## SETUP AND ASSEMBLY

---

The Anncus Multi-function Desktop Storage Box requires minimal assembly. Follow these steps to prepare your organizer for use:

1. **Unboxing:** Carefully remove all components from the packaging. You should find the main storage box, two bamboo partition pieces, and the bamboo side tray.
2. **Insert Partitions:** The main compartment of the storage box is designed to accommodate two interlocking bamboo partitions. Gently slide the first bamboo piece into the designated slots within the main box. Then, interlock the second bamboo piece into the first one, forming a cross-shape that creates four distinct compartments. These partitions are detachable, allowing for flexible storage configurations.
3. **Place Side Tray:** Position the bamboo side tray onto the designated ledge on the front side of the main storage box. Ensure it sits securely. This tray features various slots for pens, remote controls, or other small accessories.
4. **Placement:** Place the assembled storage box on your desired surface, such as a desk, coffee table, or vanity.
