

OUKANING OUKANING-50CM-Samtida-Polerad

OUKANING Luxury Crystal Glass LED Ceiling Lamp 50cm User Manual

MODEL: OUKANING-50CM-SAMTIDA-POLERAD

1. Safety Instructions

Please read these instructions carefully before installation and use. Keep this manual for future reference.

- Always disconnect the main power supply before attempting any installation, maintenance, or cleaning.
- Installation should be performed by a qualified electrician to ensure proper wiring and safety.
- Ensure the mounting surface can support the weight of the lamp.
- Do not use abrasive cleaners or solvents on the lamp. Clean with a soft, dry cloth.
- This product is designed for indoor use only. Do not expose to moisture or extreme temperatures.
- Ensure all connections are secure and properly insulated.

2. Package Contents

Verify that all components are present and undamaged before beginning installation.

- 1x Ceiling Lamp Base (50cm diameter)
- 6x E14 LED Bulbs
- Crystal Glass Elements (various shapes and sizes)
- Mounting Hardware (screws, anchors)
- Instruction Manual

3. Specifications

Brand	OUKANING
Model Number	OUKANING-50CM-Samtida-Polerad
Dimensions (Diameter x Height)	50 cm x 25 cm (19.7 in x 9.8 in)
Material	Crystal, Metal (Chrome finish)
Voltage	220V
Bulb Base	E14
Number of Lights	6
Power Consumption	10W - 24W (total)
Light Colors	White, Warm, Neutral (adjustable)
Control Method	Touch
Installation Area	Indoor

4. Setup and Installation

Follow these steps carefully for safe and correct installation. Professional installation is recommended.

- 1. Prepare for Installation:** Turn off the main power supply at the circuit breaker before starting any work. Ensure the area is well-lit and you have all necessary tools (screwdriver, wire strippers, drill, ladder).
- 2. Mount the Ceiling Plate:** Position the lamp base against the ceiling where you intend to install it. Mark the drilling points for the mounting screws. Drill pilot holes and insert wall anchors if necessary. Secure the lamp base to the ceiling using the provided screws. Ensure it is firmly attached.
- 3. Connect Electrical Wires:** Carefully connect the household electrical wires to the corresponding wires on the lamp base. Typically, this involves connecting live to live, neutral to neutral, and ground to ground. Use appropriate wire connectors and ensure all connections are secure and insulated.
- 4. Install Bulbs:** Screw the E14 LED bulbs into the sockets on the lamp base. Do not overtighten.
- 5. Attach Crystal Elements:** Carefully attach the crystal glass elements to the lamp structure according to the design. This usually involves hanging individual crystals onto designated hooks or slots. Refer to the product images for guidance on crystal arrangement.

5. Operating Instructions

Once installed, the lamp is ready for operation.

- **Power On/Off:** Restore power at the circuit breaker. Use your wall switch to turn the lamp on or off.
- **Adjusting Light Color:** This lamp features adjustable light colors (white, warm, neutral). The control method is 'Touch'. Typically, a quick toggle of the wall switch (off then on again within a few seconds) will cycle through the available light color temperatures. Repeat until your desired color is selected.

6. Maintenance

Regular maintenance ensures the longevity and appearance of your lamp.

- **Cleaning:** Ensure the power is off before cleaning. Use a soft, dry, lint-free cloth to gently wipe the metal and crystal surfaces. For stubborn marks on crystals, a slightly damp cloth with plain water can be used, followed by immediate

drying. Do not use chemical cleaners, abrasive materials, or sprays directly on the lamp.

- **Bulb Replacement:** If a bulb needs replacement, first turn off the power supply. Allow the bulb to cool completely. Unscrew the old E14 bulb and replace it with a new E14 LED bulb of the same type and wattage.

7. Troubleshooting

If you encounter issues, refer to the following common problems and solutions:

- **Lamp does not turn on:**
 - Check if the main power supply is on at the circuit breaker.
 - Ensure the wall switch is in the 'ON' position.
 - Verify that all bulbs are correctly screwed in and not faulty.
 - Check electrical connections for looseness or damage (only by a qualified electrician).
- **Light flickers or is dim:**
 - Ensure bulbs are fully tightened.
 - Check for loose wiring connections (only by a qualified electrician).
 - Replace any flickering bulbs.
- **Cannot change light color:**
 - Ensure you are cycling the wall switch off and on quickly enough to trigger the color change function.

8. Warranty and Support

This OUKANING product is manufactured to high-quality standards. For specific warranty information, please refer to the purchase documentation or contact your retailer. If you require technical assistance or have questions not covered in this manual, please contact OUKANING customer support through the retailer where the product was purchased.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
