Ariete 583

Ariete Vintage 583 Glass Blender User Manual

Model: 583 | Brand: Ariete

1. Introduction

Thank you for choosing the Ariete Vintage 583 Glass Blender. This multifunctional blender is designed to help you prepare a variety of beverages and dishes, from energizing smoothies and creamy milkshakes to refreshing granitas and pureed soups. Its robust 1000W motor, durable glass jug, and four stainless steel blades ensure efficient and consistent blending results. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new appliance.

Please read these instructions carefully before first use and keep them for future reference.

2. Important Safety Instructions

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions.
- Do not immerse the motor base in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter or touch hot surfaces.
- Keep hands and utensils out of container while blending to prevent the possibility of severe injury to persons or damage to the blender. A scraper may be used but must be used only when the blender is not running.
- Blades are sharp. Handle carefully.

- Always operate blender with lid in place.
- Do not blend hot liquids.
- Do not use the appliance for other than intended use.

3. Product Overview

The Ariete Vintage 583 Glass Blender features a classic design combined with modern functionality. Key components include:

- **Motor Base:** The main unit housing the 1000W motor and control dial.
- **Glass Jug:** A durable 1.5-liter capacity glass container for blending.
- **Blade Assembly:** Four sharp stainless steel blades for efficient blending and ice crushing.
- **Lid with Measuring Cap:** Secure lid with a removable cap for adding ingredients during operation.
- **Control Dial:** Allows selection of 4 speeds and a pulse function.

4. Setup and First Use

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Initial Cleaning:** Before first use, wash the glass jug, lid, and measuring cap in warm, soapy water. Rinse thoroughly and dry. Wipe the motor base with a damp cloth. Do not immerse the motor base in water.
3. **Assembly:**
    - Place the blade assembly securely onto the bottom of the glass jug.
    - Place the glass jug onto the motor base, ensuring it is seated firmly and locked into position.
    - Place the lid onto the glass jug and insert the measuring cap into the lid opening.
4. **Power Connection:** Ensure the control dial is in the "OFF" (0) position before plugging the blender into a suitable electrical outlet (220V).

5. Operating Instructions

The Ariete Vintage 583 Blender offers versatile blending options for various ingredients.

5.1 General Blending

1. Ensure the blender is assembled correctly and plugged in.
2. Add ingredients to the glass jug. For best results, add liquids first, then soft ingredients, followed by harder ingredients and ice. Do not exceed the maximum fill line (1.5 Liters).

3. Secure the lid and measuring cap.
4. Turn the control dial to the desired speed setting (1-4). Start with a lower speed and gradually increase if needed.
5. Blend until desired consistency is achieved.
6. Once blending is complete, turn the control dial back to the "OFF" (0) position and unplug the appliance.

5.2 Pulse Function

The pulse function (P) provides short bursts of power at maximum speed, ideal for chopping, dicing, or quickly breaking down ingredients. It is also useful for controlling consistency or for cleaning.

- Turn the control dial to the "P" (Pulse) position and hold it.
- Release the dial to stop. Repeat as necessary.

Figure 5.2: The blender effectively processes ingredients for smooth beverages and crushed ice.

5.3 Ice Crushing

The powerful motor and robust blades are designed to crush ice effectively for granitas, cocktails, or chilled beverages.

- Add ice cubes to the glass jug. Do not overfill.
- Use the "P" (Pulse) function for short bursts until the ice is crushed to your desired consistency.
- Alternatively, you can use speed setting 4 for continuous ice crushing.

Figure 5.3: The blender is capable of crushing ice for various cold preparations.

5.4 Blending Soups and Purees

The blender is suitable for making smooth soups and purees. Ensure ingredients are cooled before blending to avoid pressure buildup.

Figure 5.4: The blender can be used to prepare smooth soups and purees from cooked vegetables.

6. Maintenance and Cleaning

Proper cleaning and maintenance will ensure the longevity and optimal performance of your blender.

1. **Always unplug** the blender from the power outlet before cleaning.
2. **Glass Jug and Lid:**
    - Remove the glass jug from the motor base.
    - Disassemble the lid and measuring cap.
    - Wash the glass jug, lid, and measuring cap with warm, soapy water. A bottle brush may be helpful for cleaning the inside of the jug.
    - Rinse thoroughly and dry immediately.
    - For quick cleaning, add a small amount of warm water and a drop of dish soap to the jug, secure the lid, and run the blender on speed 1 or pulse for a few seconds. Rinse thoroughly.
3. **Blade Assembly:** Handle with extreme care as blades are sharp. Clean the blade assembly under running water using a brush if necessary.
4. **Motor Base:** Wipe the motor base with a soft, damp cloth. Do not use abrasive cleaners or immerse the motor base in water.
5. **Storage:** Store the assembled blender in a dry place, away from direct sunlight and out of reach of children.

7. Troubleshooting

If you encounter issues with your blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; power outlet not working; jug not correctly seated; thermal overload.	Check power cord and outlet; ensure jug is securely locked onto the base; unplug and let cool for 15-20 minutes if motor overheated.
Ingredients are not blending smoothly.	Too little liquid; too many ingredients; ingredients are too large or hard.	Add more liquid; reduce ingredient quantity; cut ingredients into smaller pieces; use pulse function to break down large pieces.
Motor smells or smokes.	Overloading; prolonged use.	Immediately turn off and unplug. Reduce load. Allow motor to cool completely before resuming use. If smoke persists, discontinue use and contact support.
Loud noise during operation.	Jug not seated properly; hard ingredients; foreign object.	Ensure jug is securely locked; reduce hard ingredients; check for any foreign objects before blending.

If the problem persists after trying these solutions, please contact Ariete customer support.

8. Specifications

Brand:	Ariete
Model Number:	583
Power:	1000 Watts
Voltage:	220 Volts
Capacity:	1.5 Liters
Material:	Glass (Jug), Plastic (Base)
Number of Speeds:	4 + Pulse
Dimensions (L x W x H):	18.5 x 21.5 x 40.5 cm
Weight:	3.75 Kilograms

9. Warranty and Support

Ariete products are manufactured to the highest quality standards. For information regarding warranty coverage, please refer to the warranty card included with your product or visit the official Ariete website. Keep your proof of purchase for warranty claims.
