Redragon K608

Redragon K608 Valheim Rainbow Gaming Keyboard User Manual

Model: K608 | Brand: Redragon

1. Introduction

Thank you for choosing the Redragon K608 Valheim Rainbow Gaming Keyboard. This mechanical keyboard is designed for an enhanced gaming and typing experience, featuring durable blue switches, vibrant rainbow backlighting, and full N-key rollover. This manual provides detailed instructions on setting up, operating, maintaining, and troubleshooting your new keyboard to ensure optimal performance.

2. Product Features

- **Redragon Blue Switches:** Equipped with classic mechanical blue switches, providing tactile feedback and an audible click sound, ideal for typing and gaming.
- **Vibrant Rainbow Backlight:** Features 9 dynamic rainbow backlight modes and 8 preset gaming lighting ways, with 2 customizable modes for personalized aesthetics.
- **100% Anti-Ghosting (NKRO):** Ensures accurate simultaneous key actuation for all 104 keys, preventing missed

inputs during intense gameplay.

- **Durable Brushed Plate:** All 104 keys are securely fixed on a solid brushed surface board, offering durability and a modern minimalist design.
- **Neat Floated Design:** The floated key layout provides a natural and ample feel, making cleaning easier by preventing dust buildup.
- **Double-shot Frosted Keycaps:** Keycaps are designed with double-shot injection molding for clear, never-fading legends.

3. Package Contents

Please check the package contents upon unboxing:

- 1 x Redragon K608 Valheim Gaming Keyboard
- 1 x User Manual

4. Setup

Follow these simple steps to set up your Redragon K608 keyboard:

1. Unpack the keyboard from its packaging.
2. Locate an available USB port on your computer.
3. Plug the USB connector of the keyboard into the USB port.
4. Your operating system will automatically detect and install the necessary drivers. No additional software installation is required for basic functionality.

5. Operating Instructions

5.1. Backlight Modes

The Redragon K608 keyboard features multiple rainbow backlight modes. To cycle through the 9 preset backlight modes, press the **FN + INS** keys simultaneously.

The keyboard also includes 8 preset gaming lighting modes and 2 customizable modes. These can be accessed and configured for specific gaming scenarios.

5.2. Multimedia Keys and Function Shortcuts

The keyboard features function keys (F1-F12) that can be combined with the**FN** key to access various multimedia and system shortcuts. Refer to the keycap legends for specific functions.

- **FN + F1:** My Computer
- **FN + F2:** Search
- **FN + F3:** Calculator
- **FN + F4:** Media Player
- **FN + F5:** Previous Track
- **FN + F6:** Next Track
- **FN + F7:** Play/Pause
- **FN + F8:** Stop
- **FN + F9:** Mute
- **FN + F10:** Volume Down
- **FN + F11:** Volume Up
- **FN + F12:** Lock Keyboard

5.3. N-Key Rollover (NKRO)

The K608 supports 100% N-Key Rollover, meaning every key press is registered independently, regardless of how many keys are pressed simultaneously. This feature is crucial for fast-paced gaming and accurate typing.

Image: Diagram illustrating the NKRO technology, showing multiple simultaneous key presses being registered accurately.

6. Maintenance

To ensure the longevity and optimal performance of your Redragon K608 keyboard, follow these maintenance guidelines:

- **Regular Cleaning:** Use a soft brush or compressed air to remove dust and debris from between the keycaps. The floated design makes this process easier.
- **Keycap Cleaning:** For deeper cleaning, keycaps can be carefully removed using a keycap puller (not included) and wiped with a damp cloth. Ensure they are completely dry before reattaching.
- **Avoid Liquids:** Do not spill liquids on the keyboard. In case of accidental spills, immediately unplug the keyboard and allow it to dry completely before reconnecting.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.

7. Troubleshooting

If you encounter any issues with your Redragon K608 keyboard, refer to the following table for common problems and solutions:

Problem	Possible Solution
Keyboard not responding	• Ensure the USB cable is securely plugged into both the keyboard and the computer. • Try plugging the keyboard into a different USB port. • Restart your computer. • Test the keyboard on another computer to rule out a system issue.
Backlight not working or flickering	• Press **FN + INS** to cycle through backlight modes. • Adjust brightness using **FN + Up/Down Arrow** keys. • Ensure no software is interfering with keyboard lighting.
Keys are sticky or unresponsive	• Clean around and under the affected keycaps using compressed air. • Carefully remove the keycap and inspect the switch for any obstructions.
Specific keys not registering	• Ensure the keyboard is not in a special mode that disables certain keys (e.g., Win Lock). • Clean the affected key switch as described above. • If the issue persists, contact Redragon support.

8. Specifications
