2. GETTING STARTED

What's in the Box

- Delton 20X Wireless Computer Headset
- USB-C to 3.5mm Audio Cable
- User Manual (this document)

Charging the Headset

Before first use, fully charge the headset. Connect the provided USB-C cable to the charging port on the headset and the other end to a USB power source (e.g., computer USB port, wall adapter). The LED indicator will show charging status. A full charge takes approximately 2 hours.

3. CONNECTIVITY

Bluetooth Pairing

1. Ensure the headset is charged and powered off.
2. Press and hold the Multi-Function Button (MFB) for approximately 5-7 seconds until the LED indicator flashes blue and red alternately, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "Delton 20X" from the list of found devices.
5. Once connected, the LED indicator will flash blue slowly. The headset is now ready for use.

The headset supports Bluetooth 5.0, providing a stable connection up to 10 meters (30 feet) from your paired device.

Wired Connection

For devices without Bluetooth functionality or when the headset battery is low, you can use the included USB-C to 3.5mm audio cable. Connect the USB-C end to the headset and the 3.5mm end to your device's audio jack.

Microphone Adjustment

The flexible boom microphone can be rotated 270 degrees, allowing you to position it on either your left or right ear for optimal comfort and voice pickup. Adjust the microphone's position so it is close to your mouth for the best noise cancellation performance.

6. TROUBLESHOOTING

No Power

- Ensure the headset is fully charged. Connect it to a power source using the USB-C cable.
- Press and hold the MFB for 3 seconds to power on.

Cannot Pair via Bluetooth

- Make sure the headset is in pairing mode (LED flashes blue and red alternately).
- Ensure Bluetooth is enabled on your device and it is within 10 meters of the headset.
- Turn off and on your device's Bluetooth, then try searching again.
- If previously paired, try forgetting the device on your phone/computer and re-pairing.

Poor Audio Quality or No Sound

- Adjust the volume on both the headset and your connected device.
- Ensure the headset is properly connected (either via Bluetooth or 3.5mm cable).
- Move closer to your Bluetooth device to avoid interference or range issues.
- If using a wired connection, ensure the 3.5mm cable is fully inserted into both the headset and your device.

Microphone Not Working

- Check if the microphone is muted using the Mic Mute button.
- Ensure the microphone boom is positioned correctly near your mouth.
- Verify that the headset is selected as the input device in your computer's or device's sound settings.
- Restart your communication application (e.g., Zoom, Teams).

7. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Water:** The headset is not water-resistant. Avoid exposure to liquids.
- **Handle with Care:** Do not drop or subject the headset to strong impacts.

8. WARRANTY AND SUPPORT

Warranty Information

The Delton 20X Wireless Computer Headset comes with a 1-year manufacturer warranty. Please retain your proof of purchase for warranty claims.

Customer Support

For technical assistance, warranty claims, or further inquiries, please contact Delton customer support. Refer to the contact information provided with your product packaging or visit the official Delton website.
