- 886 building block pieces.
- Colorfully detailed assembly manuals for both the large battleship and the 8 small models.
- A stable storage box with a baseplate for organization and display.

Setup: Assembly Instructions

Follow these steps to assemble your building set:

1. **Unpack Components:** Carefully open the storage box and remove all building block bags and instruction manuals.
2. **Identify Parts:** The small block bags are marked with numbers (e.g., Double 1-8). These numbers correspond to specific sections in the assembly manuals.

3. **Choose Your Model:**
    - **For Small Models:** If you wish to build one of the 8 small models, locate the manual corresponding to that model (e.g., Manual 397-1). You will only need the two small-block bags with the matching number (e.g., two bags marked '1' for Manual 397-1).
    - **For the Large Battleship:** To construct the large military battleship, all small-block bags are required. Follow the dedicated manual for the large model.
4. **Follow Manual Instructions:** Refer to the colorfully detailed assembly manuals for step-by-step guidance. Each step illustrates the pieces required and their placement.
5. **Connect Pieces Securely:** Ensure all blocks are firmly connected to create a stable structure.
