3. SETUP

3.1 Charging the Microphone

Before initial use, fully charge the microphone to ensure optimal battery life.

1. Connect the small end of the provided USB charging cable to the Charging/Recording Port on the microphone.
2. Connect the larger end of the USB cable to a compatible USB power source (e.g., computer USB port, wall adapter with DC 5V output and current less than 2A).
3. A red indicator light will typically illuminate during charging. The light will turn off or change color once charging is complete.

WIDELY COMPATIBLE BLUETOOTH MICROPHONE

Compatible with many Apps: Mobile phones, laptops, and other Bluetooth devices.

Via Wireless Bluetooth

Via Audio cable

3.2 Powering On/Off

To power on the microphone, press and hold the **ON/OFF Button** for a few seconds until you hear an audio prompt or see an indicator light. To power off, press and hold the same button again.

4. OPERATING INSTRUCTIONS

4.1 Bluetooth Connection

The microphone can connect wirelessly to your smart devices via Bluetooth.

1. Ensure the microphone is powered on and in Bluetooth pairing mode. An audio prompt or flashing indicator light will confirm this.
2. On your smartphone, tablet, or PC, enable Bluetooth and search for available devices.
3. Select "BK01" (or a similar name) from the list of found devices to initiate pairing.
4. A confirmation sound will indicate successful pairing. You can now play music from your device through the microphone's speaker and sing along.

4.2 Wired Audio Connection

For devices without Bluetooth capability, you can connect the microphone using a 3.5mm audio cable (not included) to the Audio Output Port/Headphone Connector.

4.3 Sound Effects Modes

The microphone offers five distinct sound modes to enhance your singing experience:

- **Original Sound:** Your natural voice.
- **Child Voice:** Modifies your voice to sound higher pitched.
- **Female Voice:** Adjusts your voice to a feminine tone.
- **Male Voice:** Adjusts your voice to a masculine tone.
- **Elderly Voice:** Modifies your voice to sound deeper and older.

Press the **REMIX** button repeatedly to cycle through these sound effects.

4.4 Music Playback and Volume Control

- Use the **PREV** and **NEXT** buttons to skip between music tracks.
- Adjust the music playback volume using the **VOL+** and **VOL-** buttons.
- Adjust your microphone input volume using the **MIC VOL** buttons.
- The **REMIX** button also controls the echo/reverb effect level.

4.5 Recording Function

To record your singing performances:

1. Insert a TF (microSD) card (not included) into the TF Card Slot.
2. Ensure the microphone is connected to your music source (via Bluetooth or audio cable).
3. Press the **REC** button to start recording.
4. Press the **REC** button again to stop recording. Recordings will be saved to the TF card.

4.6 Using as a Bluetooth Speaker

The Wowstar BK01 can also function as a standalone Bluetooth speaker. Simply connect your device via Bluetooth as described in section 4.1 and play your desired audio.

5. MAINTENANCE

- Keep the microphone dry and away from moisture, rain, or liquids.
- Avoid exposing the device to extreme temperatures (hot or cold).
- Clean the microphone with a soft, dry cloth. Do not use harsh chemicals, cleaning solvents, or strong detergents.
- Store the microphone in a cool, dry place when not in use.
- Do not attempt to disassemble or modify the device, as this will void the warranty and may cause damage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Microphone does not power on.	Low battery or no charge.	Charge the microphone fully using the provided USB cable. Ensure the power button is pressed and held for a few seconds.
Cannot connect via Bluetooth.	Bluetooth is off on one device, devices are out of range, or already connected to another device.	Ensure Bluetooth is enabled on both the microphone and your smart device. Keep devices within 10 meters. Disconnect from other Bluetooth devices. Restart both devices and try pairing again.
No sound from the speaker.	Volume too low, device not properly connected, or music paused.	Check volume levels on both the microphone and the connected device. Ensure the microphone is properly paired via Bluetooth or connected via audio cable. Press Play/Pause.
Poor sound quality or feedback.	Microphone too close to speaker, interference, or low battery.	Increase distance between microphone and speaker. Check for obstructions. Ensure microphone is fully charged.
Recording not working.	No TF card inserted, or TF card is full/corrupted.	Insert a compatible TF card. Ensure the TF card has sufficient free space and is not corrupted.
