

Logitech Z407

Logitech Z407 Bluetooth Computer Speakers with Subwoofer and Wireless Control

Model: Z407

INTRODUCTION

This manual provides comprehensive instructions for setting up, operating, and maintaining your Logitech Z407 Bluetooth Computer Speakers. The Z407 system delivers immersive audio with a powerful subwoofer and convenient wireless control, designed for use with computers, tablets, and other compatible devices.

WHAT'S IN THE BOX

- Logitech Z407 Bluetooth Computer Speakers (2 Satellite Speakers)
- Subwoofer
- Wireless Control Dial
- 3.5mm Audio Cable
- Micro USB Cable
- Power Adapter
- User Documentation

SETUP

Follow these steps to set up your speaker system:

1. **Connect Satellite Speakers to Subwoofer:** Plug the cables from the two satellite speakers into the corresponding ports on the back of the subwoofer.
2. **Connect Subwoofer to Power:** Connect the power adapter to the subwoofer and then plug it into a wall outlet.
3. **Position Components:** Place the subwoofer on the floor or a sturdy surface. Position the satellite speakers on either side of your monitor or listening area. The satellite speakers can be oriented vertically or horizontally.
4. **Insert Batteries into Wireless Control Dial:** The wireless control dial requires 2 AAA batteries (included). Open the battery compartment and insert the batteries, observing polarity.

Image: The Logitech Z407 speaker system, showcasing the two compact satellite speakers, the larger subwoofer unit, and the circular wireless control dial. The satellite speakers are shown in both vertical and horizontal orientations, highlighting their flexible placement options.

OPERATING INSTRUCTIONS

Wireless Control Dial

The wireless control dial provides convenient access to speaker functions:

- **Power On/Off:** Press and hold the main button on the dial for 3 seconds.
- **Volume Control:** Rotate the outer ring of the dial to adjust the master volume.
- **Play/Pause:** Press the main button once to play or pause audio.
- **Skip Track:** Double-press the main button to skip to the next track.
- **Bass Control:** Press the bass button (located on the side of the dial) and then rotate the outer ring to adjust the subwoofer's bass level.
- **Input Selection:** Use the input selection button (also on the side) to cycle through Bluetooth, USB, and 3.5mm auxiliary inputs.

CONNECTIVITY OPTIONS

The Z407 speakers offer multiple ways to connect your devices:

- **Bluetooth:** Press the Bluetooth button on the control dial to enter pairing mode. Select 'Logitech Z407' from your device's Bluetooth settings. The LED on the dial will indicate connection status.
- **Micro USB:** Connect your computer to the subwoofer using the provided Micro USB cable. Select the USB input via the control dial.
- **3.5mm Auxiliary Input:** Connect any device with a 3.5mm audio output (e.g., smartphone, tablet) to the subwoofer using the 3.5mm audio cable. Select the 3.5mm input via the control dial.

MAINTENANCE

To ensure optimal performance and longevity of your Logitech Z407 speakers:

- Keep the speakers and subwoofer in a dry environment, away from direct sunlight and extreme temperatures.
- Clean the surfaces with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Ensure proper ventilation for the subwoofer to prevent overheating.
- Replace the AAA batteries in the wireless control dial when the indicator light signals low power or responsiveness decreases.

TROUBLESHOOTING

Problem	Solution
No sound or low volume	Ensure the speakers are powered on and the volume is turned up on both the control dial and your connected device. Verify the correct input source (Bluetooth, USB, 3.5mm) is selected on the control dial. Check all cable connections between the satellite speakers, subwoofer, and power source.
Bluetooth pairing issues	Ensure the speakers are in Bluetooth pairing mode (flashing LED on the dial). Disable and re-enable Bluetooth on your device. Move your device closer to the speakers (within 30m line of sight). Remove 'Logitech Z407' from your device's paired devices list and attempt to pair again.
Sound delay or missing initial audio	This can sometimes occur when the speakers enter a low-power state after a period of inactivity. Ensure the speakers are actively playing audio before critical listening. Check for updated audio drivers on your computer if using USB or 3.5mm connection.
Wireless control dial unresponsive	Replace the AAA batteries in the control dial. Ensure the dial is within range of the subwoofer.

SPECIFICATIONS

Model Name:

Z407

Speaker Type:

2.1 Computer Speaker System with Subwoofer

Connectivity:

Bluetooth, Micro USB, 3.5mm Auxiliary

Total Peak Power:

80 Watts

Total RMS Power:

40 Watts

logitech

Repenser les expériences d'apprentissage avec les écrans plats interactifs

Associez les bons outils à votre système d'écran plat interactif

87 % des salles de classe disposent d'un système de forme d'écran interactif.

Les recherches montrent que ces dispositifs favorisent la participation. Associer le bon équipement de solutions Logitech aux systèmes d'écran plat interactif aide les élèves à voir et à entendre clairement, tout en permettant aux enseignants de se déplacer dans la classe pendant leur cours pour susciter la participation des élèves.

PERMETTRE AUX ÉLÈVES DE VOIR ET D'ENTENDRE CLAIREMENT

Équiper les salles de classe d'un système de conférence assure la portée et la clarté acoustique d'une conférence vidéo. Associer les conférences vidéo Logitech aux collaborations en direct aide et engage les étudiants du monde entier. Logitech offre plusieurs options de haut-parleurs et de microphones importants pour améliorer la qualité de la conférence vidéo.

En effet, les élèves transcrivent dans les salles de classe d'un bon système de haut-parleurs et de microphones 25 % supplémentaire en moyenne, selon l'NCES (2012).

LOGITECH MEETUP CONFERENCECAM

Le matériel de conférence vidéo Logitech MeetUp ConferenceCam est conçu pour améliorer la qualité de la conférence vidéo en fournissant une portée et une clarté acoustiques améliorées. Le système MeetUp ConferenceCam est conçu pour être installé dans une salle de conférence.

HAUT-PARLEURS LOGITECH Z460 POUR PC

Les haut-parleurs Logitech Z460 de Logitech ont une portée acoustique améliorée et une clarté acoustique améliorée pour améliorer la qualité de la conférence vidéo. Le système Logitech Z460 est conçu pour être installé dans une salle de conférence.

Logitech pour l'Éducation : Améliorer l'Apprentissage avec les Écrans Plats Interactifs

Découvrez comment les solutions Logitech, incluant les caméras de conférence MeetUp, les haut-parleurs Z407, les claviers K400 et K380, et la télécommande Spotlight, transforment les salles de classe en environnements d'apprentissage interactifs et engageants.

Bocinas para PC con Subwoofer

SUMÉRGETE EN EL MEJOR AUDIO

Con las bocinas Logitech Z407 pruebas la precisión del procesamiento de señal digital (DSP) en 80 watts de poder, que entrega audio inmersivo como en la vida real. Escucha claramente los todos ellos, los puedes medir a 1 metro y el otro que puedes escuchar gracias al subwoofer, que ofrece el "Bass" en tu música, películas y juegos. El control inalámbrico te permite controlar fácilmente el sonido y el estilo a una distancia de hasta 20 metros. Ajusta el diseño de las bocinas de acuerdo al ambiente de tu habitación, para poder colocarlas horizontal o verticalmente. Reproduce la música vía Bluetooth, micro-USB o través del cable de 3,5 mm incluido, o los tres, y obtén entre los diferentes fuentes de audio con solo presionar un botón y sin moverte del sofá.

DENTRO DE LA CAJA

- Dos bocinas satelitales
- Subwoofer
- Cable de 3,5 mm
- Manual de usuario
- 1 año de garantía con el fabricante

CARACTERÍSTICAS

- 80 watts de potencia
- Procesamiento de señal digital (DSP) para entregar audio rico e inmersivo
- Bases que se pueden ventilar o inclinarse para adaptarse al diseño de tu espacio
- Controlador vía Bluetooth, 3,5 mm y micro-USB
- Control inalámbrico con hasta 20 metros de alcance

*Cable micro-USB no incluido.

Bocinas para PC con Subwoofer

SUMÉRGETE EN EL MEJOR AUDIO

Con los bocinas Logitech Z407 probas la precisión del procesamiento de señal digital (DSP) en 80 watts de poder, que entrega audio inmersivo como en la vida real. Escucha claramente los voces altas, los potentes medios y todo el bajo que puedes soportar gracias al subwoofer, que ofrece el "boom" en tu música, películas y juegos. El control deslizante te permite controlar fuertemente el sonido y el efecto a una distancia de hasta 20 metros. Ajusta el diseño de los bocinas de acuerdo al ambiente de tu habitación, para poder disfrutar al máximo el contenido.

Reproduce tu música via Bluetooth, micro USB, o través del cable de 3.5 mm incluido, o los tres y obtén entre los diferentes flujos de audio con solo presionar un botón y sin moverte del sofá.

DENTRO DE LA CAJA

- Dos bocinas inmersivas
- Subwoofer
- Cable de 3.5 mm
- Manual de usuario
- 1 Set de ganchos con un bolsillo

CARACTERÍSTICAS

- 80 watts de potencia
- Procesamiento de señal digital (DSP) para entregar audio más inmersivo
- Bocinas que se posicionan vertical u horizontalmente para adaptarse al diseño de tu espacio
- Conectividad de Bluetooth, 3.5 mm y micro USB
- Control deslizante con hasta 20 metros de alcance

Nota: micro USB no incluido

Logitech Z407 Bocinas para PC con Subwoofer: Potencia y Conectividad Inalámbrica

Descubre las bocinas Logitech Z407 para PC con subwoofer, 80W de potencia, DSP, conectividad Bluetooth y control inalámbrico. Audio inmersivo para tu música, películas y juegos.

RETHINKING LEARNING EXPERIENCES

WITH INTERACTIVE FLAT PANELS

ATTACH THE RIGHT TOOLS to your interactive flat panel system

87% of classrooms have at least one form of interactive display installed. Research shows that these devices support engagement in the classroom. Attaching the right mix of Logitech solutions to interactive flat panel systems helps students see and hear clearly while enabling educators to move around the classroom as they teach for better student engagement.

ENABLE STUDENTS TO SEE AND HEAR CLEARLY

Equipping classrooms with a conference camera opens the door to more creative learning opportunities such as virtual fieldtrips, online conferences, and collaboration with other students and educators across the world. Attaching external speakers are key to increasing learners' comprehension and engagement. In fact, students in sound-optimized classrooms scored an average of 50% higher on the Dynamic Indicators of Early Literacy Skills.

LOGITECH MEETUP CONFERENCECAM

Mounting a Logitech MeetUp conferencecam on top of an interactive flat panel ensures that students can hear audio content, even over typical classroom background noise, encouraging more collaboration.

LOGITECH Z407 PC SPEAKERS

Adding Logitech's Z407 to interactive flat panel systems ensures that students can hear audio content, even over typical classroom background noise, encouraging more collaboration.

Replanteamos las experiencias de aprendizaje con paneles planos interactivos

Completamos un sistema de panel plano interactivo con los Herramientas Educativas

El 67 % de los aulas tienen instalado al menos un formato de pantalla interactiva. Como resultado, demuestran que están dispuestos a fomentar la participación en el aula, a través de actividades de aprendizaje colaborativo y de aprendizaje basado en problemas. Pero ¿cómo se relaciona esto con los paneles planos interactivos de Logitech? Resulta que las simulaciones y el uso de contenidos, si se vea bien permitida a los profesores moverse por el aula mientras explican para favorecer la interacción.

PERMITE A LOS ESTUDIANTES VER Y OÍR CON CLARIDAD

Español: los aulas con una cámara para conferencias se da cuenta a más oportunidades de aprendizaje colaborativo, conversaciones grupales y actividades de aprendizaje colaborativo.

El español: Permite a los estudiantes a participar en la participación de los estudiantes, en particular cuando se discuten los temas. El uso de la cámara para conferencias de Logitech permite a los estudiantes ver y oír con claridad, lo que mejora la comprensión de los temas y la habilidad de los estudiantes para comprender los temas.
