are using the correct pieces for the current step. Check the piece numbers and the orientation. Apply gentle, even pressure to slot pieces together. Do not force them.
A piece is missing or damaged.	Carefully check all packaging and the surrounding area. If a piece is genuinely missing or damaged upon opening, contact CubicFun customer support (see Support section).

Problem	Solution
The assembled model is wobbly.	Review the assembly steps, especially the base and lower sections. Ensure all slots are fully engaged and pieces are firmly pressed into place.
Difficulty understanding instructions.	Refer to the visual diagrams provided in the manual. Sometimes, seeing the connection helps more than reading. Take a break and return with fresh eyes.

## PRODUCT SPECIFICATIONS

Feature	Detail
Brand	CubicFun
Model Number	MC091H
Recommended Age (Manufacturer)	3 years and up
Age Range Description	3 - 6 years
Number of Pieces	82
Difficulty Level	7 Stars
Estimated Build Time	240 - 300 minutes (4-5 hours)
Assembled Height	76 cm
First Available Date	March 30, 2021

## WARRANTY INFORMATION

CubicFun products are manufactured to high-quality standards. For specific warranty details regarding your MC091H Eiffel Tower 3D Puzzle, please refer to the information provided on the product packaging or contact CubicFun customer support directly. Generally, products are covered against manufacturing defects.

## CUSTOMER SUPPORT

If you have any questions, require assistance with assembly, or need to report a missing/damaged part, please contact CubicFun customer support.

- **Website:** Visit the official CubicFun website for FAQs and contact information.
- **Email:** Refer to your product packaging for a direct support email address.
- **Phone:** Check the CubicFun website for regional contact numbers.

When contacting support, please have your product model number (MC091H) and details of your issue ready.
