Operating (Display and Handling)

Once assembled, your Nanoblock Buffalo Man model is designed for display. Place it on a stable, flat surface away from direct sunlight and extreme temperatures to prevent material degradation and color fading.

Handle the model with care to avoid accidental disassembly. While Nanoblocks are designed to fit securely, excessive force or dropping can cause pieces to detach. It is not intended as a toy for rough play.

Maintenance

To keep your Nanoblock model clean, gently dust it with a soft, dry brush or a microfiber cloth. Avoid using water or chemical cleaners, as these can damage the blocks or printed details.

For stubborn dust in crevices, a can of compressed air can be used carefully. Ensure the model is stored in a clean, dry environment when not on display to prevent dust accumulation and maintain its appearance.

Troubleshooting

Missing Pieces

If you find any pieces are missing from your set, first double-check the packaging and assembly area thoroughly. Small Nanoblock pieces can be easily overlooked. If pieces are genuinely missing, please contact KAWADA customer support with your model number (NBCC_118) and details of the missing parts.

Difficulty Connecting Pieces

Ensure pieces are correctly aligned before applying gentle, even pressure. Nanoblocks are precision-engineered, and forcing misaligned pieces can cause damage. Refer to the instruction booklet to confirm correct piece orientation and connection points.
