

## VOICEGIFT MINI-ME

# VoiceGift MINI-ME 60-Second Multi-Message Voice Recorder Instruction Manual

## INTRODUCTION

This manual provides comprehensive instructions for the VoiceGift MINI-ME 60-Second Multi-Message Voice Recorder. It covers product overview, setup, operation, maintenance, and troubleshooting to ensure optimal use of your device. The VoiceGift MINI-ME allows you to record and play back up to 60 seconds of personalized audio, making it suitable for embedding in various items such as plush toys, pillows, and crafts.

## PRODUCT OVERVIEW

The VoiceGift MINI-ME is a compact voice recorder designed for easy integration into soft items. It features a simple interface for recording and playback, offering a 60-second recording capacity and the ability to replay messages up to 500 times.

## Simple and Easy to Use

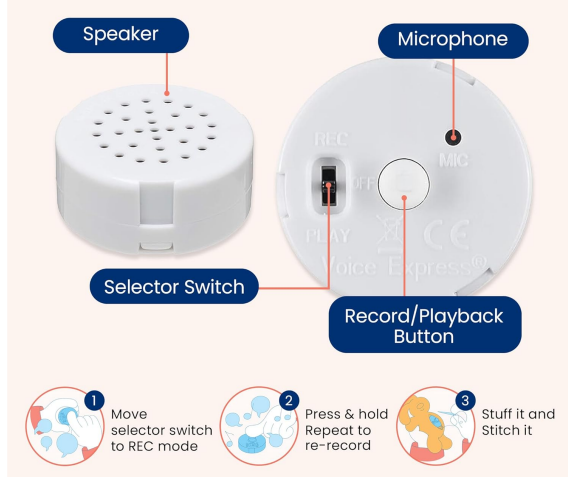

Image: View of the VoiceGift MINI-ME, highlighting the speaker, microphone, selector switch, and record/playback button.

### Key Features:

- 60-second recording capacity.
- Multiple message recording capability.
- High-quality playback.
- Replay up to 500 times.
- Compact design for easy embedding.

## SETUP

### Battery Installation:

The VoiceGift MINI-ME recorder comes with 3 LR44 alkaline batteries pre-installed. No user battery installation is required for initial use. The batteries are not designed to be user-replaceable. When the battery life is depleted, the unit is not rechargeable or serviceable for battery replacement.

## OPERATING INSTRUCTIONS

The VoiceGift MINI-ME recorder is designed for straightforward operation. Follow these steps to record and play back your messages:

# Animate Everything with a Little Extra Love...

Keep babies and toddlers entertained with sound  
by sewing it into an activity blanket.

Image: Step-by-step guide for recording and embedding the VoiceGift MINI-ME.

## 1. Recording a Message:

- Locate the selector switch on the back of the recorder.
- Move the selector switch to the 'REC' (Record) mode.
- Press and hold the 'Record/Playback' button (often labeled with a microphone icon or 'MIC').
- Speak clearly into the microphone, which is typically a small hole near the record button. You have up to 60 seconds of recording time.
- Release the 'Record/Playback' button when you are finished recording. The message is now saved.

## 2. Playing Back a Message:

- Move the selector switch to the 'PLAY' mode.
- Press the 'Record/Playback' button once to play your recorded message.
- To replay the message, press the button again. The device supports up to 500 replays.

## 3. Re-recording a Message:

- To record a new message, simply repeat the steps for 'Recording a Message'. The new recording

will overwrite the previous one.

#### 4. Embedding the Recorder:

- Once your message is recorded, you can embed the MINI-ME into your desired item (e.g., plush toy, pillow). Ensure the item is soft enough to allow the sound to project clearly.
- Secure the recorder inside the item, typically by stitching it into place, to prevent it from shifting.

**Make Things Sound Sweeter,  
Make That Familiar Voice Last Forever**

Make it more personal by adding a message in your gift - with the same technology used by Build-A-Bear Workshop

## MAINTENANCE

The VoiceGift MINI-ME recorder requires minimal maintenance:

- Keep the device dry and away from moisture.
- Avoid extreme temperatures.
- Clean the exterior with a soft, dry cloth if necessary. Do not use liquid cleaners.
- Do not attempt to open the device, as it contains no user-serviceable parts and opening it may damage

the unit.

## TROUBLESHOOTING

If you encounter issues with your VoiceGift MINI-ME recorder, consider the following:

| Problem                            | Possible Cause  | Solution   |
|------------------------------------|---|--|
| No sound during playback.          | Selector switch in 'OFF' or 'REC' mode. Batteries depleted. | Ensure switch is in 'PLAY' mode. If batteries are depleted, the unit cannot be recharged or have batteries replaced. |
| Recording is unclear or distorted. | Microphone too far away. Background noise.                  | Speak closer to the microphone. Record in a quiet environment.   |
| Cannot record new message.         | Selector switch not in 'REC' mode.                          | Move the selector switch to 'REC' mode before pressing and holding the record button.                                |
