

Bali B543

Bali Full Coverage Bra Instruction Manual

Model: B543

1. PRODUCT OVERVIEW

The Bali Full Coverage Bra, model B543, is designed to provide ultimate comfort and support for everyday wear. Featuring a secure hook & loop closure and wired support, this bra offers a smooth silhouette under clothing. Its basic strap type ensures ease of wear and adjustability.

2. WEARING INSTRUCTIONS

Follow these steps to ensure a comfortable and secure fit:

1. **Step 1: Position the Bra.** Lean forward slightly and allow your breasts to fall into the cups. Ensure the underwire sits flat against your rib cage, directly beneath your breast tissue.
2. **Step 2: Fasten the Closure.** Bring the two ends of the bra together at your back and secure the hook & loop closure. Start with the loosest hook setting and adjust as needed for comfort and support.
3. **Step 3: Adjust Straps.** Adjust the shoulder straps so they are snug but not digging into your shoulders. The straps should provide minimal lift; most of the support should come from the band.
4. **Step 4: Scoop and Swoop.** Reach into each cup and gently scoop any breast tissue from under your arm and from the bottom of the cup into the center of the cup. This ensures all tissue is properly contained.

Image 2: Back view of the Bali Full Coverage Bra. This image illustrates the rear of the bra, showcasing the adjustable hook & loop closure and the strap attachment points.

3. CARE AND MAINTENANCE

To maintain the quality and longevity of your Bali Full Coverage Bra, please follow these care instructions:

- **Hand Wash Only:** Gently hand wash your bra in cool water with a mild detergent. Avoid harsh chemicals or bleach.
- **Do Not Twist or Wring:** Squeeze excess water gently without twisting or wringing the fabric, as this can damage the wires and elastic.
- **Air Dry:** Lay flat or hang to air dry. Do not tumble dry, as high heat can degrade the fabric and elastic.
- **Store Properly:** Store your bra flat or folded to prevent creasing or damage to the cups.

4. FIT GUIDE

Achieving the perfect fit is crucial for comfort and support. Use the following tips and refer to the size chart below:

- **Band Fit:** The band should be snug and level all the way around your body, not riding up in the back. You should be able to fit two fingers comfortably under the band.
- **Cup Fit:** Your breasts should fill the cups completely without spilling over the top or sides. There should be no gaps or wrinkles in the cup fabric.
- **Underwire Placement:** The underwire should lie flat against your rib cage, encircling your breast tissue without resting on it.
- **Strap Comfort:** Straps should feel secure but not dig into your shoulders. They primarily help keep the cups in place, with the band providing the main support.

5. PRODUCT SPECIFICATIONS

- **Model Number:** B543
- **Closure Type:** Hook & Loop
- **Underwire Type:** Wired
- **Strap Type:** Basic
- **Department:** Womens
