Operating Instructions

Follow these steps to operate your Ariete Vintage 583 Glass Mixer:

2. **Add Ingredients:** Place your prepared ingredients into the glass jar.
3. **Secure Lid:** Place the lid firmly onto the glass jar. Ensure the dosing cap is inserted into the lid opening.
4. **Select Speed:** Turn the control knob to your desired speed setting (1-4). Start with a lower speed and gradually increase if needed.

7. **Adding Ingredients During Blending:** You can add ingredients through the dosing cap opening in the lid while the blender is operating.
8. **Stop Operation:** Once blending is complete, turn the control knob back to the '0' (off) position. Wait for the blades to stop completely before removing the lid or jar.

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; power outlet not working; jar not correctly seated on base; control knob not at '0' before starting.	Check power cord connection; test outlet with another appliance; ensure jar is securely locked onto the motor base; turn knob to '0' then select speed.
Ingredients not blending smoothly.	Too little liquid; too many ingredients; ingredients too large; blades stuck.	Add more liquid; reduce quantity of ingredients; cut ingredients into smaller pieces; turn off, unplug, and dislodge any stuck food.
Loud noise or vibration during operation.	Jar not properly seated; hard ingredients; unstable surface.	Ensure jar is securely placed on the base; reduce amount of hard ingredients; place blender on a flat, stable surface.
