## YOUkei ID206 Band

# YOUkei ID206 Quick Release Stainless Steel Metal Replacement Smartwatch Band Instruction Manual

Model: ID206 Band

Brand: YOUkei

## 1. INTRODUCTION

---

This manual provides comprehensive instructions for the installation, adjustment, and maintenance of your YOUkei ID206 Quick Release Stainless Steel Metal Replacement Smartwatch Band. Please read this manual carefully to ensure proper use and care of your new band.

## 2. PRODUCT OVERVIEW

---

The YOUkei ID206 replacement band is crafted from high-quality stainless steel, designed for durability and a refined appearance. It features a quick-release mechanism for easy attachment and removal, and a secure double-button folding clasp for reliable wear.

### 3. COMPATIBILITY

---

This replacement band is specifically designed for the following smartwatch models:

- LETSCOM ID206 1.69" Smartwatch
- AGPTEK IP68 LW11 Smartwatch

Ensure your smartwatch model matches one of the listed compatible devices for proper fit and function.

## Compatible Models

**LETSCOM ID206**

**AGPTEK LW11**

### 4. SETUP AND INSTALLATION

Follow these steps to attach your new YOUkei ID206 band to your compatible smartwatch:

1. Locate the quick-release pins on each end of the band.
2. Insert one end of the quick-release pin into the lug hole of your smartwatch.
3. Slide the quick-release lever to retract the pin, then align the other end of the pin with the opposite lug hole.
4. Release the lever, ensuring both ends of the pin are securely seated in the lug holes. Gently tug on the band to confirm it is locked in place.
5. Repeat the process for the other half of the band.

# Link Removal Tool Instructions

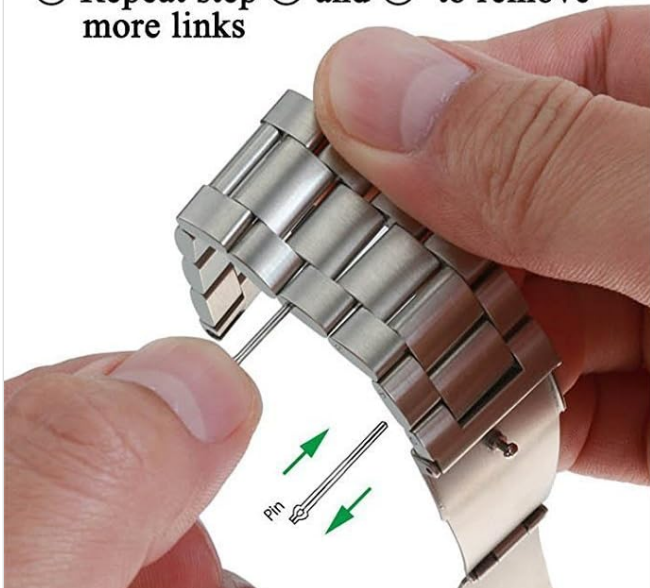

① Push from the side of the depression

② Screwed out the pin gradually

③ Repeat step ① and ② to remove more links

④ Slowly screw the pin until it goes in to the band completely

## 5. BAND ADJUSTMENT (LINK REMOVAL)

The band can be adjusted to fit wrist sizes from 5.71" to 8.19" (145mm-208mm). A link removal tool is included to help you adjust the band length. Follow these instructions carefully:

Image: The band, quick-release pins, and the link removal tool.

#### **Instructions for Link Removal:**

1. Place the band in the link removal tool with the arrow on the band pointing downwards (if present on your specific band links).
2. Align the tool's pin with the pin on the band link you wish to remove.
3. Slowly turn the screw handle of the tool to push the pin out of the link.
4. Once the pin is partially out, you can pull it completely with pliers or your fingers.
5. Remove the desired number of links.
6. To reassemble, align the links and insert the pin back into the holes, ensuring the arrow on the link points in the direction of insertion (opposite to removal).
7. Use the tool to gently push the pin back into place until it is flush with the band.

*Note: A visual guide for link removal is typically provided with the tool. Please refer to any included diagrams for precise pin direction.*

# AVAILABLE LENGTH

Fit 145-265mm(5.70"-10.43") wrist with adjustable magnetic clasp

## 6. MAINTENANCE

To ensure the longevity and appearance of your stainless steel band, follow these maintenance guidelines:

- **Cleaning:** Wipe the band regularly with a soft, damp cloth to remove dirt, sweat, and oils. For deeper cleaning, use a mild soap solution and a soft brush, then rinse thoroughly with clean water and dry immediately with a soft cloth.
- **Avoid Chemicals:** Do not expose the band to harsh chemicals, solvents, or strong detergents, as these can damage the finish.
- **Storage:** When not in use, store the band in a clean, dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check the quick-release pins and clasp for any signs of wear or damage.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your YOUkei ID206 band, please refer to the following common solutions:

- **Band does not fit:** Refer to Section 5, "Band Adjustment," to ensure the correct number of links are installed for your wrist size.
- **Band feels loose or too tight:** Adjust the links as described in Section 5.
- **Quick-release pin not securing:** Ensure the pin is fully retracted and aligned with both lug holes before releasing. Gently wiggle the band to confirm it's locked. If the pin appears bent or damaged, contact support for a replacement.
- **Clasp not closing securely:** Check for any debris or damage within the clasp mechanism. Clean if necessary. If damage is present, contact support.

If the problem persists, please contact YOUkei customer support for assistance.
