## AIRIVO HJ-09

# AIRIVO Northern Lights Aurora Projector User Manual

Model: HJ-09

## Introduction

Thank you for purchasing the AIRIVO Northern Lights Aurora Projector. This device is designed to transform your space with mesmerizing aurora and star projections, accompanied by a built-in Bluetooth speaker and white noise functions. Please read this manual carefully to ensure proper use and maintenance of your projector.

## Package Contents

- AIRIVO Northern Lights Aurora Projector (Model: HJ-09)
- Remote Control
- Power Adapter
- User Manual

## Product Overview

**Figure 1:** The AIRIVO Northern Lights Aurora Projector in a bedroom setting, showcasing its projection capabilities and included remote control.

**Figure 2:** Illustration of the projector's multi-color lighting mode options, including 16 colors, 5 flow speeds, and 5 brightness levels.

The AIRIVO Northern Lights Aurora Projector combines a dynamic aurora light with a starry sky projection. It features a built-in Bluetooth 5.0 speaker and 8 white noise sounds for a complete sensory experience. The device is designed for ease of use with a remote control and offers various customization options for light colors, brightness, motion speed, and sound.

## Setup

1. **Unpack:** Carefully remove the projector and all accessories from the packaging.
2. **Power Connection:** Connect the power adapter to the projector's power input port and then plug it into a standard wall outlet. The projector will power on automatically.
3. **Placement:** Place the projector on a flat, stable surface. For optimal projection, position it in the center of the room or at a desired angle to project onto the ceiling or walls. Note that the projector does not have an adjustable stand, so its projection angle is fixed.
4. **Remote Control:** Ensure the CR2 battery is correctly installed in the remote control. The remote requires direct line-

of-sight to the projector's IR receiver, located on the side of the device.

## Operating Instructions

### Basic Functions (via Remote Control)

- **Power On/Off:** Press the **Power** button.
- **Aurora Light Control:**
  - **Color Selection:** Choose from 4 basic aurora colors (Red, Green, Blue, White) or various combinations.
  - **Brightness Adjustment:** Select from 4 adjustable brightness levels.
  - **Motion Speed:** Adjust the aurora flow speed with 4 available settings.
- **Star Light Control:** Toggle the star projection on or off independently.
- **Timer Settings:** Set an auto-off timer for 1 hour or 2 hours. The projector has a default 4-hour auto-off timer that cannot be canceled.

### Bluetooth Speaker Function

1. **Pairing:** Turn on the projector. Enable Bluetooth on your mobile device or computer and search for "HJ-09" or "AIRIVO Projector". Select it to pair.
2. **Music Playback:** Once paired, you can play music through the projector's built-in speaker.
3. **Music Sync Mode:** Activate the music sync feature to make the light projection pulse and change with the rhythm of your music, creating a dynamic disco effect.

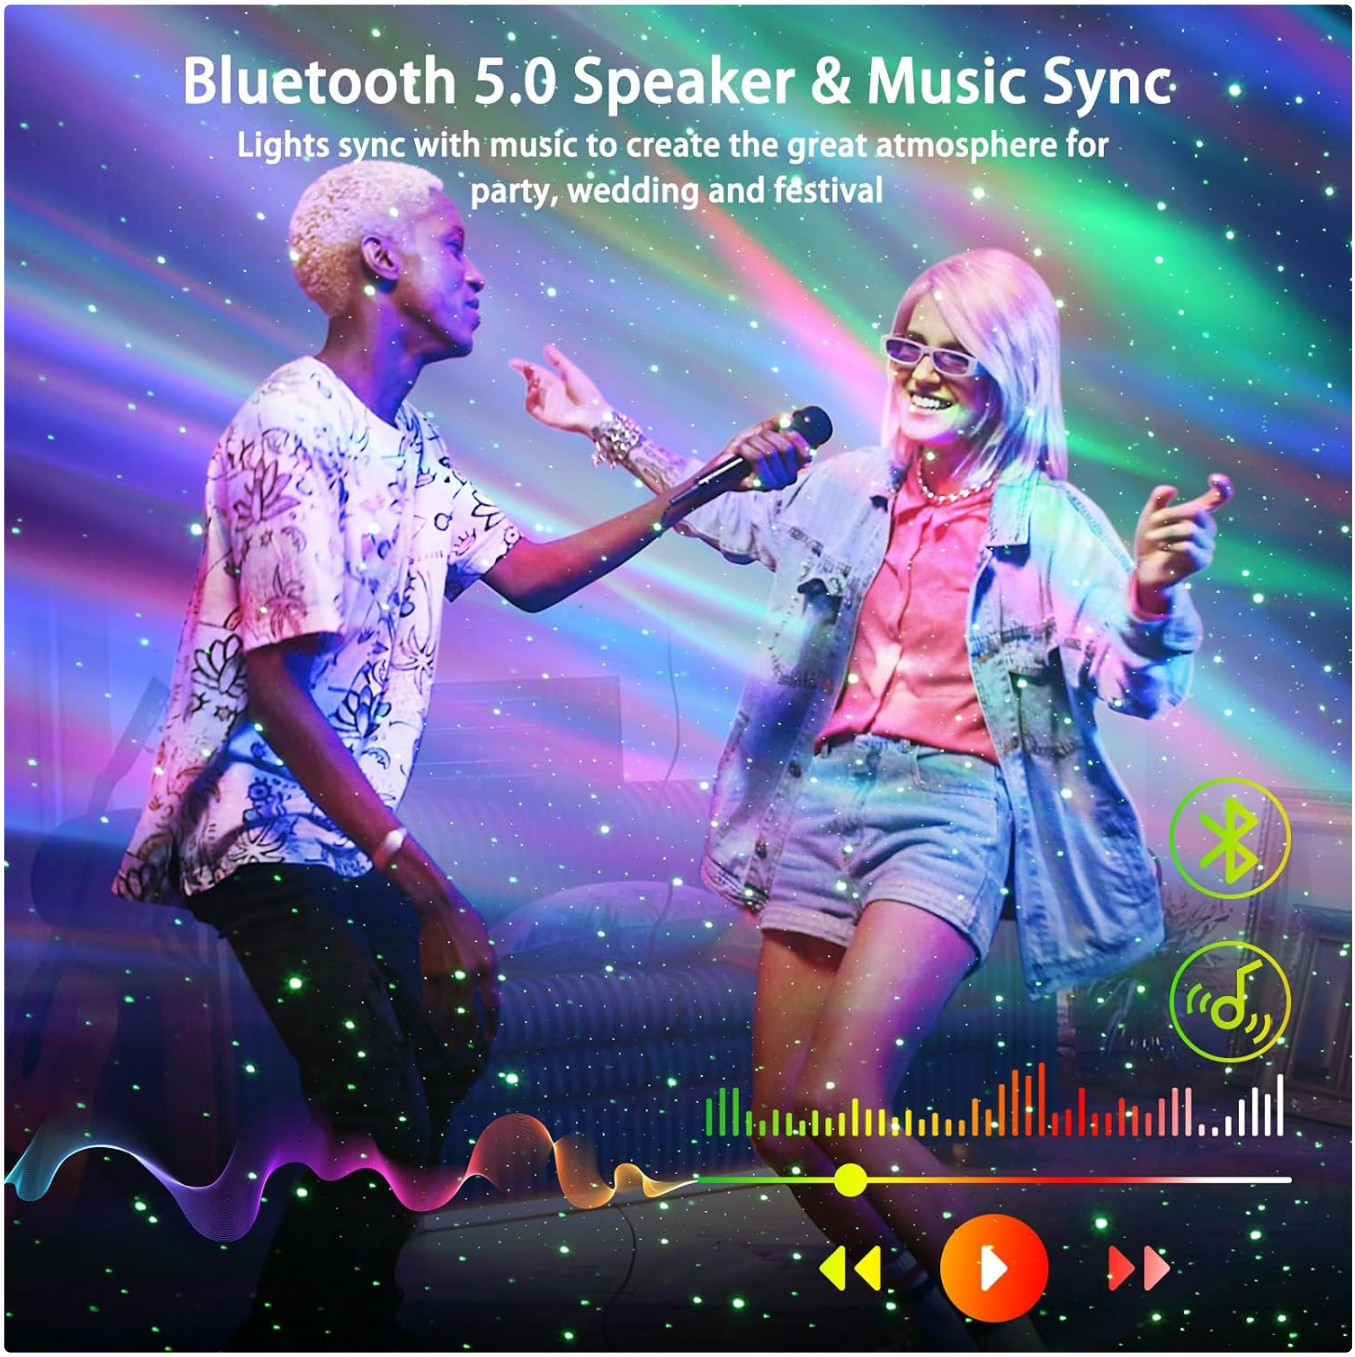

**Figure 3:** The projector's Bluetooth 5.0 speaker and music sync capabilities enhance party and festival atmospheres.

## White Noise Function

The projector includes 8 pre-programmed white noise sounds to aid relaxation and sleep. These include: Birds tweeting, running water (stream), soothing chimes (music box), crackling firewood (bonfire), ocean waves, soft music, early morning jungle, and summer night sounds.

**Figure 4:** The projector offers 8 soothing white noise sounds and an auto-off timer for a peaceful bedtime experience.

## Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the projector's surface. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and moisture.
- **Battery Replacement:** Replace the CR2 battery in the remote control when its performance degrades.

## Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Projector does not turn on. | No power connection. | Ensure the power adapter is securely connected to the projector and a working power outlet. |

| Problem | Possible Cause | Solution |
|---|---|---|
| Remote control not working. | Battery low or incorrectly inserted; no direct line of sight. | Replace the CR2 battery. Point the remote directly at the IR receiver on the side of the projector. |
| Bluetooth connection issues. | Device not in pairing mode; too far from projector; interference. | Ensure Bluetooth is enabled on your device and the projector. Move closer to the projector. Restart both devices. |
| Lights are dim or not projecting clearly. | Brightness setting is low; dirty lens. | Increase brightness using the remote. Gently clean the projector lens with a soft, dry cloth. |
| Projector automatically turns off. | Auto-off timer activated. | This is a default feature (4-hour auto-off) or a set timer (1/2 hour). This cannot be disabled. |

## Specifications
