4. Maintenance

4.1 Cleaning the Television

- Disconnect the TV from the power outlet before cleaning.
- Use a soft, dry cloth to wipe the screen and TV body.
- For stubborn marks, lightly dampen the cloth with water. Avoid using harsh chemicals or abrasive cleaners.

4.2 Software Updates

The Fire TV OS regularly receives software security updates and feature enhancements. Ensure your TV is connected to the internet to receive these updates automatically. For more information, visit the 'Manage Your Content and Devices' section on the Amazon website.

5. Troubleshooting

If you encounter issues with your Fire TV, consider the following general troubleshooting steps:

- **No Power:** Ensure the power cord is securely connected to both the TV and a working power outlet.
- **No Picture/Sound:** Verify that all HDMI and audio cables are correctly connected. Check the input source on the TV.
- **Remote Not Responding:** Replace the AAA batteries in the remote. Ensure there are no obstructions between the remote and the TV.
- **Network Connectivity Issues:** Check your Wi-Fi router and internet connection. If using Ethernet, ensure the cable is properly connected.
- **Software Glitches:** Restart the TV by unplugging it from the power outlet for 30 seconds and then plugging it back in.

For persistent issues or specific error messages, refer to the online support resources or contact Amazon customer support.
