WOODBRIDGE B-0034

WOODBRIDGE B-0034/BTS1611 Freestanding Whirlpool and Air Bubble Bathtub User Manual

Model: B-0034/BTS1611

1. PRODUCT OVERVIEW

The WOODBRIDGE B-0034/BTS1611 is a deluxe acrylic freestanding bathtub designed to provide a comprehensive hydro-massage experience. It combines both whirlpool water jets and air bubble jets for maximum comfort and therapeutic benefits. This manual provides essential information for the safe and proper installation, operation, and maintenance of your bathtub.

2. SAFETY INFORMATION

Please read all instructions carefully before installation and use. Failure to follow these instructions could result in injury or property damage.

- **Electrical Safety:** Ensure all electrical connections are performed by a qualified electrician and comply with local codes. The bathtub requires 2 dedicated 15AMP 110V GFCI breakers.
- **Water Temperature:** Do not exceed 40°C (104°F) water temperature to avoid hyperthermia.
- **Supervision:** Children and individuals with health conditions should be supervised when using the bathtub.
- **Chemicals:** Use only approved bath additives and cleaning agents. Avoid abrasive cleaners.
- **Installation:** Installation must be performed by certified installer(s) to maintain warranty validity.

3. SETUP AND INSTALLATION

Proper installation is crucial for the performance and longevity of your WOODBRIDGE bathtub. Please review the following guidelines and consult the detailed installation manual included with your product.

3.1 Pre-Installation Checks

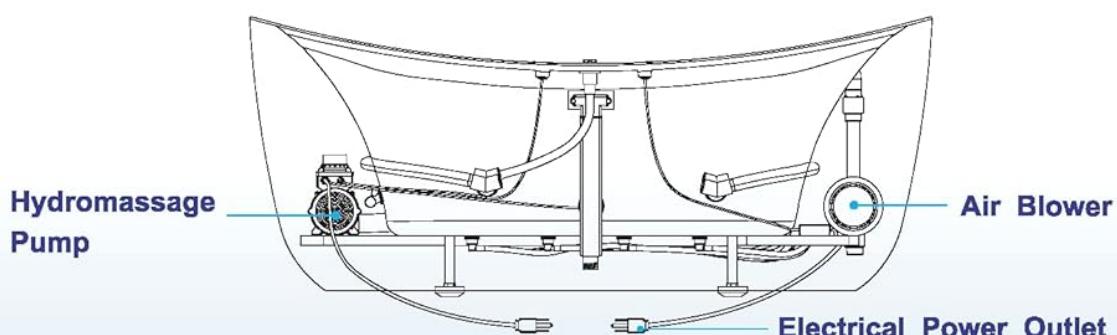

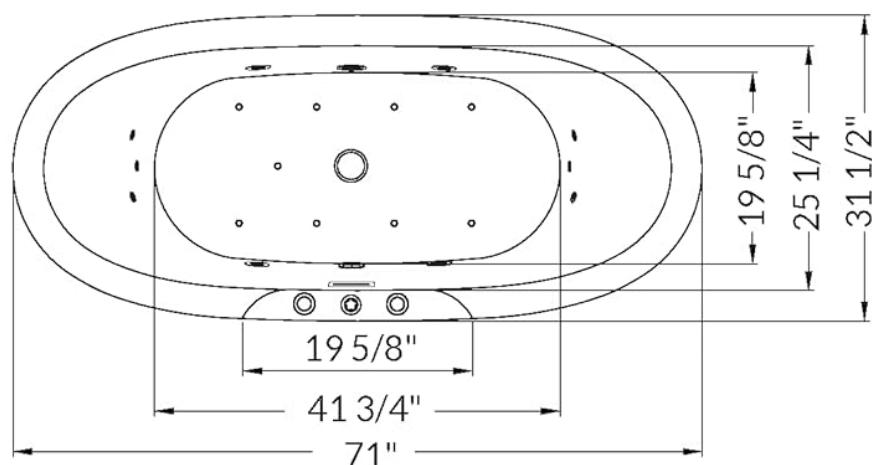

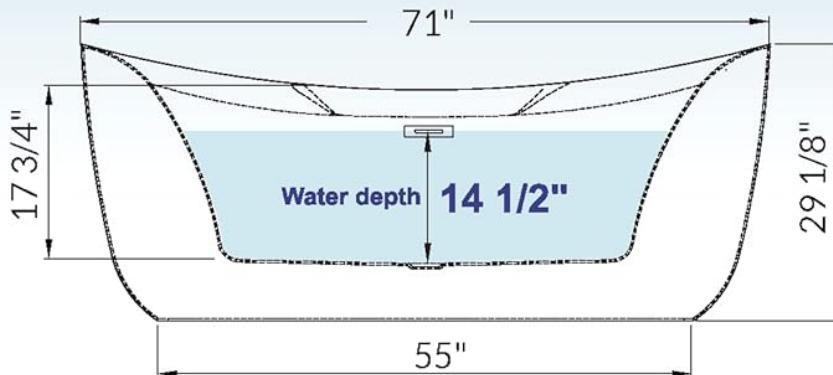

- Verify all components are present: Bathtub x 1, Pre-assembled chrome finish drain and overflow x 1, user guide and installation manual x 1.
- Confirm site dimensions and ensure adequate space for installation and future access to equipment.
- Ensure the floor can support the weight of the filled bathtub and bather.
- Confirm plumbing and electrical connections are ready according to local codes.

3.2 Dimensions and Specifications

Refer to the diagram below for detailed dimensions:

WOODBRIDGE®

B0034/BTS1611

- Exterior Dimensions:** 71" Long x 31-1/2" Wide x 29-1/8" Deep
- Seating Dimension:** 41-3/4" Long x 19-5/8" Width

- **Water Depth to Overflow:** 14-1/2"
- **Power Requirements:** 2 Dedicated 15AMP 110V GFCI Breakers

Note: Measurements are \pm 1/2" and subject to change without notice. Specifications and configurations are subject to change without notice. Please measure tub on-site before installation.

4. OPERATING INSTRUCTIONS

Your WOODBRIDGE bathtub offers a luxurious bathing experience with its advanced jet systems.

4.1 Filling the Bathtub

Ensure the drain is closed. Use the integrated faucet to fill the bathtub with water to the desired level, ensuring the jets are submerged.

Image: Detail of the chrome faucet and control knobs on the bathtub rim.

4.2 Activating Whirlpool Jets

The bathtub features 6 adjustable body massage jets. Press the designated control button to activate the whirlpool

system. These jets provide a concentrated, high-pressure massage.

Image: Close-up view of the whirlpool jets in action, creating a powerful water massage.

4.3 Activating Air Bubble Jets

The bathtub also includes 10 air bubble bath jets. Activate these jets via their control for a gentle, effervescent full-body massage. This aids in pain relief, muscle relaxation, and promotes oxygen and blood flow.

5. MAINTENANCE AND CARE

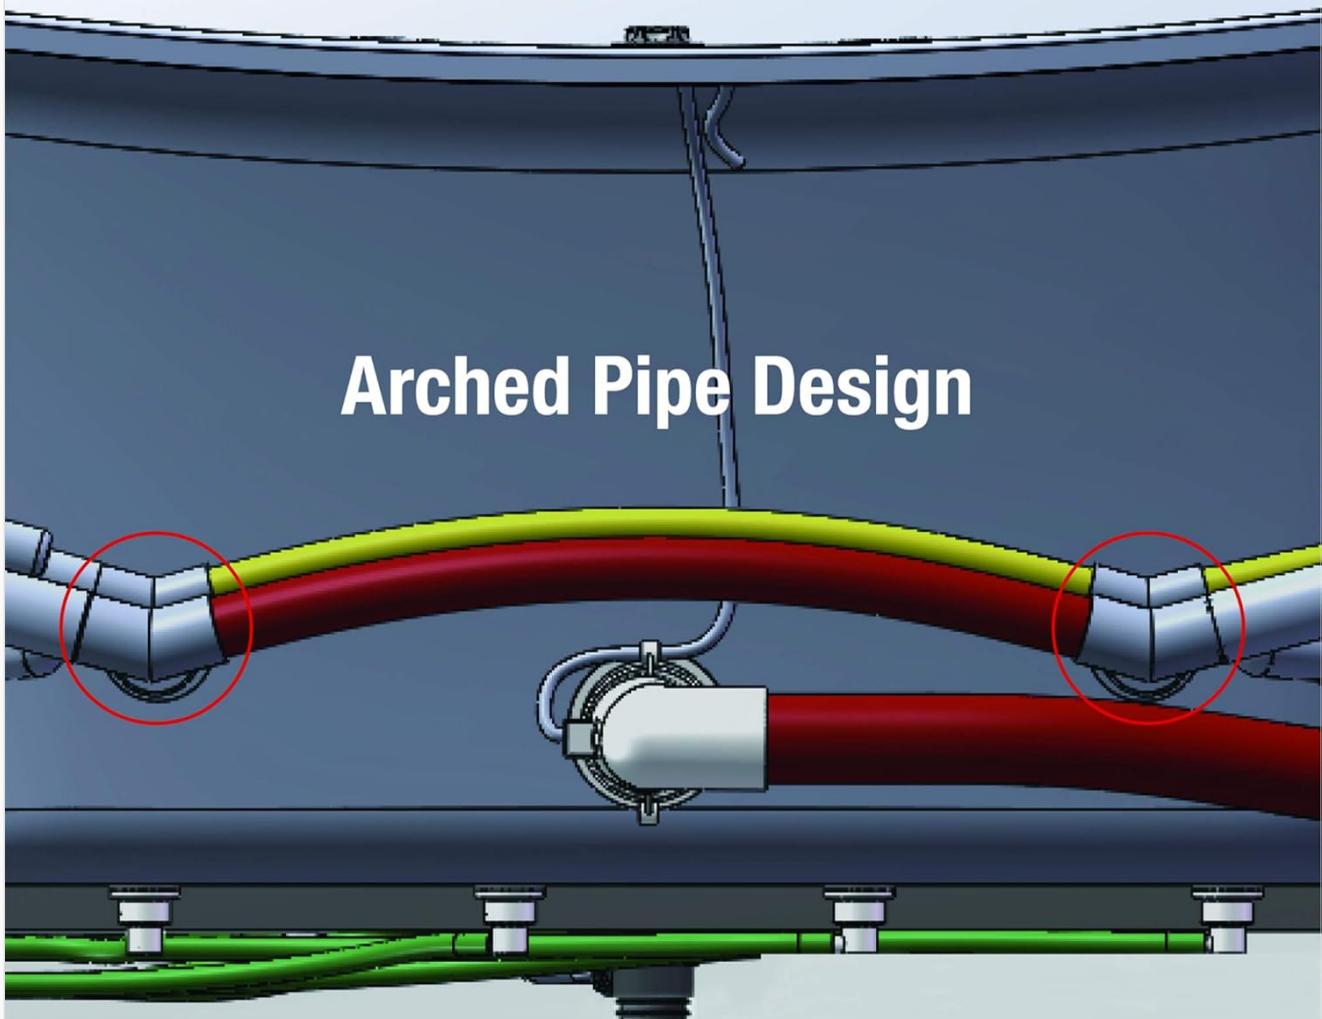

Regular cleaning and maintenance will ensure your WOODBRIDGE bathtub remains in optimal condition.

5.1 Cleaning the Bathtub

- Clean the acrylic surface with a soft cloth and non-abrasive cleaner.
- Avoid harsh chemicals, abrasive pads, or solvents that can damage the finish.
- For stubborn stains, consult the full instruction manual for recommended cleaning solutions.

5.2 Jet System Maintenance

The bathtub features an arched pipe design to facilitate complete water drainage after use, helping to keep the system dry and clean.

Arched Pipe Design

ARCHED Pipe design make sure no water remains in the system after use and leaves the system dry and clean for years

Image: A technical diagram highlighting the arched pipe design, which prevents water retention in the jet system.

- Periodically run the jets with a specialized jetted tub cleaner to prevent buildup.
- Ensure all jets are clear of debris.

6. TROUBLESHOOTING

If you encounter any issues with your bathtub, please refer to the comprehensive troubleshooting guide in the full instruction manual. Common issues and their solutions are typically covered there. For persistent problems, contact customer support.
