

JIELI B092J5BXF2

JIELI Wireless Keypad for Automatic Gate Opener Instruction Manual

Model: B092J5BXF2

INTRODUCTION

Thank you for choosing the JIELI Wireless Keypad for your automatic gate opener. This keypad provides a secure and convenient way to control access to your property. This manual contains important information regarding the installation, operation, and maintenance of your new keypad. Please read it thoroughly before use and retain it for future reference.

Important Note: This wireless keypad is designed for compatibility exclusively with JIELI gate openers. Compatibility with other brands or models of gate openers cannot be guaranteed.

SAFETY INFORMATION

- Always ensure the gate area is clear of people, pets, and obstructions before operating the gate.
- Do not allow children to play with or operate the gate opener or keypad.
- Keep the keypad away from water and extreme temperatures to prevent damage.
- Only use the specified battery type (2 CR123A batteries).
- If the keypad is damaged, discontinue use immediately and contact support.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- 1 x JIELI Wireless Keypad
- 2 x CR123A Batteries (pre-installed or separate)
- Mounting Hardware (screws, anchors)

- Instruction Manual (this document)

PRODUCT OVERVIEW

The JIELI Wireless Keypad features a robust design for outdoor use. It includes a numeric keypad (0-9) and two special function buttons, 'A' and 'B', for gate operation and programming.

Figure 1: JIELI Wireless Keypad Front View. This image displays the JIELI Wireless Keypad. It features a dark gray, oval-shaped casing with twelve rectangular buttons arranged in a 4x3 grid. The buttons are labeled 1 through 9, followed by 'A', '0', and 'B'. The keypad is designed for outdoor use with automatic gate openers.

- **Numeric Buttons (0-9):** Used for entering access codes.
- **Button 'A':** Typically used for programming or specific gate functions.
- **Button 'B':** Typically used for programming or specific gate functions.
- **LED Indicator:** Illuminates when a key is pressed, aiding with night operation.

SETUP AND INSTALLATION

1. Battery Installation (if not pre-installed)

1. Locate the battery compartment cover on the back of the keypad.
2. Remove the cover using a small screwdriver.
3. Insert two CR123A batteries, ensuring correct polarity (+/-).
4. Replace the battery compartment cover securely.

2. Mounting the Keypad

1. Choose a suitable location for the keypad, ensuring it is within the transmission range of your JIELI gate opener (up to 130 feet in open space, 82 feet indoors).
2. Mark the desired mounting points on the surface using the keypad as a template.
3. Drill pilot holes if necessary.
4. Secure the keypad to the surface using the provided mounting hardware.

OPERATING INSTRUCTIONS

1. Pairing the Keypad with Your JIELI Gate Opener

Refer to your specific JIELI gate opener manual for detailed pairing instructions. Generally, the process involves:

1. Activating the learning mode on your JIELI gate opener receiver.
2. Pressing a specific button sequence on the wireless keypad (e.g., 'A' then 'B', or a combination with a numeric code).
3. Confirming successful pairing via an indicator light or sound from the gate opener.

Note: Some users have reported that pairing may require multiple attempts. Ensure you are within range during the pairing process.

2. Setting an Access Code

After successful pairing, you can set a personal access code. The exact procedure may vary slightly depending on your gate opener model. A common method is:

1. Press and hold the 'A' button until the LED indicator on the keypad flashes.
2. Enter your desired 4-6 digit access code.
3. Press the 'A' button again to confirm.
4. Test the new code to ensure it functions correctly.

It is recommended to use a unique and memorable code. Avoid simple sequences like "1234".

3. Operating the Gate

To open or close your gate using the keypad:

1. Enter your programmed access code.
2. Press the 'A' or 'B' button (depending on your gate opener's configuration for open/close).
3. The gate should begin to open or close.

The LED on the keypad will illuminate when a key is pressed, aiding visibility in low light conditions.

MAINTENANCE

Battery Replacement

The keypad uses two CR123A batteries, which typically last about one year with average use (10 operations per day). When the LED indicator becomes dim or the keypad responsiveness decreases, it's time to replace the batteries.

1. Remove the battery compartment cover on the back of the keypad.
2. Carefully remove the old batteries.
3. Insert two new CR123A batteries, observing correct polarity.
4. Replace the battery compartment cover.
5. Test the keypad to ensure proper function.

Cleaning

Wipe the keypad surface with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish or internal components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Keypad not responding / Gate not opening	Low or dead batteries Keypad not paired Out of range Incorrect access code	Replace batteries Re-pair the keypad with the gate opener (refer to gate opener manual) Move closer to the gate opener Verify the access code and re-enter
Difficulty pairing	Interference Incorrect procedure Keypad too far from receiver	Ensure no other wireless devices are interfering Review pairing steps in both keypad and gate opener manuals Perform pairing within close proximity to the gate opener receiver
LED indicator is dim or not lighting up	Low batteries	Replace batteries
Gate opens/closes unexpectedly	Interference Faulty keypad	Check for sources of interference Contact JIELI customer support for assistance

SPECIFICATIONS

- **Model:** B092J5BXF2
- **Brand:** JIELI
- **Power Source:** 2 x CR123A Lithium Manganese Dioxide Batteries (included)
- **Estimated Battery Life:** Approximately 1 year (based on 10 operations/day)
- **Transmission Range (Open Space):** Up to 130 feet
- **Transmission Range (Indoors):** Up to 82 feet
- **Item Weight:** 3.2 ounces

- **Package Dimensions:** 4.76 x 3.31 x 1.26 inches
- **Compatibility:** Exclusively with JIELI gate openers
