SpaRoom Mini Scentifier Essential Oil Fan Diffuser Refill Pads Instruction Manual

Brand: SpaRoom | Model: 850020194322

INTRODUCTION

Thank you for choosing SpaRoom Mini Scentifier Refill Pads. These pads are designed to keep your Mini Scentifier Essential Oil Fan Diffuser operating at its best, ensuring a consistent and enjoyable aromatherapy experience. This manual provides clear instructions for the proper use and maintenance of your refill pads.

FEATURES

- Includes 6 individual refill pads.
- Designed for peak performance with Mini Scentifier diffusers (diffuser sold separately).
- Made from ultra-high grade, safe, and eco-friendly materials.
- Dimensions: 2.25" H x .06" W x 2.25" D.

Includes 6 individual refill pads

Keep your diffusers running at their peak performance with our Mini Scentifier Refill Pads.

Diffuser is sold separately.

Fan Diffuser Refill Pads - Mini Scentifier

The product packaging clearly indicates a pack of 6 individual refill pads for the Mini Scentifier diffuser.

Premium Quality

Our premium essential oil diffuser refill pads are made from ultra-high grade, safe, and eco-friendly materials and state-of-the-art production processes and strict quality control.

This image displays the elegant white Mini Scentifier diffuser alongside a stack of the premium quality refill pads, ready for use.

Directions

1

Gently lift plastic guard. Then lift used scent pad out of base and discard the used pad or save it for future use.

2

Place new pad on base and add essential oil directly to the pad, before the guard is in place. Note, do not saturate the pad.

3

Reposition the plastic guard on top of the new pad. Make sure guard snaps into place before reattaching to the unit.

Three refill pads are shown, illustrating their 2.25-inch width and providing a visual context for their intended use in the diffuser.

SETUP & INSTALLATION

Follow these steps to replace your Mini Scentifier Refill Pad:

1. Gently lift the plastic guard from your Mini Scentifier diffuser.
2. Lift the used scent pad out of the base. You may discard the used pad or save it for future use in an airtight container.
3. Place a new refill pad onto the base of the diffuser.
4. Add your desired essential oil directly to the new pad. **Note:** Do not saturate the pad.
5. Reposition the plastic guard on top of the new pad. Ensure the guard snaps firmly into place before reattaching the top of the unit.

Usage

Replace diffuser pad filter when changing fragrances or after extended use in your Mini Scentifier. To store used pads, place in an airtight container or resealable bag.

A clear, step-by-step diagram guides the user through the process of replacing the diffuser pad, from lifting the plastic guard to inserting a new pad.

Mini Scentifier™ Refill Pads

Replace when changing fragrances or after extended use. To store used pads, place in an airtight container or resealable plastic bag.

1

Gently lift plastic guard. Remove used scent pad out of base. Discard or store for later use.

2

Place new pad on base. Add essential oil directly to pad, before the guard is in place. Note: Do not saturate pad.

3

Reposition the plastic guard on top of new pad. Make sure guard snaps into place before reattaching to unit.

OPERATING INSTRUCTIONS

Once the new refill pad is in place and essential oil has been added, ensure the plastic guard is securely snapped back onto the diffuser base. Then, reattach the top of your Mini Scentifier unit. Refer to your Mini Scentifier diffuser's main instruction manual for specific power-on and operation details.

MAINTENANCE

- Replace the diffuser pad filter when changing fragrances to prevent scent mixing.
- Replace the pad after extended use to maintain optimal diffusion performance.
- To store used pads for future use with the same fragrance, place them in an airtight container or resealable bag to preserve their scent and prevent drying.

TROUBLESHOOTING

No specific troubleshooting steps are provided for the refill pads themselves. If your Mini Scentifier diffuser

is not functioning correctly, please refer to the troubleshooting section of your diffuser's main instruction manual. Ensure that the refill pad is correctly inserted and not overly saturated with essential oil.

SPECIFICATIONS
