TROUBLESHOOTING

If you encounter any issues with your SereneLife Egg Chair, refer to the following common solutions:

- **Chair feels unstable:** Ensure all screws and bolts used during assembly are tightened securely. Verify the chair is placed on a flat, level surface.
- **Missing parts or hardware:** Double-check the packaging. If parts are genuinely missing, contact SereneLife customer support for replacements.
- **Squeaking noise during use:** Apply a small amount of lubricant (e.g., silicone spray) to the hanging spring and chain connections.
