Maintenance

To ensure the longevity and appearance of your ODK Small Desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Weight Distribution:** Distribute weight evenly across the desktop and shelves. Do not exceed the maximum weight recommendations (88 pounds total, 11 pounds for monitor shelf, 66 pounds for main desktop).

Troubleshooting and Safety Guidelines

Adhering to proper usage and assembly practices can prevent common issues and ensure safety.

Common Issues and Prevention:

- **Stability Issues:** Ensure all assembly hardware is securely tightened. If the desk wobbles, re-check all connections.
- **Damage During Assembly:** Avoid using power tools for assembly unless explicitly instructed, as overtightening can strip screws or damage components.
- **Overloading:** Do not exceed the maximum weight capacity of 88 pounds for the entire desk. Overloading can compromise structural integrity.

Safety Precautions:

- **Anchoring:** If the desk is placed in an area where tipping is a concern, consider anchoring it to the wall using appropriate hardware (not included).
- **Monitor Placement:** Ensure monitors are placed securely on the monitor stand and are not at risk of falling. Adjust their position carefully.
- **Children and Pets:** Keep small children and pets away from the desk during assembly to prevent injury from small parts.
