## UONI V980 Plus

# UONI V980Plus Robot Vacuum Cleaner Instruction Manual

Model: V980 Plus | Brand: UONI

## INTRODUCTION

Welcome to the UONI V980Plus Robot Vacuum Cleaner instruction manual. This guide provides essential information for setting up, operating, and maintaining your new robotic vacuum cleaner. Please read this manual thoroughly before first use to ensure safe and efficient operation.

*The UONI V980Plus Robot Vacuum Cleaner with its accompanying self-emptying dustbin.*

## KEY FEATURES

- **Self-Emptying Dustbin:** Automatically empties the robot's dust box into a larger bag in the charging base, providing up to 30 days of hands-free cleaning.
- **Lidar Navigation:** Utilizes advanced Lidar mapping technology for real-time mapping, accurate navigation, and efficient cleaning paths.
- **Strong Suction:** Features 2700Pa suction power for effective cleaning of dust, pet hair, debris, and even larger particles on various floor types.
- **Vacuum & Mop Functionality:** Offers 2-in-1 cleaning, allowing simultaneous vacuuming and mopping for comprehensive floor care.
- **Smart Control:** Compatible with Uoni Robot APP, Amazon Alexa, and Google Assistant for voice control, remote operation, and personalized cleaning plans.

- **Multi-Floor Mapping:** Supports multi-floor mapping with customizable no-go zones and virtual walls.

## SETUP

---

### 1. Unboxing and Placement

Carefully remove all components from the packaging. Place the self-emptying dustbin (charging base) against a wall with at least 1 foot of clear space on either side and 3 feet in front for the robot to maneuver. Ensure the power cord is securely plugged into a wall outlet.

*The UONI V980Plus and its self-emptying dustbin, ready for setup.*

### 2. Initial Charge

Place the robot vacuum onto the charging contacts of the self-emptying dustbin. Ensure the robot is properly aligned and charging. The indicator light on the robot will confirm charging status. Allow for a full charge before first use.

### 3. App Connection

Download the Uoni Robot APP from your smartphone's app store. Follow the in-app instructions to connect your robot vacuum to your home Wi-Fi network. This will enable advanced features like remote control, mapping, and scheduling.
