

## MARVO HG9055

# Marvo Scorpion HG9055 USB Gaming Headset User Manual

Model: HG9055

## INTRODUCTION

Thank you for purchasing the Marvo Scorpion HG9055 USB Gaming Headset. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device. Please read this manual thoroughly before using the headset.

## SAFETY INFORMATION

- Avoid exposing the headset to extreme temperatures, humidity, or dust.
- Do not disassemble or attempt to repair the headset yourself. This may void the warranty and cause damage.
- Clean the headset with a soft, dry cloth. Do not use liquid cleaners.
- Prolonged listening at high volume levels may cause hearing damage. Adjust volume to a comfortable level.
- Keep the headset away from children and pets.

## PACKAGE CONTENTS

Please check the package contents upon unboxing. If any items are missing or damaged, contact your retailer.

## Key Components:

- **Adjustable Headband:** For a comfortable fit.
- **Over-Ear Earcups:** Padded for comfort during extended use.
- **Flexible Microphone:** Noise-cancelling for clear communication.
- **USB Connector:** For digital audio and power.

## SETUP INSTRUCTIONS

---

1. **Connect the Headset:** Plug the USB connector of the HG9055 headset into an available USB port on your PC or laptop.
2. **Driver Installation:** The operating system (Windows/macOS) should automatically detect and install the necessary drivers. Allow a few moments for this process to complete.
3. **Verify Audio Output:**
  - **Windows:** Right-click the speaker icon in the system tray, select "Sound Settings" or "Playback devices." Ensure "Marvo Scorpion HG9055" or a similar device name is selected as the default playback device.
  - **macOS:** Go to "System Preferences" > "Sound" > "Output." Select "Marvo Scorpion HG9055" as the output device.
4. **Verify Microphone Input:**
  - **Windows:** In "Sound Settings" or "Recording devices," ensure "Marvo Scorpion HG9055" is selected as the default recording device.
  - **macOS:** In "System Preferences" > "Sound" > "Input," select "Marvo Scorpion HG9055" as the input device.
5. **Adjust Fit:** Adjust the headband and earcups for a comfortable and secure fit. Position the microphone approximately 2-3 cm from your mouth for optimal voice clarity.

## OPERATING INSTRUCTIONS

---

## Audio Playback:

Once connected and configured, the headset will function as your primary audio output device.

- **Volume Control:** Adjust the volume using the in-line control wheel on the headset cable or through your operating system's sound settings.
- **7.1 Virtual Surround Sound:** The headset supports 7.1 virtual surround sound. This feature may require specific software or settings within your game or audio application for full utilization. Refer to your game's audio settings for configuration.

## Microphone Usage:

- **Microphone Activation:** The microphone is active by default when connected. Use the in-line microphone mute switch (if present) to toggle the microphone on/off.
- **Noise Cancellation:** The integrated noise-cancelling microphone reduces background noise for clearer voice communication. Ensure the microphone is positioned correctly near your mouth.
- **Microphone Volume:** Adjust microphone sensitivity through your operating system's sound settings (Input/Recording devices).

## MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe the earcups and headband. Do not use abrasive cleaners, alcohol, or solvents.
- **Storage:** When not in use, store the headset in a clean, dry place, away from direct sunlight and extreme temperatures. Avoid tangling the cable.
- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the USB plug.

## TROUBLESHOOTING

Problem	Solution
No sound from headset.	<ul style="list-style-type: none"><li>• Ensure the USB connector is fully plugged into a working USB port.</li><li>• Check if the headset is selected as the default playback device in your operating system's sound settings.</li><li>• Increase the volume using the in-line control or system volume.</li><li>• Try a different USB port.</li></ul>
Microphone is not working.	<ul style="list-style-type: none"><li>• Ensure the microphone mute switch (if present) is in the "unmuted" position.</li><li>• Verify the headset is selected as the default recording device in your operating system's sound settings.</li><li>• Check microphone privacy settings in your operating system.</li><li>• Ensure the microphone is positioned correctly.</li></ul>

Problem	Solution
Sound quality is poor or distorted.	<ul style="list-style-type: none"><li>• Reduce the volume to prevent distortion.</li><li>• Ensure audio drivers are up to date.</li><li>• Test the headset on another device to rule out a computer-specific issue.</li></ul>
