## DELTA 142840-SP-I

# Delta Arvo 14 Series Shower Faucet Set with In2ition 2-in-1 Dual Shower Head (Model 142840-SP-I) Instruction Manual

Brand: DELTA | Model: 142840-SP-I

## INTRODUCTION

This manual provides detailed instructions for the installation, operation, maintenance, and troubleshooting of your Delta Arvo 14 Series Shower Faucet Set. This product features the In2ition 2-in-1 Dual Shower Head with HandHeld Spray Combo and a SpotShield Stainless finish, designed for durability and ease of use. Please read this manual thoroughly before installation and operation to ensure proper function and longevity of your shower system.

## SETUP

The Delta MultiChoice Universal Shower Valve is included and is compatible with most Delta shower trim kits. This allows for future upgrades without extensive plumbing changes. Follow the steps below for proper installation.

### 1. Rough-In Valve Installation

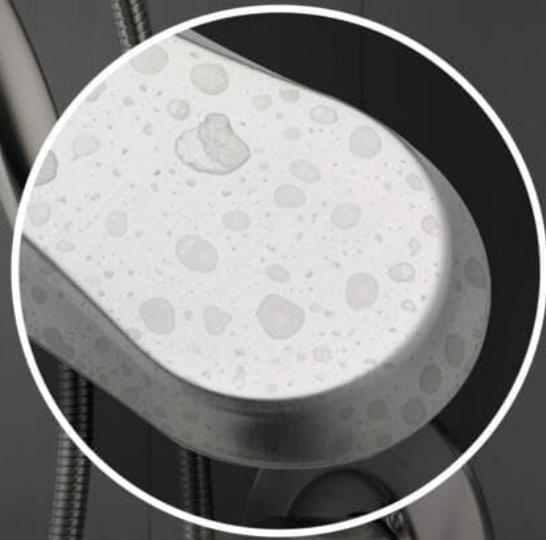

Ensure the MultiChoice Universal Valve is securely installed behind the wall according to local plumbing codes and the detailed instructions provided with the valve. This valve is the foundation for your shower system.

## 2. Trim Kit and Shower Head Installation

Once the rough-in valve is in place, install the valve trim kit and the In2ition 2-in-1 Dual Shower Head. This involves connecting the shower arm to the wall, attaching the shower head, and securing the handle and escutcheon plate. Ensure all connections are tight to prevent leaks.

## OPERATING INSTRUCTIONS

Your Delta Arvo In2ition 2-in-1 Dual Shower features versatile functionality for a customized showering experience.

### 1. Water Flow and Temperature Control

The single handle controls both water flow and temperature. Rotate the handle to adjust temperature and pull it out to increase flow. The Monitor Pressure-Balanced Valve Cartridge maintains a consistent shower temperature, preventing sudden changes due to other water usage in the home.

Image: Illustrates consistent temperature control during showering, indicating the pressure-balanced valve's function.

## 2. In2ition 2-in-1 Dual Shower Head

The In2ition system allows you to use the main shower head and the detachable hand shower independently or simultaneously. The hand shower can be easily detached from its dock for targeted rinsing or cleaning.

Image: Highlights the In2ition 2-in-1 feature, showing how the handheld unit integrates with the main shower head.

### 3. Spray Options

The shower head offers 6 powerful spray options, including a full body spray, massaging spray, full body spray with massage, and a pause setting. Rotate the dial on the shower head to select your desired spray pattern. The pause setting helps conserve water during shower tasks.

## MAINTENANCE

Regular maintenance ensures optimal performance and appearance of your Delta shower system.

### 1. Cleaning the Finish

The SpotShield Technology finish resists water spots and fingerprints, making cleaning easier. For general cleaning, wipe the surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that can damage the finish.

### 2. Cleaning Touch-Clean Spray Holes

Delta hand showers feature Touch-Clean spray holes made of soft rubber. To remove mineral residue and lime build-up, simply wipe the spray holes with your finger. No soaking or chemical cleaners are typically required.

## TROUBLESHOOTING

If you encounter any issues with your Delta Arvo shower system, refer to the following common troubleshooting tips:

- **Low Water Pressure:** Check if the main water supply valve is fully open. Inspect the shower head and handheld spray holes for mineral buildup and clean them using the Touch-Clean feature.
- **Inconsistent Water Temperature:** Ensure the Monitor Pressure-Balanced Valve Cartridge is correctly installed. If the issue persists, the cartridge may need inspection or replacement.
- **Leaks:** Check all connections for tightness. If leaks occur from the shower head or handheld, ensure they are properly seated and that rubber gaskets are intact.
- **Handheld Not Docking Securely:** Ensure the handheld unit is correctly aligned with its magnetic dock. Clean any debris that might prevent a secure connection.

For persistent problems, contact Delta Faucet customer support.

## SPECIFICATIONS

Feature	Detail
Brand	DELTA
Model Number	142840-SP-I
Color	Spotshield Brushed Nickel
Material	Metal (Brass Handle)
