1. INTRODUCTION

Thank you for choosing the CACAZI A06 Waterproof Wireless Doorbell. This manual provides essential information for the proper installation, operation, and maintenance of your new doorbell system. Please read these instructions carefully before use and retain them for future reference.

The CACAZI A06 is designed for convenience and reliability, featuring a waterproof transmitter and a wireless receiver, suitable for various home and office environments.

2. SAFETY INFORMATION

- Do not expose the receiver to rain or moisture. The transmitter is waterproof, but the receiver is for indoor use only.
- Do not attempt to disassemble or repair the unit yourself. Refer all servicing to qualified personnel.
- Keep the device away from direct sunlight, heat sources, and strong magnetic fields.
- Ensure the power outlet for the receiver is easily accessible.
- Dispose of old batteries responsibly according to local regulations.

3. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Wireless Doorbell Transmitter (Button)

- 1 x Plug-in Doorbell Receiver (Chime)
- 1 x Mounting Hardware (Screws, Wall Plugs, Double-sided Adhesive Tape)
- 1 x User Manual (This document)

4. PRODUCT OVERVIEW

4.1 Transmitter (Button)

The transmitter is the outdoor unit, designed to be waterproof. It features a push button to activate the doorbell chime.

- **Push Button:** Activates the doorbell.
- **LED Indicator:** Illuminates when the button is pressed.
- **Battery Compartment:** Located on the back, for power supply.

4.2 Receiver (Chime)

The receiver is the indoor unit that plugs into a standard wall outlet. It produces the chime sound when the transmitter is pressed.

- **Speaker:** Emits the doorbell sound.
- **Volume Button:** Adjusts the chime volume.
- **Melody Selection Button:** Cycles through available melodies.
- **LED Indicator:** Flashes when the doorbell rings.

5. SETUP

5.1 Transmitter Installation

Choose a suitable location for the transmitter, typically near your front door. Ensure the surface is clean and dry.

1. Method 1: Double-sided Adhesive Tape

- a. Clean the mounting area thoroughly.
- b. Peel off one side of the adhesive tape and attach it to the back of the transmitter.
- c. Peel off the other side and firmly press the transmitter onto the desired surface for at least 30 seconds.

2. Method 2: Screws and Wall Plugs

- a. Open the back cover of the transmitter.
- b. Mark the positions for drilling holes using the transmitter's screw holes as a template.
- c. Drill two holes, insert wall plugs, and then secure the transmitter with screws.
- d. Close the back cover.

5.2 Receiver Setup

Plug the receiver into a standard electrical outlet indoors. Ensure it is within range of the transmitter (up to 300 meters in open areas, less with obstacles).

5.3 Pairing (If needed or for adding more transmitters/receivers)

The units are usually pre-paired from the factory. If pairing is required or you wish to add more units:

1. Plug in the receiver.

2. Press and hold the **Volume Button** on the receiver for approximately 5 seconds until the LED indicator flashes rapidly. This indicates it is in pairing mode.
3. Immediately press the **Transmitter Button** once. The receiver will chime, and its LED will stop flashing, indicating successful pairing.
4. Test the doorbell by pressing the transmitter button.

Note: The pairing mode typically lasts for a short period (e.g., 10-20 seconds). If pairing fails, repeat the steps.

6. OPERATING INSTRUCTIONS

6.1 Changing Chime Melodies

The receiver offers multiple melodies. To change the melody:

- Press the **Melody Selection Button** on the receiver repeatedly to cycle through the available tunes.
- Once you hear your desired melody, stop pressing the button. The receiver will remember this selection.

6.2 Adjusting Volume

To adjust the volume level of the chime:

- Press the **Volume Button** on the receiver repeatedly.
- Each press will cycle through different volume levels (e.g., high, medium, low, mute). Select your preferred level.

7. MAINTENANCE

7.1 Cleaning

- Wipe the doorbell units with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or corrosive chemicals, as these may damage the surface or internal components.

7.2 Transmitter Battery Replacement

The transmitter is powered by a battery (e.g., 12V 23A or CR2032, depending on the specific model variant). If the LED indicator on the transmitter does not light up when pressed, or the range decreases significantly, the battery may need replacement.

1. Carefully open the back cover of the transmitter using a small screwdriver or by prying it open at the designated notch.
2. Remove the old battery.
3. Insert a new battery of the same type, ensuring the correct polarity (+/-).
4. Close the back cover securely.
5. Test the doorbell.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Doorbell does not ring.	Receiver not plugged in or powered. Transmitter battery is dead. Units are out of range. Units are not paired.	Ensure receiver is plugged into a working outlet. Replace transmitter battery. Move receiver closer to transmitter or remove obstacles. Re-pair the transmitter and receiver (refer to Section 5.3).
Short operating range.	Obstacles (walls, metal structures). Low transmitter battery. Interference from other wireless devices.	Relocate receiver or transmitter to minimize obstacles. Replace transmitter battery. Move doorbell away from other wireless devices.
Receiver rings unexpectedly.	Interference from other wireless devices. Another doorbell system nearby.	Re-pair the units to reset the code (refer to Section 5.3). Move doorbell away from other wireless devices.

9. SPECIFICATIONS

- **Brand:** CACAZI
- **Model:** A06
- **Transmitter Power:** Battery (e.g., 12V 23A or CR2032)
- **Receiver Power:** AC 110-240V (standard plug-in)
- **Wireless Range:** Up to 300 meters (open air)
- **Waterproof Rating (Transmitter):** IP44
- **Item Weight:** 100 g
- **ASIN:** B091GX1KX7

10. WARRANTY & SUPPORT

The CACAZI A06 Wireless Doorbell comes with a standard manufacturer's warranty. Please refer to your purchase documentation for specific warranty terms and conditions.

For technical support, troubleshooting assistance, or warranty claims, please contact the retailer or the manufacturer's customer service. Contact information can typically be found on the product packaging or the retailer's website.

Please have your model number (A06) and purchase date ready when contacting support.
