

AXIS P1448-LE

AXIS P1448-LE Network Camera User Manual

Model: P1448-LE | Part Number: 01055-001

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your AXIS P1448-LE Network Camera. The AXIS P1448-LE is an advanced 4K (8 Megapixel) outdoor surveillance camera designed for robust performance in various environments. It features high-resolution video capture, night color technology for low-light conditions, and motion detection capabilities. Please read this manual thoroughly before installing and operating the camera to ensure proper functionality and safety.

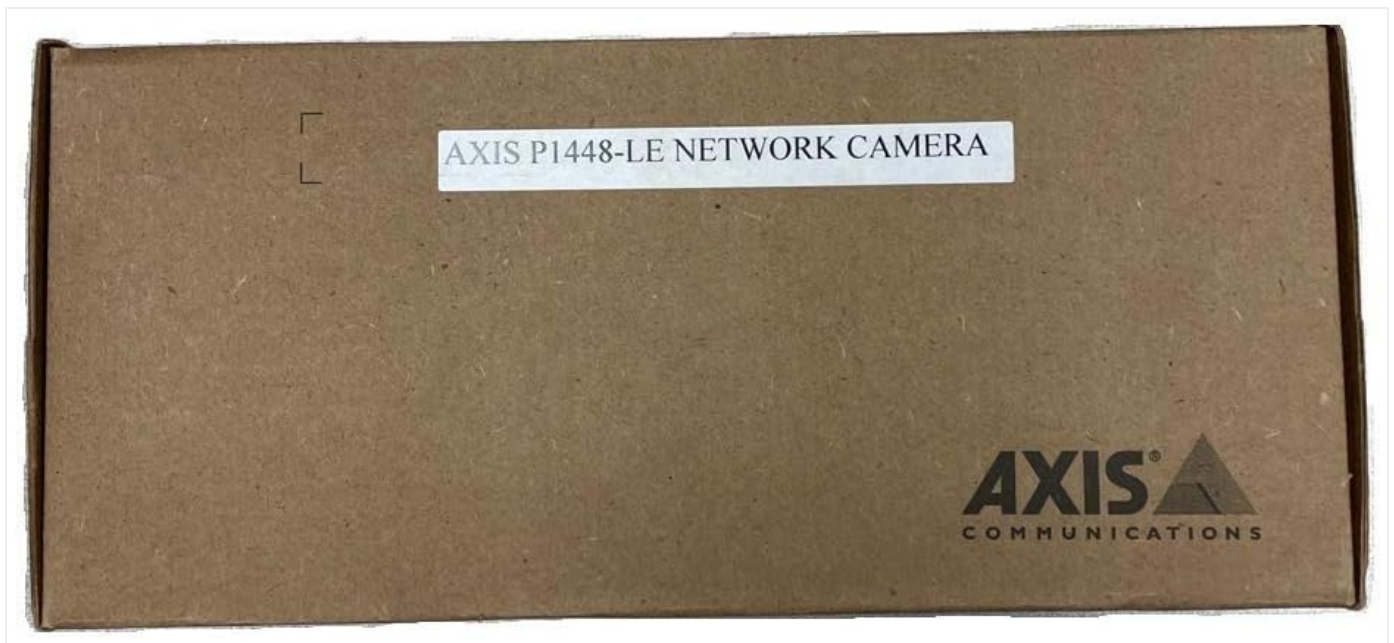

2. SAFETY INFORMATION

Always adhere to the following safety guidelines to prevent damage to the camera or injury to personnel.

- **Power Source:** Use only the specified power source (Ac/dc) as indicated in the product specifications. Incorrect power can damage the device.
- **Installation:** Installation should be performed by qualified personnel in accordance with all local and national electrical codes. Ensure the mounting surface is strong enough to support the camera's weight.
- **Environmental Conditions:** While designed for outdoor use (IP54 rated), avoid exposing the camera to extreme conditions beyond its operating temperature and humidity ranges.
- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth. Do not use liquid or aerosol cleaners.
- **Disassembly:** Do not attempt to disassemble or modify the camera. This will void the warranty and may cause damage or injury.

3. PACKAGE CONTENTS

Upon opening the package, verify that all components are present and undamaged.

This image displays the brown cardboard packaging box for the AXIS P1448-LE Network Camera. The box features a white label with 'AXIS P1448-LE NETWORK CAMERA' printed on it, and the AXIS COMMUNICATIONS logo is visible in the bottom right corner.

The standard package for the AXIS P1448-LE Network Camera typically includes:

- AXIS P1448-LE Network Camera unit
- Installation Guide / Quick Start Guide
- Mounting bracket and hardware (screws, wall plugs)
- Drill template
- Resistorx L-key
- Cable glands

Note: Specific contents may vary slightly based on region or package version.

4. SETUP AND INSTALLATION

Follow these steps for the proper installation and initial setup of your AXIS P1448-LE Network Camera.

1. **Plan Installation Location:** Choose an outdoor location that provides the desired field of view and is within reach of network and power connections. Consider factors like lighting, potential obstructions, and security. The camera is designed for wall mounting.
2. **Mounting the Camera:**
 - Use the provided drill template to mark drilling holes on the chosen mounting surface.
 - Drill the necessary holes and insert wall plugs if required.
 - Secure the mounting bracket to the surface using the provided screws.
 - Attach the camera unit to the mounting bracket according to the installation guide.
3. **Network Connection:** Connect an Ethernet cable from your network switch or router to the camera's network port. The camera supports wired connectivity and ONVIF protocol.
4. **Power Connection:** Connect the appropriate power source (Ac/dc) to the camera. Ensure the power supply meets the camera's requirements.
5. **Initial Configuration:**
 - Once powered on and connected to the network, the camera will obtain an IP address (via DHCP or a default static IP).

- Use an AXIS IP Utility or a web browser to discover the camera on your network.
- Access the camera's web interface by entering its IP address in your browser.
- Follow the on-screen prompts to set a strong password for the camera and configure basic network settings.
- Adjust video settings, including resolution (4K), frame rate (30 fps), and image quality.

6. **Physical Adjustment:** Adjust the camera's pan, tilt, and rotation to achieve the desired viewing angle. Secure all adjustments once finalized.

5. OPERATING THE CAMERA

The AXIS P1448-LE Network Camera offers various features for effective surveillance.

- **Live View:** Access the camera's live video feed through its web interface or a compatible Video Management Software (VMS).
- **Video Recording:** Configure recording settings, including continuous recording, scheduled recording, or event-triggered recording (e.g., motion detection). Recordings can be stored on a network-attached storage (NAS), SD card (if supported by model), or VMS server.
- **Motion Detection:** The camera supports motion-only alert types. Configure motion detection zones and sensitivity within the camera's web interface to trigger alerts or recordings when movement is detected.
- **Night Color Technology:** Utilize the camera's low light technology for enhanced color images in challenging lighting conditions, extending surveillance capabilities beyond traditional infrared.
- **Remote Access:** Set up remote access to view your camera feed from anywhere using a secure connection, such as a VPN or cloud service provided by AXIS or your VMS. The camera supports remote control methods.
- **Wireless Communication:** The camera supports Wi-Fi for wireless communication, offering flexible deployment options where wired connections are challenging.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your camera.

- **Lens Cleaning:** Gently wipe the camera lens with a soft, lint-free cloth. For stubborn dirt, use a lens cleaning solution specifically designed for optical surfaces. Do not use abrasive materials.
- **Housing Cleaning:** Clean the camera's exterior housing with a damp cloth. Avoid harsh chemicals or solvents.
- **Firmware Updates:** Periodically check the AXIS website for firmware updates. Keeping the firmware updated ensures access to the latest features, security patches, and performance improvements.
- **Cable Inspection:** Regularly inspect all cables (power and network) for signs of wear, damage, or corrosion, especially in outdoor installations.
- **Environmental Checks:** Ensure that no debris, spiderwebs, or vegetation are obstructing the camera's view or ventilation openings.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your AXIS P1448-LE Network Camera.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No video feed	No power Network cable disconnected Incorrect IP address Firewall blocking access	Check power supply and connections. Ensure Ethernet cable is securely connected. Verify camera's IP address and network settings. Check network firewall settings to allow camera traffic.
Poor image quality	Dirty lens Incorrect focus/zoom Insufficient lighting Network bandwidth issues	Clean the camera lens. Adjust focus and zoom settings via the web interface. Ensure adequate lighting or enable night color mode. Check network congestion; reduce video bitrate if necessary.
Motion detection not working	Incorrect sensitivity settings Detection zones not configured Environmental factors (e.g., moving trees)	Adjust motion detection sensitivity. Define or refine motion detection zones. Exclude areas with constant, non-relevant motion.

For more detailed troubleshooting or issues not listed here, refer to the comprehensive support documentation on the official AXIS website or contact AXIS technical support.

8. SPECIFICATIONS

Key technical specifications for the AXIS P1448-LE Network Camera:

- **Model:** P1448-LE
- **Effective Still Resolution:** 8 MP
- **Video Capture Resolution:** 4K
- **Frame Rate:** 30 fps
- **Connectivity Technology:** Wired, Wi-Fi
- **Connectivity Protocol:** ONVIF
- **Indoor/Outdoor Usage:** Outdoor
- **International Protection Rating:** IP54
- **Low Light Technology:** Night Color
- **Alert Type:** Motion Only
- **Mounting Type:** Wall Mount
- **Form Factor:** Bullet
- **Power Source:** Ac/dc
- **Control Method:** Remote
- **Video Capture Format:** MPEG-4
- **UPC:** 735816088187

9. WARRANTY AND SUPPORT

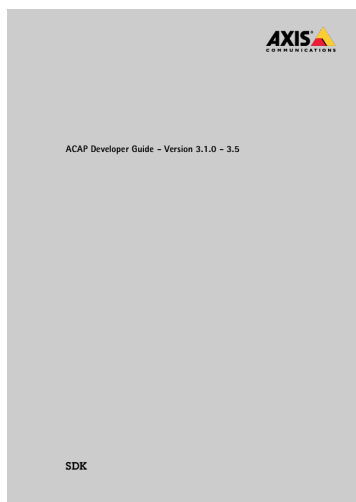

AXIS products are designed for reliability and performance.

- **Warranty Information:** For detailed warranty terms and conditions, please refer to the official AXIS website or the warranty card included with your product. Keep your proof of purchase for warranty claims.
- **Technical Support:** If you encounter issues that cannot be resolved using this manual or the online resources, please contact AXIS technical support. Support contact information can typically be found on the AXIS website.

- **Online Resources:** Visit the official AXIS website for additional documentation, FAQs, software downloads, and community forums.

Справка

AXIS COMMUNICATIONS

AXIS P1448-LE

Полнофункциональный круглозастенный видеонаблюдатель с разрешением 4K

AXIS P1448-LE – это всепогодная камера для круглосуточного видеонаблюдения, обеспечивающая отличную четкость изображения благодаря технологии Super Resolution 16:9 и мощной оптической системе. Благодаря мощной оптической системе, Lightfinder и Forensic WDR, обеспечивающей высокую контрастность изображения и четкость в темноте и в условиях засветки, а также мощной оптике и мощной системе стабилизации изображения, камера AXIS P1448-LE обеспечивает отличное качество изображения в любых условиях. Камера AXIS P1448-LE имеет 3-кратную оптическую стабилизацию изображения и 3-кратную оптическую стабилизацию изображения. Камера AXIS P1448-LE имеет 3-кратную оптическую стабилизацию изображения и 3-кратную оптическую стабилизацию изображения. Камера AXIS P1448-LE имеет 3-кратную оптическую стабилизацию изображения и 3-кратную оптическую стабилизацию изображения.

AXIS COMMUNICATIONS

AXIS P1448-LE Network Camera

Vigilância 4K all-around repleta de recursos

A AXIS P1448-LE Network Camera é uma câmera all-around acessível que proporciona excelente qualidade de imagem na taxa de quadros máxima com resolução de 8 megapixels e formato 16:9. Equipada com Lightfinder, OptimizedIR e Forensic WDR, ela permite que detalhes sejam capturados até mesmo em condições de iluminação desafiadoras, incluindo pouco luz de fundo. Interno. Idealizada para ambientes externos e capaz de operar em uma ampla faixa de temperatura, esta câmera robusta e resistente possui recursos de detecção de intrusão e pode trabalhar em temperaturas extremas. A AXIS P1448-LE pode ser facilmente instalada e conta com recursos de zoom e foco remoto para possibilitar a quem for da imagem. Com a tecnologia Axis Zipstream, suporte a DSR e a AXIS P1448-LE conta de zoom.
