SETUP GUIDE

System Requirements

- Operating System: Windows 7 / 8 / 10
- Available USB port

Connecting Your Mouse

1. Locate an available USB port on your computer.
2. Plug the USB connector of the YEYIAN Gram Series 2000 Gaming Mouse into the USB port.

3. Your computer will automatically detect and install the necessary drivers. This process may take a few moments.
4. Once installed, the mouse's RGB lighting will illuminate, indicating it is ready for use.

OPERATING INSTRUCTIONS

DPI Adjustment

The YEYIAN Gram Series 2000 mouse features adjustable DPI (Dots Per Inch) settings, allowing you to change cursor sensitivity on the fly. The available DPI levels are **1200, 2400, 3200, and 6400 DPI**. Use the dedicated DPI button, typically located behind the scroll wheel, to cycle through these settings.

Figure 4: An angled view of the mouse, illustrating the placement of the scroll wheel and side buttons, which are key for DPI adjustment and programmable functions.

Programmable Buttons

This mouse is equipped with **8 programmable buttons**. These buttons can be customized using the YEYIAN software (if available, check the official YEYIAN website for downloads) to perform various functions, macros, or shortcuts, enhancing your gaming and productivity experience.

- **Left Click Button**
- **Right Click Button**
- **Scroll Wheel Click**
- **DPI Cycle Button** (behind scroll wheel)
- **Two Side Buttons** (typically for forward/backward navigation)
- Additional programmable buttons (refer to software for specific mapping)

RGB Lighting

The Gram Series 2000 features dynamic RGB lighting. The lighting effects are pre-programmed and typically cycle through various colors and patterns. Specific control over RGB lighting may be available through the YEYIAN software.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your gaming mouse.

- **Cleaning:** Use a soft, dry cloth to wipe down the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild electronics cleaner. Avoid harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the bottom of the mouse clean and free of dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure the USB cable is securely plugged into the computer. Try a different USB port. Restart your computer. Check Device Manager for driver issues (Windows).
Cursor movement is erratic or jumpy	Dirty optical sensor, unsuitable mouse pad surface.	Clean the optical sensor on the bottom of the mouse. Use a clean, uniform mouse pad surface.
DPI button not changing sensitivity	Software conflict, button malfunction.	Ensure no other software is overriding mouse settings. Try reinstalling mouse drivers (if applicable).

Problem	Possible Cause	Solution
RGB lighting not working	Power issue, software setting.	Ensure the mouse is properly connected and receiving power. Check YEYIAN software settings for lighting control.
