5.2 Preparing Milk-Based Beverages (e.g., Latte Macchiato)

1. Remove the water spout and lift the milk carafe lid.
2. Pour cold milk into the carafe, ensuring it is between the MIN and MAX levels. Use whole milk at around 5°C for optimal results. Semi-skimmed, lactose-free, or soy milk can also be used.
3. Close the carafe lid and insert the carafe into the machine, sliding it to the right until it locks onto the drip

tray.

4. Place a glass under the milk and coffee spouts and adjust the spouts to fit your glass.
5. Select "Latte Macchiato" from the menu and press the START/STOP button to begin brewing.

5.3 Preparing Coffee-Based Beverages (e.g., Americano)

1. Ensure the water spout is inserted.
2. Place a cup under the coffee dispensing spout and adjust it to your cup.
3. Select "Americano" from the menu and press the START/STOP button. The machine will first dispense espresso, then hot water.

5.4 Preparing Two Espressos

1. Take out the espresso tray and place it at the right height for espresso cups.
2. Place two espresso cups on the tray.
3. Select "Espresso" from the menu and press the 2x cups button (usually located on the top right of the screen) before pressing START/STOP.

6. CUSTOMIZING BEVERAGES

You can customize various settings for each beverage to suit your preferences:

- **Coffee Length:** Adjust the amount of coffee dispensed.
- **Milk Length:** Adjust the amount of milk dispensed for milk-based drinks.
- **Temperature:** Select low, mid, or high temperature.
- **Aroma Strength:** Adjust the ground coffee quantity from 1 (light aroma) to 5 (more intense flavor).

After brewing, you can save your customized beverage settings using the MEMO function by pressing the checkmark icon on the screen. If brewing is interrupted, the memo screen will not appear.

6.1 Adjusting Grind Settings

The ceramic grinders are adjustable on 5 different levels to modify the body of your coffee. Adjust the grind settings only when the grinder is working. From 1 (finest grind for a stronger taste) to 5 (coarsest for a lighter flavor).

7. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your GAGGIA Magenta Prestige SUP051U.

7.1 Quick Milk Clean

After any milk-based beverage, the machine requires a quick milk clean procedure. You can activate it by pressing the START/STOP button immediately after brewing, or by selecting the procedure from the CLEAN/SET menu at a later time.

7.2 Storing the Milk Carafe

When you have finished brewing a milk-based beverage, remove the milk carafe and place the milk spout on the lock position. You can then store the carafe in the fridge.

7.3 Descaling

The machine will prompt you when descaling is required. Use the provided GAGGIA descaling solution (MEL-

F2000) and follow the instructions in the separate maintenance booklet or on the machine's display.

7.4 Cleaning the Drip Tray and Coffee Grounds Container

Regularly empty and clean the drip tray and the coffee grounds container to prevent blockages and maintain hygiene.

8. TROUBLESHOOTING

If you encounter any issues with your GAGGIA Magenta Prestige SUP051U, please refer to the following common troubleshooting tips:

- **No coffee dispensed:** Check water tank level, ensure coffee beans are present, and the brew group is correctly inserted.
- **Milk not frothing correctly:** Ensure the milk carafe is clean, the milk is cold, and the milk spout is correctly positioned. Perform a quick milk clean.
- **Machine not turning on:** Check power connection and ensure the power button is pressed.
- **Error messages:** Consult the full instruction manual or GAGGIA support for specific error code meanings and solutions.

If the problem persists, contact GAGGIA customer support.
