

## SHA CERLIN XH-5161-LBT

# SHA CERLIN Twin Size Bed Frame (Model XH-5161-LBT) Instruction Manual

## INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your SHA CERLIN Twin Size Bed Frame with Rustic Wooden Headboard. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## IMPORTANT SAFETY INFORMATION

- **Caution:** Be cautious when handling components during assembly to avoid pinching.
- **Weight Limit:** Do not exceed the maximum weight limit of 300 pounds for this bed frame.
- **Stability:** Ensure all components are properly assembled and tightened to maintain stability and prevent collapse.
- **Mattress Compatibility:** This bed frame is designed for a Twin size mattress.

## PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Bed Frame Components
- Headboard
- Metal Slats
- Assembly Hardware (screws, bolts, washers, Allen wrenches)

## ASSEMBLY INSTRUCTIONS

Please follow these steps carefully for proper assembly. It is recommended to assemble the bed frame with two people.

### 1. Unpack and Identify Parts:

Carefully unpack all components from the packaging. Lay them out on a clean, soft surface (like a carpet) to prevent scratches. Refer to the parts list (if provided in physical manual) and the diagram below to identify each piece and hardware.

*Image: Exploded view of the SHA CERLIN Twin Bed Frame, illustrating individual components, overall dimensions (77.2"L x 42.3"W x 42.1"H), material (Metal Frame, MDF Board), and weight capacity (300 lbs).*

### 2. Assemble the Main Frame:

Connect the side rails to the headboard and footboard support posts. Ensure all connections are secure but allow for slight adjustments until the entire frame is assembled. Install any central support beams or legs as indicated in your specific hardware diagram.

### 3. Attach the Headboard:

Secure the rustic wooden headboard panels to the frame using the designated hardware. Ensure the headboard is level and firmly attached.

*Image: A fully assembled SHA CERLIN Twin Bed Frame with a light brown rustic wooden headboard, shown in a bedroom with a mattress and bedding.*

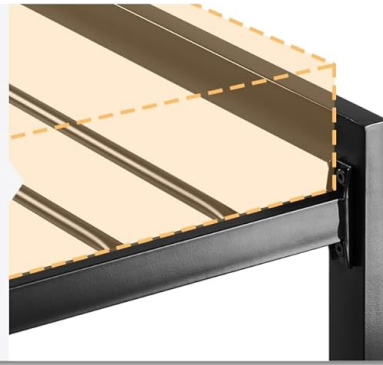

#### **4. Install the Metal Slats:**

Place the metal slats across the bed frame. The slats are designed with mute buckles to fix them firmly in place and prevent noise. Ensure each slat is properly seated and secured. The embedded design helps prevent the mattress from sliding.

## EMBEDDED DESIGN

...

Raised bed end prevents the mattress from sliding.

## PROTECTIVE PAD

...

Customized pad for protecting floor free from scratching.

## STURDY SLATS

...

Durable metal slats are fixed by mute buckles firmly in place.

*Image: Detailed views highlighting key features: the embedded frame design to prevent mattress sliding, protective pads on the legs to prevent floor scratching, and sturdy metal slats secured by mute buckles for a noise-free experience.*

### 5. Final Tightening:

Once all components are in place, go back and fully tighten all bolts and screws. Do not overtighten. Ensure the frame is stable and level.

### 6. Add Mattress:

Place your Twin size mattress directly onto the installed slats. No box spring is needed for this platform bed frame. A mattress height of 8" to 10" is recommended for optimal appearance and comfort.

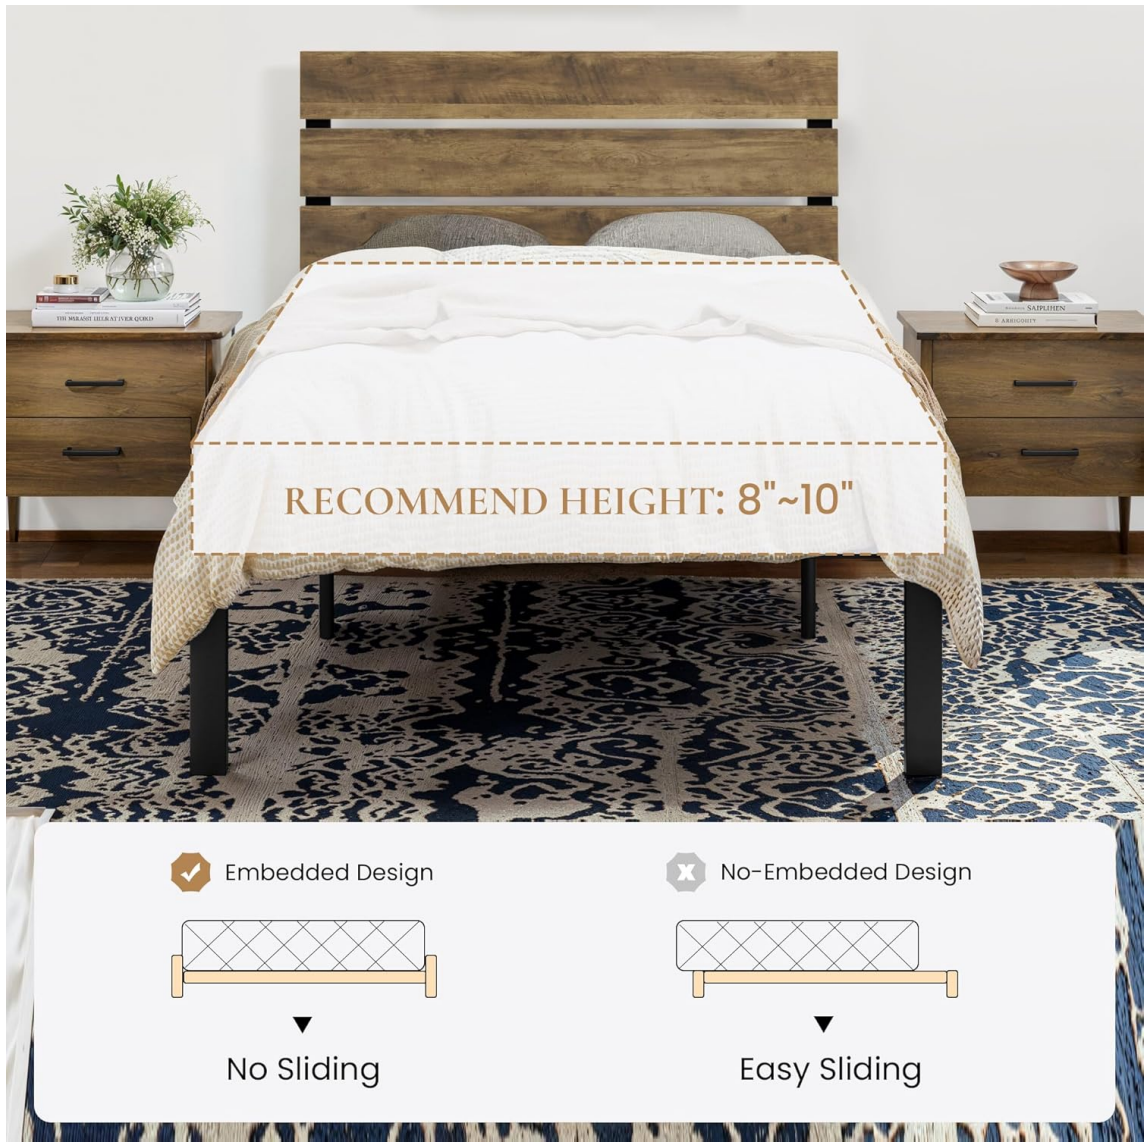

Image: Visual guide showing a recommended mattress height of 8" to 10" for the bed frame. It also contrasts the "Embedded Design" (No Sliding) with a "No-Embedded Design" (Easy Sliding), emphasizing the frame's feature to keep the mattress in place.

## USAGE

The SHA CERLIN Twin Size Bed Frame is designed to provide a stable and comfortable sleeping surface. Place your Twin size mattress directly on the metal slats. The frame offers 12.5 inches of clearance underneath for storage.

## ..... AMPLE UNDER-BED SPACE .....

Large under-bed space for storing and cleaning.

*Image: A view of the bed frame highlighting the 12.5 inches of under-bed clearance, demonstrating its utility for storage with a woven basket placed underneath.*

### MAINTENANCE

- **Cleaning:** Wipe the metal frame and wooden headboard with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Regular Checks:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Floor Protection:** The bed frame includes protective pads on the legs to prevent floor scratching. Ensure these pads remain intact.

### TROUBLESHOOTING

**Issue: Bed frame is unstable or squeaks.**

**Solution:** Ensure all bolts and screws are fully tightened. Loose connections can cause instability and noise. Re-check all assembly points and tighten any loose hardware. The design includes mute buckles on the slats to minimize noise.

**Issue: Mattress slides on the frame.**

**Solution:** This bed frame features an embedded design to help prevent mattress sliding. Ensure

the mattress is properly seated within the frame's edges. If sliding persists, consider using a non-slip mattress pad between the mattress and the slats.

**Issue: Parts do not align during assembly.**

**Solution:** Double-check that you are using the correct parts for each step as indicated in the instructions. Sometimes, components may appear similar but are designed for specific positions. Loosen all connections slightly, align the problematic parts, and then gradually tighten everything. Do not force parts together.

## SPECIFICATIONS

Feature	Detail
Brand	SHA CERLIN
Model Number	XH-5161-LBT
Size	Twin
Product Dimensions (L x W x H)	77.2" x 42.3" x 42.1"
Compatible Mattress Size	Twin (75"L x 38"W)
Material	Metal Frame, MDF Board Headboard
