POCOCO R60

POCOCO Galaxy Lite Home Planetarium Projector User Manual

Model: R60

1. INTRODUCTION

Welcome to the user manual for your new POCOCO Galaxy Lite Home Planetarium Projector. This device is designed to transform any room into a captivating celestial experience, projecting realistic starry skies and other cosmic scenes. Please read this manual carefully before using the product to ensure proper operation and to maximize your enjoyment of its features.

The POCOCO Galaxy Lite Projector, a compact device designed to project starry skies and other celestial scenes.

2. PRODUCT OVERVIEW

Key Features

- HD Projection:** Delivers clear and high-definition images.
- Variety of Discs:** Includes multiple interchangeable projection discs for diverse visual experiences.
- Timing Function:** Features an automatic shut-off timer (15/30/60 minutes).
- 360° Rotating Projection:** Allows for dynamic and immersive displays.
- Battery Powered & Cordless:** Offers portability and flexible placement.
- Water Resistant:** Provides protection against splashes.
- Multiple Control Methods:** Operates via push buttons and voice control.

- **USB & Wi-Fi Connectivity:** For power and potential smart features.

Package Contents

Please check the package contents to ensure all items are present:

- POCOCO Galaxy Lite Projector (Model R60)
- Remote Control
- Interchangeable Projection Discs (4 included: Starry Sky, Solar System, Dinosaur World, Galaxy Nebula)
- USB Charging Cable
- User Manual (this document)

Four content films

The projector comes with four interchangeable discs, including a starry sky, solar system, dinosaur world, and a colorful galaxy nebula, offering a variety of visual experiences.

3. SETUP

3.1 Charging the Device

Before first use, fully charge the projector. Connect the provided USB charging cable to the projector's charging port and plug the other end into a compatible USB power adapter (not included) or a computer's USB port. The charging indicator light will show the charging status and turn off when fully charged. A full charge provides up to 6 hours of operation.

The projector features a USB charging port for convenient power replenishment. Ensure the device is fully charged before first use for optimal battery life.

3.2 Inserting/Changing Discs

1. Gently remove the current disc (if any) from the projector's disc slot.
2. Select your desired projection disc.
3. Align the disc with the slot and carefully insert it until it clicks into place. Ensure the image side of the disc is facing the lens.

A detailed view of the projector's high-definition lens, which is used to focus and project the various disc images onto surfaces.

3.3 Placement

Place the projector on a stable, flat surface. For optimal projection clarity and size, position the projector in a dark room, ideally 1.5 to 3 meters (5 to 10 feet) away from the projection surface (ceiling or wall). The projector can be angled up to 60 degrees to adjust the projection area.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Press the power button located on the base of the projector to turn the device on or off. The projector will begin projecting the inserted disc image.

4.2 Adjusting Focus

Rotate the focus ring around the lens to achieve a clear and sharp image. Adjust as needed based on the projection distance.

4.3 Rotation Function

Press the rotation button on the projector's base or remote control to activate or deactivate the 360-degree rotation of the projected image. This creates a dynamic and immersive effect.

4.4 Timer Function

The projector features a built-in timer for automatic shut-off. Press the timer button to cycle through the available settings: 15 minutes, 30 minutes, 60 minutes, or continuous operation. The corresponding indicator light will illuminate.

4.5 Control Methods

The projector can be controlled using the physical push buttons on its base or via voice commands (if connected to a compatible smart home system via Wi-Fi). Refer to your smart home system's instructions for voice control setup.

The projector offers HD projection quality, supports a variety of interchangeable discs, includes a timing function for automatic shut-off, and features a 360-degree rotating projection capability.

5. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the exterior of the projector. For the lens, use a specialized lens cleaning cloth and solution to avoid scratches. Do not use abrasive cleaners or solvents.
- Storage:** When not in use, store the projector and discs in a cool, dry place, away from direct sunlight and extreme temperatures. Keep discs in their protective cases to prevent dust and scratches.
- Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. If storing for an extended period, charge the battery to about 50% and recharge every 3-6 months.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Projector does not turn on.	Low battery; Power button not pressed correctly.	Charge the projector fully; Ensure the power button is pressed firmly.
Image is blurry.	Focus not adjusted; Incorrect projection distance.	Rotate the focus ring until the image is clear; Adjust the distance between the projector and the projection surface.
Image is dim or unclear.	Room is too bright; Lens or disc is dirty.	Ensure the room is sufficiently dark; Clean the lens and disc carefully.
Rotation function not working.	Rotation function is off.	Press the rotation button to activate the function.
Timer function not working as expected.	Incorrect timer setting selected.	Press the timer button to cycle through and select the desired duration.
