4. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the remote control. Avoid using liquid cleaners or abrasive materials, as these can damage the surface or internal components.
- **Battery Replacement:** Replace batteries when the remote's response becomes sluggish or stops working. Always replace both batteries at the same time with new ones of the same type.
- **Storage:** If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage. Store in a cool, dry place.

5. Troubleshooting

- **Remote Not Responding:**
  - Ensure batteries are correctly installed with the correct polarity.
  - Replace old batteries with new ones.
  - Check for any obstructions between the remote control and the TV's infrared receiver.
  - Confirm the remote is pointed directly at the TV.
- **Intermittent Connectivity:**

  Some users have reported that the remote may experience brief, intermittent disconnections during initial use, which typically resolve themselves within a few seconds. If this persists, try replacing the batteries.
- **Limited Range:**

  The remote control has a maximum effective range of approximately 10 meters (33 feet). Ensure you are within this range and that there are no significant obstacles.
