# JOINTWIN LED Solar Willow Tree Lights Instruction Manual

Model: 791107519433

## INTRODUCTION

Thank you for purchasing the JOINTWIN LED Solar Willow Tree Lights. This 4.6-foot lighted weeping willow tree features adjustable branches and is designed for both outdoor and indoor decoration. Powered by solar energy, it offers a beautiful purple glow to enhance your garden, patio, or any desired space. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your product.

## SAFETY INFORMATION

Please read all safety instructions carefully before using the product. Failure to follow these instructions may result in injury or damage to the product.

- Ensure the solar panel is placed in an area that receives direct sunlight for at least 6-8 hours daily for optimal charging.
- Do not attempt to modify or disassemble the product. This will void the warranty and may cause damage.
- Keep the product away from open flames, excessive heat, and corrosive substances.
- When installing, ensure the tree is stable and securely anchored to prevent tipping, especially in windy conditions.
- This product is designed for decorative purposes. Do not use it as a toy. Keep out of reach of small children.
- Handle the branches gently when adjusting to avoid damaging the wiring or LED lights.

## PACKAGE CONTENTS

Verify that all components are present in the package before beginning assembly:

1. Pole with Branches (x1)
2. Straight Pole (x1)
3. Solar Panel (x1)
4. Ground Spike (x1)
5. Flat Bottom Stand (x1)

## SETUP INSTRUCTIONS

Follow these steps to assemble and set up your LED Solar Willow Tree Lights:

1. **Assemble the Tree Poles:** Insert the straight pole into the bottom of the pole with branches. Ensure they are securely connected.
2. **Choose Your Stand Option:**
  - **For Ground Installation (Spike):** Attach the ground spike to the bottom of the straight pole. Gently push the

spike into soft ground until the tree is stable.

- **For Flat Surface Installation (Flat Bottom Stand):** Attach the flat bottom stand to the bottom of the straight pole. Place the tree on a flat, stable surface.

## 2 Ways for Stand

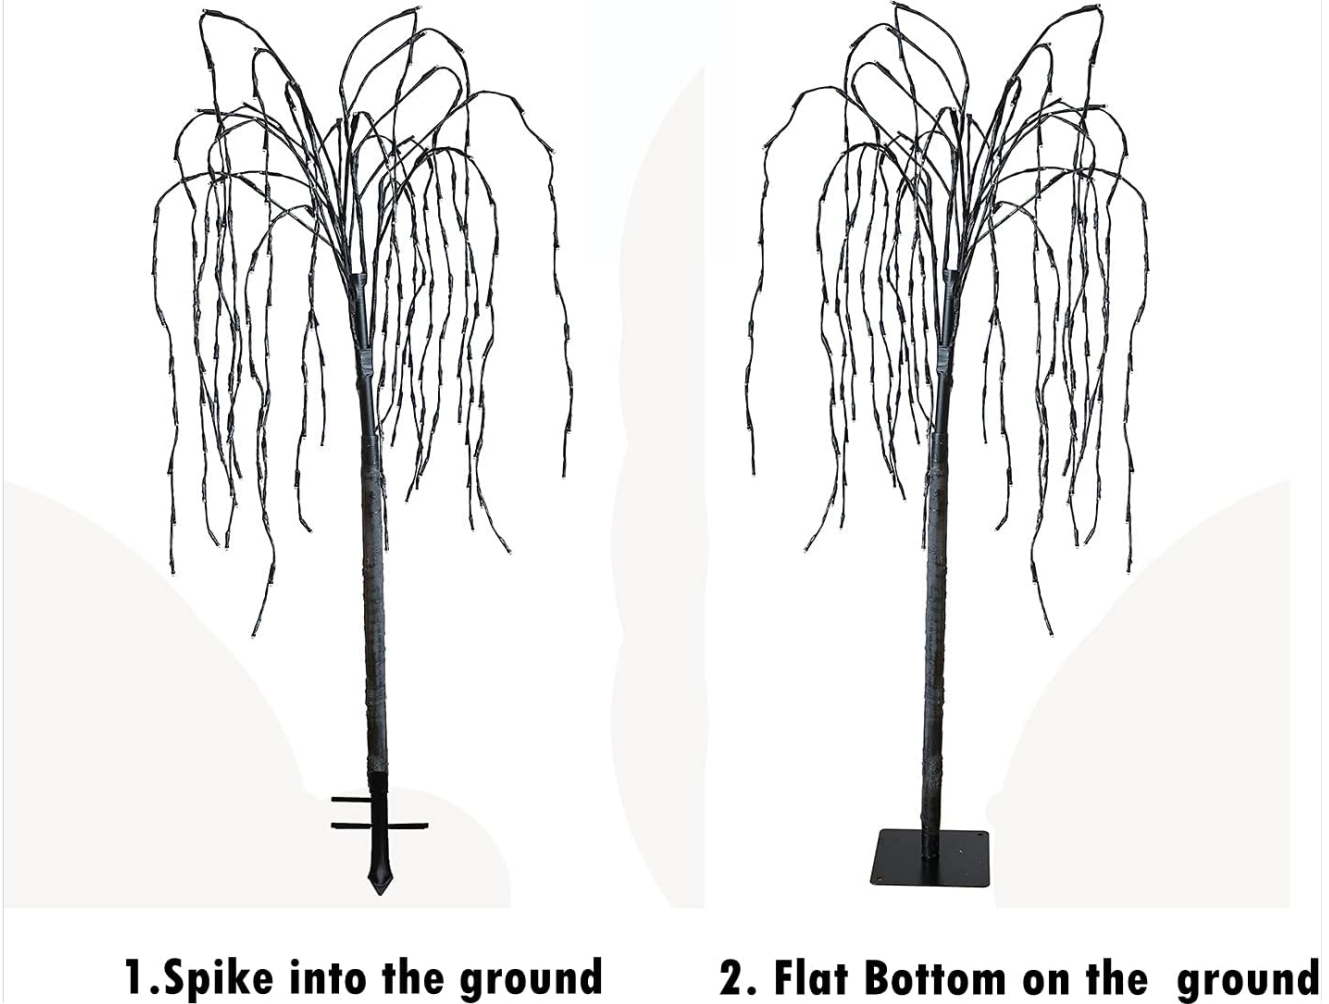

Image: Illustration of the two available stand options for the willow tree.

3. **Adjust the Branches:** Carefully and gently bend the flexible branches to create your desired weeping willow shape. The branches are designed to be adjustable.

## OPERATING INSTRUCTIONS

---

Your solar willow tree lights are designed to operate automatically once properly charged.

1. **Initial Charge:** Before first use, ensure the solar panel is exposed to direct sunlight for at least 8-10 hours to fully charge the internal batteries. The lights will not turn on during daylight hours.
2. **Power On/Off:** Locate the ON/OFF switch on the back of the solar panel. Switch it to the "ON" position for automatic operation. The lights will automatically turn on at dusk and turn off at dawn.
3. **Selecting Lighting Modes:** The solar panel also features a "MODE" button. Press this button to cycle through the 8 available lighting modes. These modes include various flashing patterns and a steady-on option.

## MAINTENANCE

---

Regular maintenance will help prolong the life of your solar willow tree lights.

- **Cleaning the Solar Panel:** Periodically wipe the solar panel with a soft, damp cloth to remove dust, dirt, or debris. A clean panel ensures efficient charging.
- **Branch Care:** If branches become tangled or misaligned, gently untangle and reshape them. Avoid excessive force.
- **Winter Storage:** In areas with harsh winters, it is recommended to bring the tree indoors or store it in a sheltered location to protect it from extreme weather conditions.
- **Battery Replacement:** The product includes 3 AA batteries. While included, if the lights become dim or stop working after sufficient charging, the rechargeable AA batteries may need replacement. Use only rechargeable AA batteries of the same type and capacity.

## TROUBLESHOOTING

---

If your LED Solar Willow Tree Lights are not functioning as expected, try the following solutions:

Problem	Possible Cause	Solution
Lights do not turn on at night.	Solar panel not receiving enough sunlight. ON/OFF switch is in the "OFF" position. Batteries are not charged or are depleted. Solar panel is dirty.	Relocate the solar panel to an area with direct sunlight for 6-8 hours daily. Ensure the ON/OFF switch is set to "ON". Allow the solar panel to charge for a full day. Replace batteries if old or damaged. Clean the solar panel surface.
Lights are dim or only stay on for a short time.	Insufficient solar charging. Batteries are old or not holding a charge.	Ensure solar panel is clean and receives full sunlight. Replace the 3 AA rechargeable batteries.
Branches are not holding shape.	Branches were bent too forcefully or repeatedly.	Gently reshape the branches. Avoid over-bending.

## SPECIFICATIONS

Feature	Detail
Brand	JOINTWIN
Model Number	791107519433
Color	Purple Glow
Light Source Type	LED
Number of Light Sources	200
Power Source	Solar Powered
Material	Plastic (Tree), Metal (Shade/Stand)
Voltage	12 Volts (DC)
Batteries	3 AA batteries required (included)
Bulb Features	8 Lighting Modes, Two Lighting Colors (for product line, this variant is Purple)
Item Weight	3.59 pounds
Package Dimensions	29 x 8.5 x 3.5 inches
Date First Available	April 8, 2021
