### Osprey Rolling Transporter 90

# Osprey Rolling Transporter 90 Wheeled Duffel Instruction Manual

Model: 10003355

## 1. PRODUCT OVERVIEW

---

The Osprey Rolling Transporter 90 is a durable, high-capacity wheeled duffel designed for travel and gear transport. Its robust construction and intuitive features make it suitable for various adventures, offering reliable performance and ease of use.

Key features include a retractable handle, durable wheels, and multiple grab handles for versatile carrying options.

## 2. SETUP AND INITIAL USE

---

Before your first use, ensure all components are intact and functioning correctly.

1. **Inspect the Bag:** Check for any signs of damage from shipping.
2. **Extend the Handle:** Locate the button on the top of the handle. Press and hold the button while pulling the handle upwards until it locks into place.
3. **Open Main Compartment:** Unzip the main compartment zipper to access the interior.

### 3. OPERATING INSTRUCTIONS

---

#### 3.1 Packing Your Duffel

- Distribute weight evenly to maintain balance and ease of rolling.
- Utilize internal compression straps (if present) to secure contents and minimize shifting.
- Ensure zippers are fully closed before transport to prevent items from falling out.

#### 3.2 Transporting the Duffel

- **Rolling:** Use the extended handle and tilt the bag to engage the wheels. Pull the bag behind you.

- **Carrying:** For short distances or when rolling is not feasible, use the padded grab handles located on the top, side, and end of the duffel.

## 4. MAINTENANCE

---

### 4.1 Cleaning

- For light dirt, wipe the exterior with a damp cloth and mild soap.
- For stubborn stains, use a soft brush and a gentle cleaning solution. Rinse thoroughly and air dry completely before storage.
- Do not machine wash or tumble dry, as this can damage the fabric and structural components.

### 4.2 Storage

- Store the duffel in a cool, dry place away from direct sunlight when not in use.
- Ensure the bag is completely dry before storing to prevent mold or mildew.

## 5. TROUBLESHOOTING

---

- **Stuck Zipper:** Apply a small amount of zipper lubricant or a graphite pencil lead to the teeth. Gently work the zipper back and forth. Avoid forcing it.
- **Wheels Not Rolling Smoothly:** Check for debris (e.g., hair, lint) caught in the wheel axles. Clean as necessary. If wheels are damaged, contact Osprey customer support for replacement options.
- **Retractable Handle Sticks:** Ensure no fabric or items are obstructing the handle mechanism. Apply a silicone-based lubricant to the telescoping tubes if needed.

## 6. SPECIFICATIONS

---

Feature	Detail
Model Name	Rolling Transporter 90
Model Number	10003355
Capacity	90 Liters
Dimensions (L x W x H)	81.28 x 43.18 x 35.56 cm (approximately 32 x 17 x 14 inches)
