## SETUP AND CHARGING

---

### Initial Charge

Before first use, fully charge your Philips H9505 headphones. Connect the included USB-C cable to the charging port on the headphones and to a compatible USB power source. A full charge takes approximately 4 hours and provides up to 27 hours of playtime with ANC on or off. A quick 15-minute charge can provide an additional 5 hours of playtime.

### Powering On/Off

To power on the headphones, press and hold the power button until the LED indicator lights up. To power off, press and hold the power button until the LED indicator turns off.

Figure 4: Location of the power button and other controls on the right ear cup.

## BLUETOOTH PAIRING

---

The Philips H9505 headphones feature Bluetooth 5.0 for stable wireless connection and Google Fast Pair for quick pairing with Android devices.

### Pairing for the First Time

1. Ensure the headphones are powered off.
2. Press and hold the power button for approximately 5 seconds until the LED indicator flashes blue and red, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "PHILIPS H9505" from the list of devices.
5. Once connected, the LED indicator will turn solid blue.

### Multipoint Connection

These headphones support multipoint Bluetooth connection, allowing them to be simultaneously connected to two devices. For example, you can connect to your laptop for music and your smartphone for calls. If a call comes in on your phone while listening to music on your laptop, the headphones will automatically switch to the phone call.

## OPERATING INSTRUCTIONS

---

### Active Noise Canceling (ANC) and Awareness Mode

The Philips H9505 features Hybrid Active Noise Canceling to filter out external noise. To engage Awareness Mode and allow ambient sounds to pass through, simply cover the right ear cup with your hand. This is useful for quick conversations or when you need to be aware of your surroundings.

### Touch Controls

The headphones are equipped with intuitive touch controls on the ear cups for managing music playback and calls. Specific gestures for play/pause, track skipping, volume adjustment, and call handling are detailed in the full user manual.

Figure 6: The H9505 headphones feature convenient touch controls on the ear cups.

### Philips Headphones App

Customize your listening experience with the Philips Headphones app. The app allows you to fine-tune bass and treble, choose from preset sound styles, and switch between preset ANC modes with a single tap. Download the app from your device's app store or by scanning the QR code below.

## MAINTENANCE AND CARE

- Clean the headphones regularly with a soft, dry cloth.
- Avoid exposing the headphones to extreme temperatures, humidity, or dust.
- Do not use abrasive cleaners or solvents.
- Store the headphones in their protective case when not in use to prevent damage.
- The ear-cup cushions are made of memory foam for comfort; handle with care.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones using the provided USB-C cable.
Cannot pair via Bluetooth.	Headphones not in pairing mode; device Bluetooth off; too far from device.	Ensure headphones are in pairing mode (flashing blue/red). Turn on Bluetooth on your device. Move headphones closer to the device (within 10 meters).

Problem	Possible Cause	Solution
No sound or low volume.	Volume too low; headphones not connected; audio source issue.	Increase volume on headphones and connected device. Re-pair headphones. Check audio source.
ANC not working effectively.	ANC mode not active; improper fit.	Ensure ANC is enabled via the controls or Philips Headphones app. Adjust headphones for a snug fit over your ears.
