# Energizer Connect Smart WiFi Plug Instruction Manual

Model: B0929DFGZY

## 1. INTRODUCTION

The Energizer Connect Smart WiFi Plug allows you to control your electronic devices remotely using a mobile application or voice commands. This smart plug connects directly to your home's 2.4GHz Wi-Fi network, eliminating the need for a separate hub. It is compatible with Amazon Alexa, Google Assistant, and Siri for convenient voice control. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your smart plug.

## 2. SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or property damage.

- For indoor use only.
- Do not exceed the maximum load of 15 Amps (120 Volts).
- Do not immerse the plug in water or expose it to moisture.
- Do not attempt to disassemble or modify the device.
- Keep out of reach of children.
- Ensure the plug is fully inserted into the wall outlet.
- Unplug the device from the outlet before cleaning.

## 3. PACKAGE CONTENTS

- 1 x Energizer Connect Smart WiFi Plug
- 1 x User Manual (this document)
## 4. PRODUCT OVERVIEW

The Energizer Connect Smart WiFi Plug features a compact design that allows access to the second outlet. It includes a power button and an LED indicator for status.

**Image 4.1:** The Energizer Connect Smart WiFi Plug shown with its retail packaging, highlighting key features like 15 Amps of power, grouping, voice control, and Wi-Fi connectivity. The plug itself is white and compact.

**Image 4.2:** A close-up front view of the Energizer Connect Smart WiFi Plug, showing the standard Type B electrical outlet configuration (two vertical slots and a round ground hole).

1.0625"

1.125"

**Image 4.3:** This image displays the compact dimensions of the Energizer Connect Smart WiFi Plug. The side view shows

a depth of 1.0625 inches, and the front view indicates a diameter of 1.125 inches, illustrating its mini size.

## 4.1. Components

- **Power Button:** Press to manually turn the connected device on or off. Press and hold for 5 seconds to initiate pairing mode (LED will blink rapidly).
- **LED Indicator:**

  - **Solid Blue:** Device is on.
  - **Off:** Device is off.
  - **Rapidly Blinking Blue:** Pairing mode.
  - **Slowly Blinking Blue:** Disconnected from Wi-Fi.

## 5. SETUP INSTRUCTIONS

Follow these steps to set up your Energizer Connect Smart WiFi Plug.

## 5.1. System Requirements

- A stable 2.4GHz Wi-Fi network (5GHz networks are not supported).
- A smartphone or tablet running iOS 10.0 or higher, or Android 6.0 or higher.
- Access to the Apple App Store or Google Play Store.

## 5.2. App Download and Installation

1. Download the **Energizer Connect App** from the Apple App Store or Google Play Store. Search for "Energizer Connect".
2. Open the app and follow the on-screen instructions to create an account or log in.

**Image 5.1:** A smartphone displaying the Energizer Connect App interface, showing the smart plug in an "ON" state. The image also includes the physical smart plug and icons for downloading the app from the App Store and Google Play.

## 5.3. Pairing the Smart Plug

1. Plug the Energizer Connect Smart WiFi Plug into a standard 120V wall outlet.

2. The LED indicator on the plug should begin blinking rapidly, indicating it is in pairing mode. If not, press and hold the power button on the side of the plug for 5 seconds until it blinks rapidly.

3. Open the Energizer Connect App.

4. Tap the "+" icon (or "Add Device") to add a new device.

5. Select "Electrical Outlet" or "Smart Plug" from the device list.

6. Confirm that the indicator light is blinking rapidly in the app.

7. Enter your 2.4GHz Wi-Fi network name and password. Ensure your phone is connected to the same 2.4GHz network.

8. The app will attempt to connect to the smart plug. This may take a few moments.

9. Once successfully paired, the LED indicator on the plug will turn solid blue, and the app will confirm the connection.

10. You can then rename your smart plug within the app for easier identification (e.g., "Living Room Lamp," "Coffee Maker").

**Image 5.2:** A visual guide showing the three easy steps for setting up the Energizer Connect Smart WiFi Plug: download the app, install the device, and set up and control via the app or voice assistants. The image also features the Energizer bunny mascot.

## 6. OPERATING INSTRUCTIONS

Control your smart plug using the Energizer Connect App or compatible voice assistants.
### 6.1. Manual Control

Press the power button on the side of the smart plug to manually turn the connected device on or off.
### 6.2. App Control

- **On/Off:** Open the Energizer Connect App, select your smart plug, and tap the power icon to toggle its state.
- **Scheduling:** Set custom schedules for your plug to turn on or off automatically at specific times or days. This is useful for lights, coffee makers, or other appliances.
- **Timers:** Set countdown timers for the plug to turn off after a set duration.
- **Remote Access:** Control your smart plug from anywhere with an internet connection, even when you are away from home.
- **Grouping:** Group multiple Energizer Connect smart plugs together to control them simultaneously with a single command.

**Image 6.1:** A hand holding a smartphone displaying the Energizer Connect App's scheduling interface, set to turn on a coffee maker at a specific time. The smart plug is visible in the background, connected to the coffee machine.

**Image 6.2:** A person using a smartphone to remotely control a smart plug, demonstrating the ability to turn devices on or off from any location. The image shows a split view of the person and a living room with a lamp connected to a smart plug.

**Image 6.3:** An overhead diagram of a home showing multiple Energizer Connect Smart WiFi Plugs placed in different rooms, illustrating the concept of grouping and controlling several devices simultaneously.

## 6.3. Voice Control

The Energizer Connect Smart WiFi Plug is compatible with Amazon Alexa, Google Assistant, and Siri. To enable voice control:

1. Ensure your smart plug is successfully paired with the Energizer Connect App.
2. Open your Amazon Alexa, Google Home, or Apple Home app.
3. Follow the app's instructions to link the "Energizer Connect" skill or service. You will need to log in with your Energizer Connect account credentials.
4. Once linked, you can use voice commands such as:

   - "Alexa, turn on [Plug Name]."
   - "Hey Google, turn off [Plug Name]."
   - "Hey Siri, turn on [Plug Name]." (Requires setting up Siri Shortcuts in the Energizer Connect App)

**Image 6.4:** A living room scene demonstrating voice control capabilities. The image shows a smart plug connected to a fan, with icons for Google Assistant, Alexa, and Siri Shortcuts, indicating compatibility with these voice assistants.

## 7. MAINTENANCE

To ensure optimal performance and longevity of your smart plug:

- **Cleaning:** Disconnect the smart plug from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the smart plug in a cool, dry place away from direct sunlight and moisture.
- **Environmental Conditions:** Avoid exposing the plug to extreme temperatures or humidity.

## 8. TROUBLESHOOTING

If you encounter issues with your Energizer Connect Smart WiFi Plug, refer to the following solutions:

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|         |                |          |

| Problem | Possible Cause | Solution |
|---|---|---|
| Plug not connecting to Wi-Fi / LED blinking slowly | Incorrect Wi-Fi password, 5GHz network selected, plug too far from router, network interference. | • Ensure you are connecting to a 2.4GHz Wi-Fi network.<br>• Verify the Wi-Fi password.<br>• Move the smart plug closer to your Wi-Fi router.<br>• Restart your Wi-Fi router.<br>• Try resetting the plug to pairing mode (press and hold power button for 5 seconds). |
| App cannot find the plug during pairing | Plug not in pairing mode, incorrect app used, network issues. | • Ensure the plug's LED is blinking rapidly. If not, manually put it into pairing mode.<br>• Confirm you are using the **Energizer Connect App**. (Note: Some users have reported success with "Energizer Smart" app, but "Energizer Connect" is the official app mentioned).<br>• Check your phone's Wi-Fi connection. |
| Voice control not working | Voice assistant not linked, incorrect device name, internet connectivity issues. | • Ensure the "Energizer Connect" skill/service is linked in your Alexa, Google Home, or Apple Home app.<br>• Verify the device name used in voice commands matches the name in the Energizer Connect App.<br>• Check your internet connection. |
| Plug unresponsive | Power outage, device malfunction. | • Unplug the smart plug from the wall outlet, wait 10 seconds, and plug it back in.<br>• If the issue persists, perform a factory reset (consult manufacturer support for specific reset procedures if holding the button doesn't work). |

## 9. SPECIFICATIONS

| Feature | Detail |
|---|---|
| Model Number | B0929DFGZY |
| UPC | 805106871352 |
| Input Voltage | 120 Volts |
| Max Load Current | 15 Amps |
| Wi-Fi Frequency | 2.4GHz (IEEE 802.11 b/g/n) |
| Compatibility | Amazon Alexa, Google Assistant, Siri (via Shortcuts) |
| Certifications | FCC Certified, ETL Certified |
