Belkin BoostCharge Portable Power Bank 10K Instruction Manual

Model: BPB011 | Brand: Belkin

Charge smartphones, tablets, and other PD-enabled devices quickly and safely with our USB-C Portable Charger Power Bank 10K.

Official product overview video from Belkin Inc.

1. SETUP

1.1 Package Contents

- 1 x Belkin 10K Power Bank
- 1 x USB-A to USB-C Cable (6 inches)

1.2 Initial Charge

Your BoostCharge Portable Power Bank comes pre-charged and ready for immediate use. However, for optimal performance and to ensure a full charge, it is recommended to fully charge the power bank before its first extensive use.

To charge the power bank, connect the included USB-A to USB-C cable to the USB-C port on the power bank and plug the USB-A end into a compatible USB wall charger (not included). The LED indicator lights on the side of the power bank will illuminate to show the charging progress. All four lights will be solid when fully charged.

2. OPERATING INSTRUCTIONS

2.1 Checking Battery Level

Press the power button on the side of the power bank to check the current battery level. The LED indicator lights will illuminate:

- One light: 0-25% charge remaining
- Two lights: 25-50% charge remaining
- Three lights: 50-75% charge remaining
- Four lights: 75-100% charge remaining

Universally compatible.

Charge your newest devices as well as your old favorites with USB-C and USB-A ports.

2.2 Charging Your Devices

The Belkin BoostCharge Portable Power Bank 10K features one USB-C port and two USB-A ports, allowing you to charge up to three devices simultaneously with a total shared output of 15W.

- **Using USB-C Port:** Connect your USB-C enabled device (e.g., iPhone 15, Samsung Galaxy S25, Google Pixel) to the power bank's USB-C port using a compatible USB-C to USB-C cable (not included) or the provided USB-A to USB-C cable if your device supports it. This port supports up to 15W input/output.
- **Using USB-A Ports:** Connect your device to either of the two USB-A ports using a compatible USB-A charging

cable. These ports provide up to 12W output.

The power bank will automatically begin charging your connected devices. Overcharge protection is built-in to ensure a safe and powerful charge every time.

2.3 Air Travel Compliance

This power bank is air travel compliant with TSA airline safety standards, making it suitable for carry-on luggage. Its 10,000 mAh capacity (37 Wh) falls within the 100 Wh-limit for carry-on requirements.

Carry-On Safe

Our power bank features 37 Wh (watt hours) to be fully compliant with 100 Wh-limit TSA carry-on requirements.

3. MAINTENANCE

3.1 Cleaning and Storage

- Wipe the power bank with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

- Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- If storing for extended periods, ensure the power bank has at least a 50% charge to preserve battery health.

3.2 Safety Features

The Belkin BoostCharge Portable Power Bank is designed with rigorous testing standards and built-in safety mechanisms, including overcharge protection, to ensure the safety of your devices and the power bank itself.

Power that lasts.

Additional

40+

Hours

of video
playback[§]

[§] Contains a 10,000 mAh internal battery. Amount of discharge to user's device is less and may vary depending on various conditions. Maximum additional video playback hours calculated by comparing the capacity of the internal battery of this power bank with the maximum video playback hours achievable by the iPhone 15 Pro under normal conditions. Actual results will vary depending on conditions and use.

4. TROUBLESHOOTING

4.1 Device Not Charging

- Ensure the power bank is sufficiently charged (check LED indicator lights).
- Verify that the charging cable is securely connected to both the power bank and your device.
- Try using a different charging cable or a different port on the power bank.
- Confirm your device is compatible with the power bank's output (USB-C or USB-A).

4.2 Power Bank Not Recharging

- Ensure the charging cable is securely connected to the power bank's USB-C input port and the wall adapter.
- Try a different wall adapter or power outlet.
- Verify the charging cable is not damaged.

5. SPECIFICATIONS

Brand	Belkin
Model Number	BPB011
Battery Capacity	10,000 mAh
USB-C Input/Output	15W (5V3A) max
USB-A Output	12W (5V2.4A) max (2 ports)
Total Shared Output	15W (5V3A)
Product Dimensions	5.19 x 2.69 x 0.62 inches
Item Weight	7.4 ounces
