## INITIAL SETUP AND PREPARATION

1. **Unpacking:** Carefully remove the suit from its packaging. Avoid using sharp objects that could damage the fabric.
2. **Initial Inspection:** Inspect the suit for any creases or wrinkles from shipping.
3. **Hanging:** Hang the jacket and trousers immediately on a padded hanger to allow any creases to naturally fall out. Use a hanger that supports the shoulders of the jacket to maintain its shape.
4. **Steaming (Optional):** If significant wrinkles are present, a professional steamer can be used. Alternatively, hang the suit in a steamy bathroom for 15-20 minutes. Avoid direct contact with a hot iron, as this can damage wool fibers.
5. **Tailoring:** For the best fit, it is highly recommended to have the suit professionally tailored to your measurements. This includes adjusting sleeve length, trouser length, and jacket fit.

## WEARING AND STYLING

This three-piece suit offers versatility for various occasions.

- **Full Three-Piece:** For formal events, wear all three pieces together: jacket, waistcoat, and trousers. Ensure the waistcoat is visible beneath the jacket and fits snugly.
- **Two-Piece:** For slightly less formal or business settings, the waistcoat can be omitted, wearing just the jacket and trousers.
- **Jacket Only:** The jacket can be worn separately with dress trousers or chinos for a smart-casual look.
- **Trousers Only:** The trousers can be paired with a dress shirt or a smart sweater.
- **Buttoning the Jacket:** For a two-button jacket, typically only the top button is fastened when standing. Both buttons should be unfastened when sitting to prevent creasing and ensure comfort.

## CARE AND MAINTENANCE

Proper care is crucial for preserving the quality and appearance of your 100% wool suit.

### Cleaning Instructions:

- **Dry Clean Only:** This suit is made of 100% wool and should be dry cleaned by a reputable professional cleaner. Do not machine wash, hand wash, or tumble dry, as this can cause shrinking, damage, or loss of shape.
- **Frequency:** Dry clean only when necessary, typically after 3-5 wears or if visibly soiled. Over-cleaning can shorten the lifespan of the wool.
- **Spot Cleaning:** For minor spills, gently blot with a clean, damp cloth. Avoid rubbing, which can spread the stain or damage the fabric.

### Storage:

- **Hangers:** Always hang your suit on a wide, padded hanger that supports the shoulders of the jacket and allows the trousers to hang straight.
- **Breathable Garment Bag:** Store the suit in a breathable garment bag to protect it from dust, moths, and environmental factors. Avoid plastic bags, which can trap moisture.
- **Ventilation:** Ensure adequate air circulation in your closet to prevent mustiness.
- **Resting:** Allow the suit to rest for at least 24 hours between wears to allow the wool fibers to recover and release wrinkles.

### Wrinkle Removal:

- **Steaming:** Use a handheld steamer or hang the suit in a steamy bathroom. Hold the steamer a few inches away from the fabric and move it gently.
- **Ironing:** If ironing is necessary, use a low heat setting with a pressing cloth between the iron and the suit fabric. Iron on the reverse side where possible.

## TROUBLESHOOTING COMMON ISSUES

Issue	Possible Cause	Solution
Excessive Wrinkles	Improper storage, prolonged sitting, travel.	Steam the suit or hang it in a steamy bathroom. Allow it to rest on a proper hanger.
Minor Stains/Spills	Accidental food/drink spills.	Blot immediately with a clean, damp cloth. For stubborn stains, consult a professional dry cleaner.
Loose Threads	Normal wear and tear, minor manufacturing imperfection.	Carefully snip loose threads with sharp scissors. Do not pull them.
Moth Damage	Improper storage, lack of protection.	Store in a breathable garment bag with cedar blocks or lavender sachets. If damage occurs, professional repair may be possible.
