nanoblock NBPM078

nanoblock Pokemon Chimchar Building Kit Instruction Manual

Model: NBPM078

INTRODUCTION

The nanoblock Pokemon Chimchar Building Kit allows you to construct a detailed miniature model of the Chimchar Pokemon. This kit is designed for enthusiasts aged 8 and up, offering a rewarding building experience with micro-sized blocks.

Key features of this building kit include:

- Approximately 150 micro-sized pieces for intricate detail.
- Model stands approximately 2.44 inches tall upon completion.
- Difficulty level 2 (on a scale of 1 to 5), suitable for beginners and intermediate builders.
- Officially licensed Kawada product, ensuring quality and authenticity.

SAFETY INFORMATION

WARNING: CHOKING HAZARD. This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended during assembly, especially for younger users.

SETUP

Before beginning assembly, ensure you have a clean, well-lit workspace. Carefully open the packaging and empty all contents onto your work surface. Verify that all pieces are present by comparing them with the parts list provided in the included instruction booklet. The nanoblock pieces are very small, so take care not to lose any during setup.

ASSEMBLY INSTRUCTIONS

This nanoblock kit includes a detailed step-by-step instruction manual. Follow these instructions carefully to assemble your Chimchar model. Due to the micro size of the blocks (as small as 4mm x 4mm x 5mm), precision is key. It is recommended to work systematically, layer by layer, as shown in the diagrams.

The difficulty level for this model is rated as 2 out of 5, making it an accessible build for those with some experience or patience. If you encounter difficulty, review the previous steps and ensure all blocks are correctly placed and firmly connected.

MAINTENANCE

To maintain the appearance of your nanoblock model, gently dust it with a soft brush or a can of compressed air. Avoid using water or chemical cleaners, as these may damage the plastic or loosen the connections between blocks. Store the completed model in a stable location away from direct sunlight and extreme temperatures to prevent discoloration or warping.

TROUBLESHOOTING

- **Missing Pieces:** Carefully re-check your workspace and the packaging. Due to their small size, pieces can be easily overlooked. If a piece is genuinely missing, refer to the support information for assistance.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply gentle, even pressure. If a block seems

too tight, try a different block of the same type, as manufacturing tolerances can vary slightly.

- **Model Instability:** Double-check that all blocks are firmly pressed together and that you have followed the instructions precisely. Incorrect placement of even a few blocks can affect the overall stability.

SPECIFICATIONS

Attribute	Detail
Brand	nanoblock
Model Name	nanoblock - Chimchar [Pokémon], Pokémon Series Building Kit
Model Number	NBPM078
Subject Character	Chimchar
Number of Pieces	150
Difficulty Level	2 (out of 5)
Recommended Age	8+ (Manufacturer recommended age: 15 years and up)
Item Dimensions (Completed)	1.89 x 1.89 x 2.44 inches
Item Weight	31 g
Material Type	Plastic
Manufacturer	Kawada

WARRANTY AND SUPPORT

This nanoblock product is an officially licensed Kawada item. For product support assistance within the United States, please refer to the contact information provided on the Bluefin / Bandai Namco warning label affixed to the product box. This label serves as proof of purchase from an authorized U.S. retailer and ensures access to official support channels. Specific warranty details are typically outlined on the product packaging or within the included documentation. Please retain your proof of purchase for any warranty claims or support inquiries.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
