## Levoit Core 300S

# Levoit Core 300S Smart Air Purifier Instruction Manual

## 1. INTRODUCTION

---

The Levoit Core 300S is an advanced smart air purifier designed to enhance your indoor air quality. It features a high-precision dust sensor, real-time air quality display, and multiple operating modes including automatic, pollen, and sleep modes. With its compact design and powerful 4-layer filtration system, it effectively removes 99.97% of airborne particles as small as 0.1 microns, including pollen, dust, pet dander, and odors. The device can be controlled via the VeSync app and is compatible with voice assistants like Amazon Alexa and Google Assistant.

## 2. SETUP

---

### 2.1 Unpacking and Initial Placement

Carefully remove the air purifier from its packaging. Ensure all packing materials are removed. Place the unit on a flat, stable surface. The 4-layer 360° genuine filter comes pre-installed. The compact body allows placement on floors or tabletops.

## 2.2 Power Connection

Connect the power cord to the air purifier and then plug it into a standard electrical outlet. The power cord length is 1.83m.

## 3.2 Operating Modes

- **Automatic Mode:** The air purifier's high-precision dust sensor detects air quality in real-time and automatically adjusts the fan speed to maintain clean air. This mode is ideal for continuous, hands-free operation.
- **Pollen Mode:** Designed for allergy sufferers, this mode automatically switches between low and high fan speeds every 20 minutes to effectively capture airborne pollen and other allergens for rapid purification.
- **Sleep Mode:** For quiet operation, sleep mode utilizes patented silent technology, operating at a mere 22dB. The display lights can also be turned off to ensure an undisturbed sleep environment.

### 3.3 Smart Control with VeSync App

The VeSync app provides comprehensive control over your air purifier, including:

- Remote control of power and modes.
- Setting schedules and timers for automatic operation.
- Monitoring PM2.5 concentration and air quality history.
- Activating child lock.
- Turning the display lights on/off.

## 4. MAINTENANCE

### 4.1 Filter System

The Levoit Core 300S uses a 4-layer filtration system:

1. **Pre-filter:** Captures large particles like dust, hair, and pet fur.
2. **H13 Electrostatic HEPA Filter:** Traps pollen, house dust, PM2.5, dust mites, and bacteria.

3. **Sterilization Coating:** Provides double sterilization.

4. **Activated Carbon Filter:** Effectively removes odors from tobacco smoke, pets, cooking, and mold.

## 4.3 Pre-filter Cleaning

The pre-filter should be cleaned lightly about once a month to maintain optimal performance. Refer to the detailed instructions in the full user manual for proper cleaning procedures.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your Levoit Core 300S, please refer to the following common troubleshooting tips:

- **Device not turning on:** Ensure the power cord is securely plugged into both the air purifier and the wall outlet. Check if the outlet is functioning correctly.
- **App connection issues:** Verify that your smartphone's Bluetooth is on and that you are connected to a 2.4GHz Wi-Fi network. Keep your smartphone close to the router during the pairing process. If connection is lost, try re-pairing the device.
- **Air quality sensor not responding:** Ensure the sensor intake is not blocked by dust or debris. Clean the sensor area if necessary. If the issue persists, contact customer support.
- **Unusual noise:** Check if the filter is correctly installed. Ensure no foreign objects are obstructing the fan.
- **Odor not being removed:** Confirm that the filter is not expired and is correctly installed. Consider replacing the filter if it's old or heavily used.

For more detailed troubleshooting steps, please consult the comprehensive user manual or contact customer support.
