

Sordin Supreme Pro-X LED

Sordin Supreme Pro-X LED Electronic Hearing Protection User Manual

Model: Supreme Pro-X LED (SOR75302-X-07X-S)

Brand: Sordin

1. INTRODUCTION

The Sordin Supreme Pro-X LED electronic hearing protection is designed to provide superior hearing safety and situational awareness in noisy environments. This device features active noise reduction, which suppresses harmful loud sounds while amplifying ambient sounds like speech and wildlife. Equipped with waterproof microphones and a durable design, it is suitable for various applications including hunting, shooting, and industrial use.

Figure 1: Sordin Supreme Pro-X LED Electronic Hearing Protection.

2. SAFETY INFORMATION

- Always ensure the hearing protection is properly fitted and functioning before entering a noisy environment.
- Do not modify the device. Unauthorized modifications may compromise safety and void the warranty.
- Keep batteries out of reach of children. If swallowed, seek immediate medical attention.
- Dispose of batteries according to local regulations.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.

3. SETUP

3.1. Battery Installation

The Sordin Supreme Pro-X LED requires two AAA batteries. To install or replace batteries:

1. Locate the battery compartment cap on the side of one earcup.
2. Unscrew the cap counter-clockwise. The cap is made of metal for durability.
3. Insert two AAA batteries, ensuring correct polarity (+/-) as indicated inside the compartment. For the second battery, a pen or similar narrow object can be used to gently push it into place.
4. Screw the cap back on clockwise until secure.

For a visual guide on battery installation, please refer to the video below:

Your browser does not support the video tag.

Video 1: Instructions for changing batteries in Sordin Supreme hearing protection.

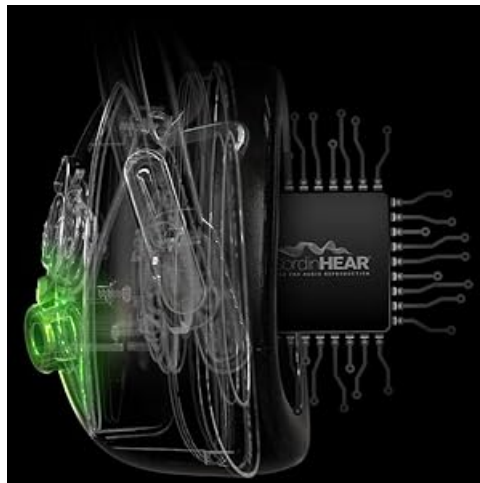

Figure 2: Close-up view of the battery compartment, showing the two AAA batteries.

3.2. Adjusting Fit

Adjust the headband by sliding the earcups up or down until they comfortably cover your ears. The earcups feature comfortable gel pads designed for extended wear without discomfort.

SORDIN

Super comfortable hygienic gel kits

Figure 3: The Sordin Supreme Pro-X LED featuring super comfortable hygienic gel kits for extended wear.

4. OPERATING INSTRUCTIONS

4.1. Power On/Off and Volume Control

To power on the device, press the central button on the earcup. Use the '+' and '-' buttons to adjust the volume of amplified ambient sounds. The device will automatically power off after four hours of inactivity to conserve battery life. The LED light also turns off automatically after three minutes.

SORDIN

Easy to operate keypad

Leicht bedienbares Tastenfeld

Figure 4: Easy to operate keypad for power and volume control.

4.2. Active Noise Reduction (ANR)

The Sordin Supreme Pro-X LED features active noise reduction technology. This system blocks out loud, harmful noises (e.g., gunshots) while simultaneously amplifying low-level sounds (e.g., speech, animal movements). This allows for improved communication and awareness without compromising hearing safety.

Figure 5: Active noise amplification technology for enhanced situational awareness.

4.3. LED Light Function

To activate or deactivate the integrated LED light, press the volume up and down buttons simultaneously. The LED light is useful for low-light conditions and automatically turns off after three minutes.

4.4. External Audio Input

The device includes a 3.5mm audio input jack, allowing connection to external audio sources such as radios or communication devices. This enables clear audio reception while maintaining hearing protection.

5. MAINTENANCE

5.1. Cleaning

Wipe the earcups and headband with a damp cloth. Do not use harsh chemicals or abrasive cleaners. The headband cover can be removed for washing if necessary.

5.2. Battery Replacement

Replace batteries when the low battery indicator appears or when sound quality degrades. Refer to Section 3.1 for detailed battery installation instructions. Battery life is approximately 600 hours.

5.3. Storage

Store the hearing protection in a cool, dry place away from direct sunlight. Remove batteries if the device will not be used for an extended period to prevent leakage.

6. TROUBLESHOOTING

- **No Sound:** Check if the device is powered on. Ensure batteries are correctly installed and not depleted. Adjust volume levels.
- **Distorted Sound:** Replace batteries if they are low. Check the connection of any external audio devices.
- **Difficulty Installing Batteries:** Ensure AAA batteries are used. A pen or similar tool can assist in pushing the second battery into place.
- **Intermittent Functionality:** Ensure battery compartment cap is securely tightened.

7. SPECIFICATIONS

Feature	Detail
Model Number	SOR75302-X-07X-S
Item Package Dimensions L x W x H	9.84 x 7.68 x 4.21 inches
Package Weight	0.61 Kilograms
Item Dimensions LxWxH	9.06 x 7.36 x 4.29 inches
Brand Name	Sordin
Color	Green
Material	Leather

Suggested Users	unisex-adult
Style	Modern
Size	Large
Sport Type	Hunting, Shooting
Certifications	ANSI S3.19-1974, EN 352-1, EN 352-4, EN 352-8

SORDIN

Certified as work protection according to EN 352-1/-4/-8

Zertifiziert als Arbeitsschutz nach EN 352-1/-4/-8

Figure 6: The Sordin Supreme Pro-X LED is certified as work protection according to European and ANSI norms.

8. WARRANTY AND SUPPORT

8.1. Warranty Information

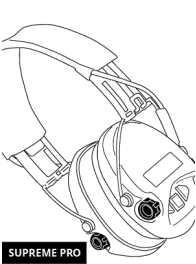

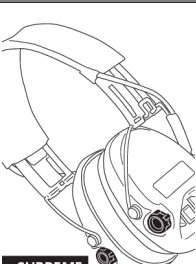

The Sordin Supreme Pro-X LED comes with a **five-year warranty**, covering manufacturing defects and malfunctions under normal use conditions. Please retain your proof of purchase for warranty claims.

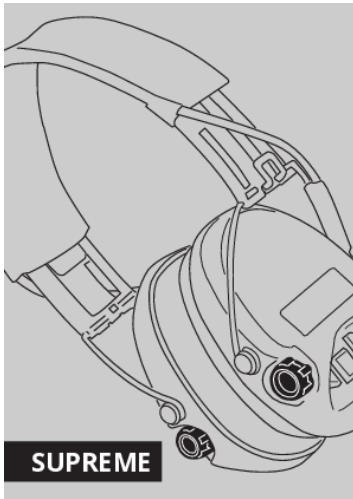

8.2. Customer Support

For technical assistance, troubleshooting, or warranty inquiries, please contact Sordin customer support

through their official website or the retailer where the product was purchased.

HUNTING MILITARY SHOOTING AIRSOFT

The Sordin Supreme

Noise level dependent ear muff with the highest performance

The Supreme electronic ear muff protects your hearing from noise, while allowing you to hear the surrounding sounds of the surroundings. The ambient sound is filtered by the microphone mounted on the outside of each ear and reproduced through speakers inside the ear muff.

The advanced electronic design compresses the background noise down to a safe level, while allowing you to hear other important sounds. In hunting or military, you can communicate face-to-face with others and have commands and instructions received instantly and the ear muff over which other people are listening right next to you.
