7. TROUBLESHOOTING

If you encounter issues with your phone, please refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Phone does not power on.	Battery is low or not inserted correctly.	Charge the battery. Ensure the battery is properly inserted.
Cannot make or receive calls.	No SIM card, SIM card not active, or out of network coverage.	Ensure SIM card is inserted and active. Check network signal strength. Contact your service provider.
Poor call quality.	Weak signal, environmental interference.	Move to an area with better signal. Avoid obstacles.
Battery drains quickly.	Frequent use, background applications, or old battery.	Reduce screen brightness, close unused applications. If battery is old, consider replacement.
SOS function not working.	SOS numbers not set, or no credit/signal.	Verify SOS numbers are correctly set in settings. Ensure sufficient credit and network signal.
