PRODUCT OVERVIEW

Image: The EarFun Free 2 Wireless Earbuds are shown inside their open charging case. The case is black with a matte finish. One earbud is partially visible in its charging slot, while the other is shown removed from the case, positioned above it. Both earbuds are black with the "earfun" logo visible on their outer surface. A blue indicator light is visible on the earbud outside the case, and another on the earbud inside the case, indicating power or charging status.

The EarFun Free 2 consists of two wireless earbuds and a portable charging case. Each earbud features a touch control area, microphone, and charging contacts. The charging case has a USB-C port for charging and LED indicators for battery status.

SETUP

1. Initial Charge

Before first use, fully charge both the earbuds and the charging case. Place the earbuds into the charging case and connect the USB-C cable to the charging port on the case and a power source. The LED indicators on the case will show charging status.

2. Pairing with Your Device

1. Ensure the earbuds are fully charged.
2. Open the charging case. The earbuds will automatically enter pairing mode (indicated by a flashing blue light on the earbuds).
3. On your device (smartphone, tablet, etc.), enable Bluetooth.
4. Search for "EarFun Free 2" in the list of available Bluetooth devices and select it to connect.
5. Once connected, a voice prompt will confirm successful pairing.

Note: If pairing fails, place the earbuds back into the case, close the lid, then open it again and repeat the steps.

3. Wearing the Earbuds

Choose the ear tips that provide the best seal and comfort for your ears. Gently insert the earbuds into your ear canal and twist them slightly to secure a snug fit. A proper fit is crucial for optimal sound quality and noise isolation.
