SETUP AND ASSEMBLY

Assembly of the Vicco R-Line kitchen unit requires careful attention to detail. It is recommended that two people perform the assembly. Please refer to the included assembly instructions for step-by-step guidance specific to each module.

1. Planning and Measurement

Before assembly, carefully measure your kitchen space to ensure the unit fits correctly. Refer to the dimension diagram for detailed measurements of each module.

2. Component Identification

Unpack all boxes and identify each component using the provided parts list in the assembly instructions. Group similar parts together to streamline the process.

3. Module Assembly

Follow the specific assembly instructions for each cabinet module. Ensure all screws and connectors are tightened securely. The units are constructed from 16 mm thick wooden boards with a melamine resin coating.

4. Leveling and Installation

Once assembled, position the kitchen units. Utilize the height-adjustable feet to level the cabinets, ensuring stability on any floor surface. Wall-mounted units should be securely fastened to a sturdy wall structure using appropriate hardware (not always included).

OPERATING AND CUSTOMIZATION

The Vicco R-Line kitchen unit is designed for flexible use and customization. Its modular nature allows you to arrange and expand the units according to your specific needs and preferences.

- **Modular Design:** The system comprises various cabinet types, including base units, wall units, and a dedicated microwave conversion cabinet. These can be combined in numerous ways to create your ideal kitchen layout.
- **Adjustable Features:** Shelves within the cabinets can be adjusted to accommodate items of different heights. The height-adjustable feet allow for precise leveling and alignment of the base units.
- **Expansion:** Additional R-Line modules can be purchased separately to expand your kitchen unit as needed.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your Vicco R-Line kitchen unit, follow these simple care instructions:

- **Cleaning:** Wipe surfaces with a dry, soft cloth. For stubborn marks, a slightly damp cloth with mild soap can be used, followed immediately by drying with a clean, dry cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the high-gloss melamine resin coating.
- **Spills:** Clean up spills immediately to prevent staining or damage to the material.
- **Heat Protection:** Always use heat-resistant mats or trivets under hot pots and pans to protect surfaces.
- **Inspection:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

This section addresses common issues you might encounter with your kitchen unit. For problems not listed here, please contact customer support.

- **Unit is wobbly:** Check that the adjustable feet are properly extended and making firm contact with the floor. Adjust each foot individually until the unit is stable and level. Ensure all connecting hardware between modules is secure.
- **Doors or drawers do not close properly:** Check hinges and drawer slides for proper alignment. Adjust hinges as needed to ensure doors close flush. Ensure no obstructions are preventing full closure.
- **Scratches or surface damage:** Minor scratches on the high-gloss surface may sometimes be buffed out with specialized furniture polish designed for high-gloss finishes. For significant damage, replacement parts may be available.
