nanoblock Kimono Girl Collection Series Building Kit Instruction Manual

Model: NBC_358

Introduction

This instruction manual provides detailed guidance for assembling the nanoblock Kimono Girl Collection Series Building Kit (Model: NBC_358). Please read all instructions carefully before beginning assembly to ensure a correct and enjoyable building experience. This kit is designed for ages 8 and up.
The nanoblock Kimono Girl kit features approximately 120 pieces, allowing for the creation of a detailed 3D model. The difficulty level is rated 2 out of 5, making it suitable for builders with some experience or those new to nanoblock with patience.

Safety Information

WARNING: CHOKING HAZARD - Small Parts. Not for children under 3 years.

- Keep all small parts away from young children and pets.
- Do not put nanoblock pieces in your mouth.
- Dispose of packaging materials properly.

Package Contents

Verify that all components are present before starting assembly.

Setup

1. **Unpack Components:** Carefully open the product box and remove all nanoblock pieces and the instruction sheet.
2. **Prepare Workspace:** Choose a clean, flat, and well-lit surface for assembly. This will help prevent loss of small pieces and improve visibility.
3. **Sort Pieces (Optional but Recommended):** For easier assembly, you may sort the nanoblock pieces by color or size. This can significantly reduce building time.

Assembly Instructions

Follow the step-by-step diagrams provided in the included instruction sheet. Each step illustrates the placement of specific nanoblock pieces to gradually build the Kimono Girl model.

- **Start from the Base:** Most nanoblock models begin with the base structure. Identify the base pieces and connect them as shown in the first steps of the manual.
- **Layer by Layer:** Nanoblock models are built in layers. Ensure each layer is securely connected before proceeding to the next.
- **Pay Attention to Detail:** The small size of nanoblock pieces requires careful attention to orientation and placement. Refer to the diagrams frequently.
- **Use Gentle Pressure:** Apply firm but gentle pressure to connect pieces. Excessive force is not necessary and may damage the blocks.

Maintenance

- **Cleaning:** To clean your assembled nanoblock model, gently dust it with a soft brush or a can of compressed air. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** Store the assembled model in a stable location to prevent accidental disassembly. If disassembling for storage, keep all pieces in a sealed container to avoid loss.
- **Handling:** Handle the model carefully, especially when moving it, to prevent pieces from detaching.

Troubleshooting

Problem	Possible Cause	Solution
Pieces do not fit together	Incorrect piece orientation or wrong piece selected.	Double-check the instruction diagrams for correct piece type and orientation. Ensure the studs align with the holes.
Model is unstable or falls apart	Pieces are not fully pressed together or a step was missed.	Gently press all connected pieces to ensure a secure fit. Review previous steps in the instruction manual to confirm no steps were overlooked.
Missing pieces	Pieces may be overlooked or accidentally discarded with packaging.	Thoroughly check your workspace and packaging. If pieces are genuinely missing, contact customer support (see Warranty and Support section).
