## Mitcent MT1004

# Mitcent Bladeless Fan and Air Purifier Combo

MODEL: MT1004

User Manual

## 1. INTRODUCTION

---

Thank you for choosing the Mitcent Bladeless Fan and Air Purifier Combo. This innovative device is designed to provide both cooling airflow and purified air, enhancing your indoor environment. Featuring a HEPA filter, 8-speed settings, 3 operating modes, and remote control, it offers customizable comfort and improved air quality. Please read this manual thoroughly before use to ensure proper operation and maintenance.

## 2. SAFETY INSTRUCTIONS

---

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Always unplug the fan before cleaning or performing any maintenance.
- Do not operate the fan with a damaged cord or plug. If the cord or plug is damaged, contact qualified service personnel.
- Keep the power cord away from heated surfaces.
- Do not immerse the fan in water or other liquids.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not insert fingers or foreign objects into any openings on the fan.
- Use only as described in this manual.
- The bladeless design is safe for children and pets, but always ensure the unit is placed on a stable surface to prevent tipping.

## 3. PACKAGE CONTENTS

---

Verify that all items are included in your package:

- Mitcent Bladeless Fan and Air Purifier Combo Unit
- Remote Control
- HEPA Filter (pre-installed or separate)
- User Manual (this document)

Image: The main unit of the bladeless fan, its remote control, and a circular HEPA filter are shown together. The fan is black with a loop-shaped top, and the remote is compact. The filter is white and cylindrical.

## 4. SETUP

1. **Unpack the Unit:** Carefully remove all components from the packaging.
2. **Filter Installation:** Ensure the HEPA filter is correctly installed in the base of the unit. Refer to the diagram on the product for filter access.
3. **Placement:** Place the fan on a stable, flat surface. Ensure there is adequate space around the unit for optimal airflow.
4. **Power Connection:** Plug the power cord into a standard 120V AC electrical outlet.

Image: A detailed diagram highlighting various features of the bladeless fan, including the location of the HEPA filter at the base, the remote control, the oscillating base, and the LED touchscreen.

## 5. OPERATING INSTRUCTIONS

### Controls Overview

The fan can be operated using the LED touchscreen on the unit's base or the included remote control.

Image: The bladeless fan unit is shown with its LED display illuminated, indicating current settings. The remote control is also visible, emphasizing ease of use.

### Power On/Off

- Press the Power button on the unit's LED touchscreen or the remote control to turn the fan On or Off.

### Mode Selection

The fan features 3 operating modes:

- **Natural Mode:** Simulates a natural breeze with varying fan speeds.
- **Sleep Mode:** Operates at a lower, quieter speed (below 40dB) for undisturbed sleep. The LED display will dim or turn off automatically.

- **Strong Mode:** Provides maximum airflow for rapid cooling.

Press the Mode button on the remote or touchscreen to cycle through the modes.

Image: A graphic illustrating the three operating modes (Sleep, Natural, Strong) and the eight-speed settings of the fan, with a family enjoying the airflow in the background.

## Speed Adjustment

- The fan offers 8 speed settings. Use the '+' and '-' buttons on the remote or touchscreen to increase or decrease the fan speed.

## Oscillation

- Press the Oscillation button to activate or deactivate the 120° oscillation feature, distributing air across a wider area.

## Timer Function

- Set the fan to automatically turn off after a specified period (up to 8 hours) using the Timer button on the remote control.

## 6. MAINTENANCE

---

### Cleaning the Unit

- Always unplug the fan before cleaning.
- Wipe the exterior of the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- The bladeless design makes the unit easy to clean, as there are no grilles or blades to accumulate dust.

Image: A hand wearing a pink glove is shown wiping down the smooth surface of the bladeless fan with a blue cloth, demonstrating the ease of cleaning due to its design.

### HEPA Filter Replacement

The built-in HEPA filter is designed to capture dust, smoke, mold, and pollen. The filter should be replaced periodically depending on usage and air quality. Replacement filters (Core MT1006) can be purchased separately.

- Unplug the fan.
- Locate the filter compartment at the base of the unit.
- Twist or unlatch the cover to remove the old filter.
- Insert the new HEPA filter, ensuring it is seated correctly.
- Secure the filter compartment cover.

Image: A close-up view of a clean, cylindrical HEPA filter, ready for installation or replacement in the air purifier.

## 7. TROUBLESHOOTING

| Problem                           | Possible Cause                                       | Solution                                                                                                            |
|-----------------------------------|------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| Fan does not turn on.             | No power supply.                                     | Check if the power cord is securely plugged into the outlet. Ensure the outlet is functional.                       |
| Weak or no airflow.               | Blocked air intake/outlet; Dirty HEPA filter.        | Ensure air intake and outlet are not obstructed. Clean or replace the HEPA filter.                                  |
| Unusual noise during operation.   | Unit not on a stable surface; Internal obstruction.  | Place the fan on a firm, level surface. Unplug the unit and check for any foreign objects inside.                   |
| Remote control not working.       | Dead batteries; Obstruction between remote and unit. | Replace remote control batteries. Ensure no objects are blocking the signal path.                                   |
| Filter replacement not available. | Specific filter model out of stock or discontinued.  | Contact Mitcent customer support for assistance in finding compatible replacement filters or alternative solutions. |

## 8. SPECIFICATIONS

- **Brand:** Mitcent
- **Model Name:** Mitcent Air Purifier Fan
- **Item Model Number:** MT1004
- **Color:** Black Bladeless Fan
- **Size:** 26-Inch
- **Product Dimensions:** 10"D x 10"W x 26.2"H
- **Item Weight:** 7.04 pounds (3.2 Kilograms)
- **Power Source:** AC/DC
- **Voltage:** 120 Volts
- **Wattage:** 40 watts
- **Air Flow Capacity:** 655 Cubic Feet Per Minute
- **Noise Level:** 58 dB (max)
- **Special Features:** Remote Controlled, Air Purifying, Timer, Bladeless, Oscillating

- **Control Method:** Remote
- **Specification Met:** ETL Certified
- **UPC:** 817582016127
- **Date First Available:** April 27, 2021

## 9. WARRANTY AND SUPPORT

For warranty information, technical support, or to inquire about replacement parts (such as the HEPA filter Core MT1006), please contact Mitcent customer service directly. Refer to the product packaging or the official Mitcent website for the most current contact details.

Please retain your proof of purchase for any warranty claims.
