Figure 3.3: Image showing both the bottom of the mouse with its optical sensor and regulatory marks, and the top view demonstrating the vibrant RGB lighting effect.

4. Setup

The HXSJ A883 Gaming Mouse is designed for simple plug-and-play operation.

1. Locate an available USB port on your desktop or notebook computer.
2. Insert the USB connector of the HXSJ A883 Gaming Mouse into the USB port.
3. Your operating system will automatically detect and install the necessary drivers. This process may take a few moments.
4. Once the installation is complete, the mouse will be ready for use.

5. Operating Instructions

5.1. DPI Adjustment

The HXSJ A883 Gaming Mouse features adjustable DPI (Dots Per Inch) settings, allowing you to change the mouse sensitivity on the fly. This is particularly useful for different tasks, such as precise aiming in games or fast navigation on the desktop.

- Locate the DPI adjustment buttons, typically positioned below the scroll wheel.
- Pressing these buttons will cycle through the available DPI settings: 800, 1600, 3200, and 6400 DPI.
- The change in DPI is usually indicated by a change in the mouse's RGB lighting color or a brief visual cue.

5.2. RGB Lighting Effect

The mouse features a cool color breathing light effect that enhances its aesthetic appeal. The lighting effect is automatic and does not require manual configuration.

6. Maintenance

To ensure the longevity and optimal performance of your HXSJ A883 Gaming Mouse, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid using harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the bottom of the mouse clean and free from dust or debris. Use a cotton swab or compressed air to gently clean the sensor area if needed.
- **Cable Management:** Avoid sharp bends or excessive pulling on the mouse cable to prevent damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

7. Troubleshooting

If you encounter any issues with your HXSJ A883 Gaming Mouse, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mouse is not responding.	Loose USB connection, faulty USB port, driver issue.	Ensure the USB cable is securely plugged in. Try a different USB port. Restart your computer.
Cursor movement is erratic or jumpy.	Dirty optical sensor, unsuitable mouse pad surface.	Clean the optical sensor on the bottom of the mouse. Use a clean, uniform mouse pad or surface.
DPI adjustment buttons not working.	Software conflict, temporary glitch.	Restart your computer. Ensure no other mouse software is interfering.
RGB lighting is off or flickering.	Power issue, internal fault.	Ensure the mouse is properly connected. Try a different USB port. If the issue persists, contact customer support.
