Snow Peak Titanium Aurora Bottle

Snow Peak Titanium Aurora Bottle User Manual

Model: Titanium Aurora Bottle (800ml / 27 oz)

1. INTRODUCTION

Thank you for choosing the Snow Peak Titanium Aurora Bottle. This ultra-lightweight and durable water bottle is crafted from high-quality titanium, designed for outdoor enthusiasts and daily use. Its robust construction ensures longevity, while the pure titanium material prevents any metallic aftertaste, providing a clean drinking experience. This manual provides essential information for the proper use and care of your bottle.

2. INITIAL SETUP

2.1 Unpacking and Initial Cleaning

1. Remove the bottle and its cap from the packaging.
2. Before first use, wash the bottle and cap thoroughly with warm water and a mild dish soap.
3. Rinse all components completely to remove any soap residue.
4. Allow to air dry or dry with a clean cloth.

3. OPERATING INSTRUCTIONS

3.1 Filling the Bottle

- Unscrew the cap counter-clockwise to remove it.
- Fill the bottle with your desired beverage. Do not overfill; leave a small air gap at the top.
- The wide mouth allows for easy filling and adding ice cubes.

3.2 Sealing the Bottle

- Ensure the silicone seal is properly seated inside the cap.
- Place the cap onto the bottle opening and screw clockwise until it is securely tightened. Do not overtighten.
- Verify the seal by tilting the bottle to check for leaks.

3.3 General Usage

- The titanium construction ensures no metallic taste transfer to your beverages.
- This bottle is **not insulated**. The temperature of the contents will equalize with the ambient temperature.
- Exercise caution when filling with hot liquids, as the bottle exterior will become hot.

4. MAINTENANCE AND CARE

4.1 Cleaning

- **Hand wash only.** Do not use a dishwasher, as harsh detergents and high temperatures can damage the titanium finish and cap components.
- Use warm water and a mild dish soap. A bottle brush may be helpful for thorough cleaning of the interior.
- Remove the silicone seal from the cap periodically for separate cleaning to prevent mold or residue buildup.
- Rinse thoroughly and allow all parts to air dry completely before reassembling or storing.

4.2 Storage

- Store the bottle with the cap slightly ajar or removed to allow for air circulation and prevent odors.
- Store in a clean, dry place away from direct sunlight or extreme temperatures.

4.3 Titanium Care

- Titanium is highly durable but can scratch. Avoid abrasive cleaners or scouring pads.
- Minor scratches are cosmetic and do not affect the bottle's performance or integrity.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bottle leaks	Cap not tightened properly; silicone seal misplaced or damaged.	Ensure cap is securely tightened. Check that the silicone seal is correctly seated. Replace seal if damaged.
Unpleasant odor	Bottle not cleaned thoroughly; stored with cap tightly sealed.	Clean bottle and cap thoroughly, including the silicone seal. Store with cap removed or ajar.
Exterior scratches easily	Normal wear and tear; contact with abrasive surfaces.	This is typical for titanium products. Scratches do not impact functionality. Use a protective sleeve if desired.

6. SPECIFICATIONS
